—The land over which this part of the
city is now so agitated was sold to the
Newton Bank, afterward the Newton
National Bank, in 1848 by John H. Rich-
ardson for about \$1300. There were a
number of conditions and restrictions in
the deed among others one that it should
be used only for a bank building, and the
remainder should be laid out as a park and
fenced in so that the public should not
acquire rights in it. In 1880 the bank
secured a release of all the conditions and
restrictions from the heirs of the said
Richardson, thus giving them a title with-
out any conditions.

—The visit of the city council to the
bank lot, Tuesday afternoon, attracted a
number of spectators, and there seemed to
be but one opinion, and that was that the
lot ought to be seized. Whether the city
could afford it was another question. A
committee has been appointed to see what
can be done about raising money, and
notices have been sent to the property
owners in the vicinity that the city pro-
poses to seize the lot under the betterment
act, and will give a hearing Oct. 9th.

Meanwhile H. F. Ross's men keep on
working, and yesterday they cut down one
of the largest trees, which is rather to be
regretted as some of the trees might be
saved, if the lot is taken. The great
obstacle to taking the land seems to be the
amount of damages claimed by Mr. Ross,
which is \$3000. But Mr. Ross is a very
public spirited man, and in the case of
such a great public improvement, he will
probably make the damages as light as pos-

Organ Recital.

Lovers of music will be interested in the
announcement that Mr. J. Wallace Good-
rich has consented to give an organ recital
before his departure for Europe, at Eliot
church, next Wednesday evening, Oct. 7, at
8 o'clock. This will be the only opportu-
nity to hear Mr. Goodrich, and the public
are cordially invited to attend. A few
have been privileged to hear Mr. Goodrich
since his return, and they are very enthu-
siastic over his playing, and it is generally
conceded that he stands at the head of the
organists in this country. His two years
of study abroad have evidently been im-
proved to the utmost, although he was al-
ways a brilliant musician. This opportu-
nity will be a great treat to his friends in
Newton and to lovers of music generally,
and the church will probably be crowded.

Daughters of Revolution.

All ladies in Newton who are interested
in the forming of a local chapter of Daugh-
ters of the Revolution in this city, or who
wish information in regard to application
papers for membership in such society, are
invited to the Newton clubhouse on Satur-
day afternoon, at three o'clock. Miss
Sarah E. Hunt, vice regent of the state
society, will be present and address the
meeting.

Associated Charities.

The annual meeting of the Associated
Charities will be held in room 7, Central
block, Newtonville, on Thursday, Oct. 8,
at 4 p. m. All directors, visitors, and other
members are urged to be present.

Mary R. Martin, Sec'y.

Millinery Opening.

Mrs. E. A. Smith invites her patrons and
friends in Newton to attend her opening of
fall and winter millinery, on Wednesday,
Thursday and Friday, Oct. 7, 8 and 9, at
202 Moody street, Waltham.

It will pay you to hear Dr. Flower's
famous lecture at Eliot Hall next Tuesday
evening on "The Triumph of Woman and
Glory of Man."

THE CITY GOVERNMENT.

SHORT SPECIAL SESSION FOLLOWED BY A JOINT HEARING ON THE TAKING OF THE BANK PROPERTY—CITY HALL CROWDED BY THOSE WHO FAVOR THE SCHEME—THE BANK PEOPLE'S SIDE.

Mayor Cobb presided at the special meeting of the board of aldermen Monday evening, and all the members were present. The principal business of the evening was a hearing on the petition of H. E. Hibbard and others for the taking of the bank property at Newton for a public square, and more than 300 representative citizens of Wards One and Seven appeared to further the petition.

The board assembled at eight. A hearing was at once opened on the petition of the Newton & Watertown gas company for pole and wire location on Forest avenue. No one appeared and the hearing was closed. A petition of L. A. Kimberley and others for a street light on Perkins street was referred to the street light committee, and a hearing was ordered for Oct. 19 on the petition of the Newton & Watertown gas company for permission to attach wires to poles of the Commonwealth avenue street railway company on the boulevard.

Petitions for concrete sidewalks on Hammond and Lincoln streets were received, and were referred to the highway committee.

On motion of Alderman White, Walter Chesley was granted permission to move three small buildings from West street through Eliot, Chestnut and Oak streets. J. W. Lindsey and others were referred to the street light committee on petition for gas light on Bunkar road. On motion of Alderman Downs permission was granted various campaign drum corps to parade through the streets.

Alderman Allen presented a petition of E. L. Clarke and others for sewer on Highland avenue, which was referred to the proper committee.

Alderman Degen for the finance committee presented a report on the petition of the highway, sewer and water department laborers for an increase of wages to \$2 per day. The report stated that in the opinion of the committee it was inexpedient to grant the increase at the present time on account of the unsettled condition of the labor market. It further called attention to the fact that many old men were employed on city departments, who were incapable of performing a full day's work. Newton had employed only its own citizens and had given them steady employment in its improvements at wages, which were in advance of those paid in many cities. For these reasons the committee recommended that the petitioners be given leave to withdraw. The report was accepted.

Petitions for concrete sidewalks on Gibbs and Exeter streets were received and referred to the highway committee. The same committee reported favorably on petitions for sidewalks and sidewalks on Beacon streets, and Commonwealth avenue at a cost of \$4067. An order was adopted appropriating \$152,900 for the department expenses of the city during the month of October. The order passed 21 yeas, giving the Newton & Watertown gas company a location on Devon road, Ward 6, was rescinded on motion of Alderman Greene.

At 8:30 the board went into joint session in the council chamber for the hearing. Mayor Cobb presided. The hearing was one of the liveliest held at City Hall this year, and towards the close the remarks of the opposing counsel became decidedly personal.

Hon. Thomas B. Fitzpatrick of West Newton was the first speaker. He spoke in part as follows: "It has been a source of regret to me that there has been any possibility of any building being erected in this square. There is no more conspicuous place in the city. If the square were larger there might be some excuse for the erection of this building, but small as it is, and surrounded by high buildings the streets will become little more than narrow passages. This building will be a detriment to adjacent property, and to all that on Washington street. Its erection is opposed to our new policy of wide streets and boulevards. This is the opening into our city, by which we are to be judged by the stranger. It will be anything but a credit to allow the erection of this building, which will prevent the completion of the great improvement, which you have begun on Washington street. It will be a source of regret twenty years from now. Taxes are high, but we are getting a magnificent return for them. No city in the Commonwealth gives more, and we cannot afford to let the question of expense stand in our way."

Mr. W. C. Bates followed. He said, when you made an 85 foot avenue you narrowed it at its most important point to 60 feet. You propose to pour all the travel through this narrow opening. This is against the course of nature, and you can't afford to do it. You say you can not afford to spend so much money. You can't afford it better than you can twenty years from now. Do not let the opportunity slip by. Your street as now laid out will be too narrow for business, and will be dangerous with two tracks and the immense stream of traffic which will flow through it. Mr. Richardson's original plan for a public park at this spot, and I believe, it should be carried out.

Hon. Gorham D. Gilman said: "It seems to me that every one, who passes through that street, must see the absolute necessity of so widening it as to make room for foot passengers, wagons and cars. The city council has already taken some of the bank land, and what is left should be incorporated in the street. This is not a personal affair with any of us. We live for the most part on the north side of the village, and are seldom called into the square. This improvement is not for our wards alone, but for the entire city. It will not be long before there are four street car lines converging in the square. Then the necessity for a broad square will be more apparent. We ask that this land be made a part of the street, not that it be made a public park. The improvement of Washington street has done more for Wards Two, Three, and Four than for us, and should not be counted against us."

"Ward Two's square was widened in making the Washington street improvement. The bank property is so small that its cost cannot be very great. The bank can find another equally central location, and its business need not be interfered with in the least. This improvement will be for the benefit of the whole city, and can be accomplished at comparatively small expense. The cost can be put into a 40 year bond."

E. J. H. Estabrook thought there was no need of arguing the question. The need of making the bank property into a square was evident. A park could not be made of it. It was needed simply for business purposes, and must be used as a street. It was senseless to spend that amount of money, which Washington street had called for, and then spoil the whole improvement."

George L. Travis stated that he had no personal interest in the matter. The land was wanted, in no sense for a park, but as a public necessity, in addition to the street room available for business purposes. The lot originally contained 7800 feet, and the city had taken 2400, leaving 5400 square feet. It was proposed to have

Washington street, 85 feet wide above, only 60 feet wide at this most important point. It was proposed to have the main thoroughfare of the city and against the present bank building. There was no necessity of arguing on these points. They were sufficient in themselves. The city would only be obliged to pay for the small returned by the increase in adjacent property valuation. The question was one, which would never be settled until it was settled right, and it could be settled with the most economy at the present time."

F. M. Dutch of West Newton regarded the street at 60 feet as dangerous, and considered the plan proposed by the citizens of Ward Seven a wise one. W. E. Sheldon, Prof. Varren, and Walter Lawson also favored the plan.

Harry W. Mason appeared in behalf of the Newton Savings bank, and stated that he had been instructed to present facts, not to oppose the taking of the land by the city.

The bank site, he said, was selected two generations ago as the one best fitted for a banking business. It was doubtful, if the country today, there was another bank so well and safely situated.

The bank officials had used every endeavor to find out the city proposed to do, and were told by the members of the city council that the city could not and would not under any consideration purchase the property.

We have gone ahead under these conditions, and feel that the city must pay us. What we will have to pay out. There will be a heavy loss on the building materials, which have been prepared especially for this building. It will cost the bank about \$30,000 up its contract. The city cannot in honor do less than relieve the bank of this burden.

Mr. Mason read a letter from B. W. Preston describing the bank property as particularly valuable for banking purposes.

Conclusion Mr. Mason stated that the bank would expect to be compensated for the loss of location. The total cost of taking the land, he said, would not fall short of \$50,000.

Alderman Tolman—"Whom did you approach in regard to the purchase of this property by the city?"

Mr. Mason—"I did not see I approached anyone. I talked with his honor, the mayor."

Pres. Wing—"I never heard anything about this proposed purchase."

Mayor Cobb—"I had a talk incidental to other business with Mr. Mason the other day, in which the bank was mentioned. It was after the building was moved, and when the plans for the new structure were being made. I told Mr. Hyde and Mr. Mason that in my opinion the city council would hesitate at so large an expenditure as would be required for the purchase of the building. I cannot conceive how this statement of my opinion could be construed into an official utterance."

William F. Bacon appeared in behalf of the national bank. The property, he said, could not be secured for less than \$55,000. Not only this, but the city would lose \$100,000 worth of taxable property.

He did not feel that there was any public necessity for the proposed seizure, and protested not only in behalf of the national bank, but for a number of large taxpayers, against such extravagance. The bank building would be an ornament to the city.

Washington street would never again be so crowded as in the past. The opening of Richardson street and Centre place would divert traffic from the street, and on either side of the bank building there would be one street car track.

Mr. E. H. Mason said that when the playground was laid out in Newton Centre, the people contributed more than half the sum needed. When the boulevard was laid out the people on the south side of the city contributed and money. They did not do this when the boulevard ran through the north side. The city council should remember these facts when considering this proposition, and should be careful about entering into any new and needless expense.

W. F. Harbach also objected to so large an expenditure when the city's finances were in such an exhausted condition.

John Ward suggested that Newton people should pay for the park as Newton Centre people had paid for the boulevard. He considered such an expenditure unwarrantable at the present time.

Mr. Travis replied for the petitioners. There was no comparison, he said, between the cases mentioned. When the people of Newton asked for a playground, they would admit that public necessity did not enter into the case. When they asked the city to develop undeveloped land for them, as in the case of the boulevard, they would not claim that public necessity entered into the case. He did not believe the city council had ever given the bank people any assurances, and if they had not, the entire case made by Mr. Mason was a failure.

In regular session of the board, orders were adopted, appropriating \$3000 for the payment of land damages on account of the construction of Jackson road, and \$5000 for the construction of a culvert and drain in the cold spring swamp district.

At 11 the board went into executive session.

Scratch Men in Road Races.
[Boston Herald.]

The Herald has always held that, by working together, the scratch men in a road race could make their way through the largest of fields. This was borne out in the Newton Cycle Club 10-mile event last Saturday, when the three scratch men, by alternating in setting the pace, instead of fighting among themselves, not only got the leading positions, but also captured the three time prizes. This is something unusual, and only goes to show what golden opportunities the scratch men have in this event.

All of the three scratch men in this event freely admit that, had they not worked together, they would not have caught such high positions in the race, and, furthermore, the chances are that they would not have caught time prize, for the other low markers were travelling along at a pretty rapid pace, and were not overhauled until the latter portion of the contest.

The practice heretofore has been for the scratch men to refuse to set pace for each other, for fear that one would jump and try to get away from the others. But in this event the compact was made and kept, and the chances are that the next time these three men find themselves together on scratch they will go and do likewise again.

The Best Family Cathartic.
For a general home medicine, Hood's Pills are unequalled. They were prepared for family use and they have been found entirely satisfactory wherever they have been used. Their sale has gradually extended until today the demand for Hood's Pills is "the coming pill." They relieve and cure so many troubles that they are really a whole medicine chest. They are mild and yet efficient.

THE COMING ELECTION.

THE VIEW THAT THE COMMON MAN TAKES OF IT.

[Springfield Republican.]

If any one can tell how the average man of this sort looks at the present contest, he can pretty well forecast who is going to be the next president. We venture our guess. We guess that this typical citizen is satisfied that the currency question is a very complicated one, that most of the wise folks don't know half as much as they pretend to, and that he himself very soon gets out of his depth when he studies it. But he inclines—as we judge—to two or three pretty confident beliefs.

First, and surest, he believes—yes, he knows,—that the bitter language and passionate anger on both sides goes far beyond what the two parties deserve. He knows that the Bryan men as a mass are not archists or knaves or fools. He knows that the McKinley party does not stand for oppression and extortion nor desire to grind the face of the poor. He respects the two candidates—we beg pardon, the three candidates—and believes the honest citizenship of the country is pretty well divided between the parties. And whether McKinley or Bryan is elected, he expects that business will go on, and school will keep, and pious folks will go to meeting, and the boys will play ball, and the sun will shine when the clouds do not hide it, and the world will not be very different in 1897 than it is in 1896.

As to the essential merits of the question, the typical citizen—as we read him—is coming to tie principally to two convictions. First, in the opposing interests of the debtor and creditor, it seems to him that free silver would turn the scale unfairly. In the great majority of cases the creditor would get back a smaller dollar than he lent. And there is one, the biggest debt of all, of whom the typical citizen feels himself very closely a part, and that is Uncle Sam. The old gentleman has out promises to pay to the tune of a good many hundred millions, and is going to plead the baby of the bankrupt act and pay back small dollars where he borrowed big ones? Not if his children know themselves—and they think they do. After all arguments are heard, and crediting the man of the free silver party with belief in their own logic, the typical citizen comes back to the conviction that free silver practically leads to a partial repudiation of public and private debts. That is enough to condemn it.

The other conviction is this, that the proposed change is certain to result in the first instance in a great commercial panic and general financial distress,—this is the practical effect of the measure, and as to its more distant results there is the widest diversity of opinion. The immediate damage is sure, the ultimate gain at the best is problematical.

Our typical citizen then—if our guess is right—is convinced, or is becoming so, that free silver involves practically a large repudiation of debts, and that it threatens grave immediate injury to the community, with great uncertainty as to future benefit. So on both moral and prudential grounds we think he will oppose free silver; and as he is a citizen, and not an elector, he will vote for McKinley—and elect him.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and cathartic is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison, Headache, Indigestion, Constipation, Dizziness, yield to Electric Bitters. 50c. and \$1.00 per bottle at J. The Newton Hospital.

The quarterly meeting of the trustees of the Newton Hospital was held at the Nurses' Home on the 28th. Fifteen were present. Reports were made by the treasurer, the executive committee, the finance committee, the managers of the nurses' training school, and other branches of the work.

The treasurer's report showed that all bills had been paid to date and that there was a balance on hand. This balance, however, being needed as a contingent fund, there would be a call for generous offerings on Hospital Sunday the coming November.

The executive committee reported that the daily average number of patients in the Hospital in June was 44, in July 32, in August 30. The admissions in June were 53, in July 45, in August 42, or 140 in three months. The earnings of the nurses and the results from private patients amounted to nearly \$2000. The expenses aggregated almost \$6000 for the quarter.

The most recent gift to the Hospital is the X-ray instrument which is being prepared by Mr. Stanley of Ward 7, and will be a very valuable help in the surgical department.

The Hospital is in a flourishing condition but needs steady help to keep it going. Just now the special inquiry is for some generous citizen who will build one of the two surgical wards. An offer has been made of one ward, but the two have to go up together.

As soon as some one can be found to supplement the first gift the new surgical department will be begun.

An offer of a children's ward has been made, but awaits action on the part of the ward. All additions to the main part in the future are to be of permanent materials. Portraits of former matrons have been placed on the walls of the parlor of the Nurses' Home. Miss Pray, Miss Peters and Miss Palmer.

As was said by one of the trustees in referring to the matrons of the Hospital: "This institution has been remarkably blessed in having at its head four such women in succession. Rare in their qualities, devoted to their duties and eminently successful in their work. We can point with honest pride to these paragon of the wall and to the present occupant of the office."

CAN CURE ASTHMA AND HAY FEVER.

A NOTED PHYSICIAN OFFERS TO PROVE THIS TO ALL SUFFERERS IN NEWTON.

The majority of sufferers from Asthma and kindred complaints, after trying Doctors and numberless Remedies advertised as positive cures without avail, have come to the conclusion that there is no cure for this most distressing disease, and these same persons will be the more in doubt and skeptical when they learn through the columns of the press that Dr. Rudolph Schiffman, the recognized authority who has treated more cases of these diseases than any living Doctor, has achieved success by perfecting a remedy which not only gives immediate relief in the worst cases but has positively cured thousands of sufferers who were considered incurable. These were just as skeptical as some of our readers now are. Dr. Schiffman's remedy no doubt possesses the merit which is claimed for it or he would not authorize this paper to announce that he is not only willing to give free to each person suffering from Asthma, Hay Fever, or Bronchitis, a copy of his "free trial book" of his Cure, but he urgently requests all sufferers to call at Arthur Hudson's drug store, 320 Centre street, within the next three days and receive a package absolutely free of charge, knowing that in making the claim he does for his Cure, a strong doubt may arise in the minds of many, and that a personal test, as he offers to all, will be more convincing, and prove its merits, than the publishing of thousands of testimonials from persons who have been permanently cured by the use of his Asthma Cure. "Dr. Schiffman's Asthma Cure," as it is called, has been sold by Druggists of this city ever since it was first introduced, although many persons may never have heard of it, and it is with a view to reaching these that he makes this offer. This is certainly a most generous and noble offer, and all who are suffering from any of the above complaints should remember the date and place where the distribution will be made, and avail themselves of the same. Persons living in this city who desire to test the efficacy of this most wonderful remedy will receive a package free by mail by writing to Dr. R. Schiffman, 330 Rosabel street, St. Paul, Minn., providing their letter is received before Oct. 10th, as no free samples can be obtained after that date.

A Remarkable Mineral Water.

Readers of this paper will find the advertisement calling attention to Ypsilanti Specific, a natural mineral water.

The powers and virtues claimed for this water are remarkable, but the YPSILANTI SPECIFIC CO., of 140 Broad St., BOSTON, is prepared to furnish evidence at any time to anyone of the truth of every claim made. Dealers throughout New England have this water for sale in one-half gallon bottles, or it can be had by sending an order to the company. The price of Ypsilanti Specific is the same as that of other medicinal waters, viz., 60c. per half gallon bottle, \$6.75 per case of 12 bottles, with a rebate of 75c. on return of the case and empty bottles, making the net price, \$6.00 per case.

THE REPRESENTATIVE FIGHT.

It seems to be anybody's race for the nomination for Representatives, no one candidate having, as far as can be learned, enough votes to carry the convention. The announcement of the special fight that was being made against Alderman Greene has set his friends to work, and he is said now to lead the list, although there are all sorts of combinations that can be made against him, before the convention meets next week. Mr. Greene certainly deserves the honor and he has proved by his course in the city council that it would be for the interest of Newton to have such a man in the legislature.

He has the delegates from Wards One and Two, and his friends were only defeated by three votes in the Ward Three caucuses, the opposition being led by ex-Alderman Bullard, and it is said that he will have some scattering votes about the city.

The other candidates seem to have changed places somewhat since last week. Mr. Langford, who was looked upon as a sure winner, has now fallen to the doubtful class, no one seems able to explain why, and unless his friends are more active than they have been, some one else will carry off the honors.

The announcement made in the GRAPHIC that Mr. Pickard was seriously a candidate has caused his friends to take hold in earnest, and he is thought to stand as good a chance as any one on the list. He has friends all over the city who have been indebted to him for help in many a hot local fight, and he has never asked or been willing to accept office before, so that he has received offers of support from nearly every ward.

Mr. Hollis has the support of Ward Seven, and is said to have scattering votes enough from the other wards to give him a fair chance of success, and his friends are making a vigorous fight.

Mr. Hayward, who is not very well known on this side of Newton, and has not held any office hitherto in the city, has the support of his own ward, and probably local pride will keep the Ward Six delegates in line for him, and it is said that he has the promise of the Ward Three vote. He has some of the smartest political workers on the south side supporting him, and they are generally able to carry the day.

It is an unusual condition of things when so many good men are willing to take this office, as generally it is very difficult to get any one to accept. It is fortunate for the city, however, as now the voters, or we should say the delegates, will have an opportunity to choose, and can select those best fitted to look after the interests of Newton.

It is always a safe rule in such cases to select the men who have previously shown their fitness by faithful service in other city offices, or have been so identified with Newton that the people can have some assurance that they have some knowledge of what the interests of Newton are, and what legislation is needed for the good of the city. If they are not so identified with Newton, we might as well get a Boston or Brookline man to represent us. Other suburbs have in the past secured large slices from the metropolitan park and highway appropriations, because they have had men to represent them who were interested in securing such appropriations.

The fact that next year will probably see the Charles River Improvement scheme before the legislature makes it wise this year to disregard all locality claims and elect men from the north side of the city, who would naturally be more interested in securing something for Newton than men from wards that are not directly interested.

THAT BANK LOT.

The Newton National Bank lot has been the exciting question of the week, and the hearing before the city council on Monday night, the inspection by the council on Tuesday afternoon, and the special meeting Wednesday evening, have kept the excitement at fever heat.

The situation was materially changed by the hearing on Monday night, when the law was stated to be that the city could only be held for the land as it stands, and would not be liable for any excessive damages from either the bank people or the contractors, for any plans they might have in mind. This will change the opinion of many people, who have all along favored the plan, if the property could be obtained for any reasonable sum, but who opposed paying any such sum as \$50,000 or \$60,000, for such a small piece of land.

Wednesday night the position of the city council was very plainly stated to be that they would favor the seizing of the land, providing it could be obtained for a sum not exceeding \$25,000. Anything in excess of that will defeat the plan, and the citizens who favor it, will now have a chance

to show their public spirit by contributing whatever amount is needed above that sum. Prompt action will have to be taken, as the matter will come up for decision next Friday evening, and the time to secure contributions is short.

It is of course unfortunate for the bank people and the contractors that the citizens did not awake to the necessity of seizing the land before so much progress had been made with the new building, but when they sit down to seriously figure up their loss, it is not believed that they will find it anywhere near the sum stated at Monday's hearing. Mr. Taylor, who is a good deal of an expert, does not place it above \$5,000.

About the method to be pursued by the city there seems to be only one fair course, and that is to lay it out under the betterment act, and let those whose property is to be benefited pay their share of the cost. Property around the square has risen so amazingly in price since the widening of Washington street that those benefited by this can afford to contribute. The only person who will be unfairly affected will be Mr. Taylor, who bought since the rise, but he is a public spirited man and himself advises this course, and is willing to pay his full share of the cost of the improvement. He has shown a very commendable spirit, and Newton is very fortunate in having such a man among its large owners of business property.

The lot certainly stands in the middle of the street, and the room is needed for the electric cars and teams that congregate in that vicinity. Every consideration calls for its being made a part of the street, and the only obstacle has been the great cost to the city. But now that the exact facts have been ascertained, and the property can be secured at a reasonable price, it would be really culpable on the city government to neglect the opportunity. By laying it out under the betterment act only a small part of the cost will come upon the city.

CHESTNUT THIEVES.

We have received letters by about every mail this week, protesting against the small boys who swarm around every chestnut tree and pay no attention to the fact that they are taking the property of other people. Curiously enough, not one of the letters are signed by the real name of the writer, although they come from all parts of the city. Probably the writers do not like to be advertised as objecting, and so be made unpopular with the rising generation, but all complain that their lawns are trampled down, and left covered with all sorts of missiles, and the damage in this way is added to the loss of the nuts.

Some of the remonstrances are couched in vigorous language, while others take the matter more good-naturedly, and are able to smile over what they cannot help. One writer says he can get no protection from the police, who say that chestnuts are not property, and another says that it would take a policeman at every tree, to protect them from petty thieves.

One writer takes such a humorous view of the matter, that we break over our rule against publishing unsigned communications, by giving it in full. He begins with a quotation as follows:

"Shakespeare says 'the ripest fruit first falls,' but it is not so in chestnut harvest. The burrs open with the first frost, but in Newton they yield first to the projectiles hurled at them by small catapults in trousers, who come with the changing leaves and only disappear when the burrs burst the ground and the trees are bare."

The chestnut raid is upon us again. The boys dream of the chuck, toss and jerk of their projectiles. How can we give them their fun and save ourselves the indiscretion of losing our temper?

"Oh the guilelessness of youth! 'Trespassers will be prosecuted.' Will they be? The boys know better, 'stealing is a crime.' The little fellows and the bigger ones do not see it, as regards chestnuts. With clear consciences they assemble, get ready their bags, sally forth and avoid the wrath of the cop, who never is out when they are under the doomed trees."

"Beating sin" of childhood, sometimes ripened into innumerable crime in manhood, make it a felony, and perhaps the yet uncorrupted boys will not think it proper and honest to take what belongs to the owner, or is supposed to be his.

"Small habits well pursued betimes may reach the dignity of crimes."

And we fear this fascinating love of clubbing and stoning other people's chestnuts may lubricate the way to worse activities.

Of course the owners do not suffer. We have only to clean up the lawn after the thieves and to pocket the loss of the nuts. Besides, haven't we the burrs left to us?

However, we think the city fathers really ought to stop the bad practice. We have no objection to "scatter plenty" or "smiling land" by the new political parties, but we don't want our ground scattered over with dead leaves and stones by petty thieves.

Now that the currency question is practically settled, the really great question of the day is the theatre hat. Judging from the advance rumors of winter styles, this year's theatre hat will eclipse all former creations in top-likeness, and is a mountain of feathers and ribbons, and other things, which will effectively hide everything from the view of the unfortunate man who sits behind it. For church purposes, such hats would not be objected to by a man fond of taking a nap during the sermon, as he would be completely hidden from view, but what will men do who go to the theatre and are not able to secure a front seat. They might as well stay at home, unless the theatre-manager can devise some method of removing these obstructions. If these hats were only to be worn at the matinees, the men could endure it with fortitude, as the audiences in the afternoon, are mostly made up of the gentler sex, and as no complaints are ever heard from them, men conclude that they enjoy going to the theatre merely to see samples of millinery, and that the three hours or so of the performance are none too long for them to criticize the specimens immediately in front of them. Besides, they can have the satisfaction of wearing a bigger hat than any of those in front of them, a solace that is unknown to men. At the Park Theatre this week, Robert Hillard started a daring innovation, by having the head usher request every lady to remove their hats, and while it succeeded for the first night or two, there is no knowing whether the wearers may not summon up the courage to refuse, and the imagination refuses to picture what might happen in such an event. What could a mere man usher do in such an event, or even an army of man ushers? Perhaps the only

safe way would be to revive the old Puritan custom of having the women sit on one side of the house and the men on the other, and then the men could see the performance, and the women could see each other's hats, and every one would be satisfied. Our great and general court might introduce the reform by passing a law to that effect, and it would be wise to find out just how our candidates for representatives stand on this question. The women have no votes, so even the most cautious candidate need not fear to commit himself.

The great need of a change in county management is one of the most important issues this fall. A new man should be put up in place of Mr. Reed, chairman of the county commissioners. There is no need of charging dishonest methods and questionable acts, as some do, but the administration of county affairs, or rather county funds, has been very lax. The East Cambridge court house business has been a sample. The county commissioners asked for a certain sum for the building, but expended it all for the land alone, and then they go to the legislature again with another demand for money. The result is that the building will cost about four times what any one could have expected. Mr. Reed is the chairman and so is chiefly to blame for this loose way of doing business. The county taxes have increased under his management until they are out of all proportion to what they should be. He has held office for twelve years, and if this is the best he can do it is high time that the county tried some one else. There has been a good deal of rather foolish talk about the county ring and their stealings, but that is going too far. A man may be very extravagant in the use of public funds and yet be able to show that the expenditures have been perfectly regular. But the evidence is conclusive that a change in county officials is urgently needed, and the Newton delegates should bear this in mind, now that they have an opportunity to get rid of the man who is said to be chiefly responsible for the great increase in county taxes.

DEBHAM is far ahead of Newton this year, and has a tax rate of \$18.40, an increase of \$7.40. The people there last year thought the valuation was too high and elected new assessors on that issue. They went to work and lowered the valuation some two millions, and now the people are complaining that the estates of the rich men and corporations are the only ones marked down, while the small estates remain at the same figures as last year.

The Republican State Convention yesterday was in great contrast to the one the other party held in Boston last Saturday. The Republicans were perfectly harmonious and there was nothing of an exciting character, not even excepting the speech of the chairman. The previous arrangements were all carried out with great unanimity. The election also promises to be almost as unanimous in this state, at least.

NEWTON men received an unusual amount of honors at the state convention yesterday. Among the vice-presidents were Hon. Henry E. Cobb, Vernon E. Carpenter, and William Cladlin; Col. E. H. Haskell was on the committee on resolutions. Mr. Geo. E. Travis on that on credentials and Mr. R. C. Bridgman on the committee on ballots.

The Congressional convention for this district was held last Friday afternoon and Senator Sprague was nominated by acclamation, there being only one dissenting voice, that of an A. P. A. delegate from Needham. Senator Sprague made an excellent speech in accepting the honor, and the district is sure of being creditably represented in the next Congress.

REAL ESTATE.

The largest vacant land in Newton for some time is reported. The land sold is on the line of the Newton circuit railroad, in Waban, and was owned by the Cape Ann savings bank, having a total land area of 570,000 square feet. The situation of the property is on Collins, Devon and Fenwick roads, new streets recently accepted by the city. The buyer was Joel Porter, who will erect a number of frame houses.

Mr. E. T. Wiswall has bought the lot and building occupied by Dutch's market, at the corner of Chestnut and Washington streets, West Newton, from Mrs. A. J. Houghton.

A charming cottage house will be sold at auction at Wellesley Farms, to-morrow at 2 o'clock. See adv.

THE PRINCE'S BRIDE.

[Copyright, 1896, by Walter B. Guild, Boston.]

CHAPTER II.

On account of this peculiar custom Olga became furious when the old woman put her foot on the steps as though to come upon the porch. "Go away, you miserable old beggar," said Olga, "and do not disgrace me with your presence." As the old woman passed by Aunt Nancy was just returning from the market and noticed how sad she looked. "Now," thought Aunt Nancy, "I can beautify my feet and hands at the same time." So she called and hobbled after the poor beggar. Upon learning what was wanted, Aunt Nancy invited her into the kitchen, for no disgrace was counted to any one who took strangers into the kitchen. No matter what might be in the kitchen, whether buns or beggars, so long as the front porch was clean and no persons of low estate sat beneath the trailing rose vines in the front yard a house was not disgraced.

The old beggar said that she had a letter for whomsoever would receive it in that house, but it must not be opened until the wedding of the prince.

Olga soon tired of her waiting and went into the house for a cooling cup of mead. She came out again without delay and met a royal messenger, who gave her a letter from the prince. It simply said: "I called, but you were not ready to receive me. Next week I will call again. Let another sit upon the porch." Olga thought, "Surely the prince must have passed while I was in the house for the glass of mead."

This was a great and sore disappointment to Olga, as she could now only hope to be one of the bridesmaids and

Just then she looked, and instead of her Uncle John she saw the fairy prince. her next younger sister must be the favored one. As Olga thought about this she went to her sister Juno and told her sad experience.

Juno remembered Olga's warning as she sat in the chair waiting, waiting, waiting. After a long time, a small boy, thin and pale, with clothes tattered and worn and with bare feet came up the road. Stopping in front of Juno he asked: "Please, miss, can you give me any work? I can train a roebuck so nicely that it will make your heart glad to gaze upon it. Now see this twig." So saying he put out one hand and at the same time very innocently placed one foot on the step as if about to come up on the porch. Juno was indignant. Did this beggar boy want to claim to be her equal by coming on the porch with her? Often there were people who came for food, and it was very little that they got, but they usually knew better than to come to the front door, especially when one was sitting in the welcome chair. This boy's arrival was especially unpleasant as the prince might arrive at any moment. This thought made Juno very angry and she arose from the chair and slapped the poor boy's face as she said: "Get thee hence. Wouldst disgrace me as I am waiting to welcome the prince? Get hence, I say, with all the speed you may, and never again be so rude." The poor boy wept and said, "But may I go to the kitchen, there to be unseen by guests upon the porch?" "Yes. Get thee out of sight," said Juno.

When Aunt Nancy saw the poor little fellow coming, she opened her old arms and gave him a good hug and a kiss as she said, "How can I comfort thee, my son?" The boy looked at her and said, "Surely you have comforted me already." He then vanished, and Aunt Nancy knew that it was none other than the fairy prince himself.

Juno became very sleepy, and just as she nodded a voice said: "Sleep, all you wish for the prince has now passed by. He will come again to see who is most worthy."

The day of the week was to be the same as before, and now Mira, the third sister, sat and waited. She was vain and trifling in her ways and in dressing had caused poor old Aunt Nancy more trouble than both her elder sisters. She

scolded the dressmakers, annoyed the glove-sellers and finally upset a bottle of perfume and spotted her best gown. Then there were more scolding and complaining of her ill luck.

"Have you looked at the directions?" asked Aunt Nancy. "Oh, bother the directions, you meddlesome old nuisance," said Mira.

"You will not need the directions," said a very kind but sad voice. "You have broken the law of kindness too often. The prince requires more love and patience." The parrot was perched upon the window sill, and as he saw the look of fear and surprise on Mira's face he laughed and said, "Pretty Poll." "Oh, that miserable bird!" said Mira. "He never spoke in that voice before, and he scared me." Aunt Nancy knew just what Mira feared, but would not confess. She knew that it was the voice of the prince.

Mira waited vainly all day and just at sunset she heard the sound of wheels, and a messenger came to ask if any more of the sisters would wait for the prince.

"You heard his voice this morning," said the messenger to Mira, "and knew that it was not the voice of the parrot. Your waiting was vain until you asked forgiveness of those to whom you have been unkind. This you were not willing to do."

All the other four sisters wished to await the coming of the prince.

"You need not be troubled about your dress," said the messenger, "as the fairy prince will provide the robes for his bride and for all those whom he chooses to honor." "Oh, that is such a relief!" said the sisters.

Nora was the next, and as she had little trouble to prepare her toilet she was happy. "I will be as kind and gentle to Aunt Nancy and every one else as you please," said she, and all went nicely for a time.

As she sat waiting she saw a neighbor's lady playing in the road, and as she played she gave no heed to a team which was coming along with the driver asleep on his seat. Nora saw that the great horses would walk over poor baby if nothing was done to prevent, but what if she should leave the porch just as the prince might be coming? "Aunt Nancy can get there in time if I call," thought Nora. So she called to Aunt Nancy, for she would not leave her seat nor sleep for a moment on any account. Aunt Nancy heard and ran as fast as her old feet could carry her, but it was too late for her to save baby. The nearest horse's hoof came down on poor baby's foot, and the driver was awakened by the scream which baby gave as her little foot was broken and she was made a cripple.

Just then a mouse ran across the porch, and Nora was so frightened that she forgot everything and ran screaming into the house. Aunt Nancy drove away the mouse, and Nora sat watching again. A messenger appeared and brought a note which said, "You have missed your great opportunity." Nora went to her room and wept. She thought the prince had passed when the mouse frightened her, and until after the wedding she did not understand what the message really meant.

Finetta was the fifth of the sisters. She waited with much fear and many misgivings, and when she saw an old uncle who was poor and lame coming up the street she turned her eyes the other way so as to appear not to see him and thus avoid speaking or even bowing to him. "How awkward it would be," thought Finetta, "to have old Uncle John stop and talk just as the prince might be coming!"

Old Uncle John did not pass, however, but went straight to the kitchen to see Aunt Nancy. "Why so sad this day, Uncle John?" asked Aunt Nancy. "I am poor and discouraged," said Uncle John, "and as I came in Finetta turned her head away so as not to be obliged to speak to me. She used to be my special favorite, and it hurts the heart sorely to have all your strong young friends desert you as the grave is casting its shadow across your path."

"Oh, cheer up, cheer up, Uncle John. I know all about your being turned out of the old house, and I have arranged to have a nice of mine take you until the prince sends for you to come to the old folks' home. We shall both be there soon, and then there will be no more slights and snubs for either of us. Keep up your courage."

Just then Uncle John disappeared, and a voice like the echo of Aunt Nancy's own said: "Keep up your courage. I am coming for you soon." Then she knew that the fairy prince had called again. "Well, I shall be glad to get to the home for old ladies," said Aunt Nancy, "for my work is heavy and my hands are weak."

"Finetta," said a voice which was strangely like Uncle John's, "won't you ask me to come in?"

"No; I don't want you to come in now. Go away, please."

Just then she looked, and instead of her Uncle John she saw the fairy prince, whose beauty was wonderful, but who looked sad as he said, "Be it as you say."

[CONCLUDED NEXT WEEK.]

NOT AS WISE AS SERPENTS.

A Number of Foolish Snakes That Had a Lot of Work for Nothing.

"Talking of snakes," said a man who had recently arrived from the wilds of Nicaragua, "reminds me of an incident I witnessed while I was in the interior of the little republic. It was in the section where the hills approach the river. I happened to be paddling down the stream and halted to escape the sun, just under a cliff, which was some 30 feet above the low ground, forming an abrupt declivity."

"While I was leaning against the trunk of a large trumpet tree near the bank of the river I happened to glance up at the edge of the cliff and noticed a snake hanging head downward and swinging in the open space. While I was wondering I was more surprised at seeing another reptile climb down the body of the first and coil his tail about its neck. Then there came another and another, all doing the same thing, until there was a rope of snakes reaching within about three feet of the ground, all pursuing the same tactics as the second. Then I realized that the things were trying to reach bottom in this original manner. They did not reach low enough, and directly the bottom ones crawled to the top and shortly reappeared, each with a small bit of twig in its mouth. When the first one with the twig reached the end of the rope, the hanging one grasped the wood in its mouth, and the other hung tail down. Then a second dropped down the rope, coiled his tail about the tail of the other and hung head down with the stick in his mouth, and a third, climbing the living coils, in his turn grasped the other piece of twig and was suspended tail down like the first. By the aid of the pieces of twig they lengthened the coil until the bottom snake touched the ground."

"Say," queried one of the interested listeners, "what became of the snakes at the top? Did they drop?"

"That was just the thing. When the bottom snake was about to let go, he seemed to realize that the ones at the top would be no nearer terra firma than before and changed his mind, and, crawling up slowly, apparently informed the others, and the links shortened as the snakes crawled up, and the last I saw of the lot they were hunting for a piece of twist vine to make a rope ladder."—New Orleans Times-Democrat.

OUR MAILS IN EARLY DAYS.

They Moved Slowly and the Letter Postage Was Very High.

"In Washington's first term an effort was made to speed the mails—to move them at the rate of 100 miles in 24 hours, or about 4 1/2 miles an hour," writes ex-President Harrison in his "This Country of Ours" article in the Ladies' Home Journal. "This would have been a notable advance, for the carriers were then taking nearly 30 hours between Philadelphia and New York. The roads were bad, and there were many slow ferries."

"In 1776 there were only 28 postoffices in the colonies; in 1795 there were 453, and in 1805 there were 70,064. The rates of postage when the department was organized under the constitution were high—for 30 miles, 6 cents for one letter sheet; for 60 miles, 8 cents; for 100 miles, 10 cents, and so increasing with the increased distance to the maximum, 25 cents for distances over 450 miles. Stamps were not in use in those days, nor was the sender of a letter required to pay the postage in advance. The postage, 6 cents or 25 cents, as the case might be, was written by the postmaster on the letter, and if the sender paid the postage the word 'paid' was added. If he did not, the postage was collected of the person to whom the letter was addressed. These rates soon yielded a surplus over the cost of the service in spite of the franking privilege which the law gave to congressmen and the heads of departments."

"The demand of the newspapers and periodicals of every class for cheap postage, seconded by their subscribers, has led to a reduction of rates greatly below the actual cost to the government. In his report for 1892 the postmaster general, after stating that the present letter rate pays twice the cost of the letter mail, says that the book and newspaper mail is carried at a loss of 6 cents a pound. In recent years the post-office department has been characterized by a very progressive spirit, and it is now rendering, not a perfect service, but a high class service. No other department has more nearly kept pace with the marvelous development of our country."

Why the Devil Has Cloven Hoofs.

Legends of the devil are quite common in Ireland, but the one which is most interesting and least known perhaps is that which tells why the prince of the infernal regions has split hoofs, like those of a cow. Moore alludes to the legend in his story of St. Kevin, who, when at Glendalough, in that story Moore mentions St. Kevin throw his former ladylove over the cliff in order to rid of her importunities, but the peasants of the Glendalough district give the story a more poetical touch. They insist that it was not Kathleen that was thrown over the cliff, but that it was Satan, who had assumed the form of the lady in order to tempt the saint. The moment the prince of evil toppled over the edge of the yawning abyss he spread his batlike wings and sailed away in safety, much to the surprise of the holy saint. Later on the devil again attempted to lay a snare for St. Kevin, but the saint managed to get the arch fiend on holy ground, where, of course, he was helpless. While the devil was in this helpless condition Kevin sawed off his legs and attached cow's hoofs to the stumps. Since that day Satan has been cloven footed and will be until the end of time.—St. Louis Republic.

Stopped the Excitement.

When Charles Hutchinson, the eldest son of "Old Hutch," but a very different sort of man, was president of the Chicago Stock Exchange, he calmed a tumult in the pits one day by coming out upon a little balcony across the room and standing with his hand upraised in an attitude half commanding, half entreating. Everybody stopped talking after a little while to see what the beloved "Charley" had to say. But all that he said was, "Gentlemen! gentlemen!" It turned the tide of affairs that day almost as effectively as closing the Stock Exchange might have done.—Boston Transcript.

Our Kitchen

No kitchen is kept cleaner than the premises devoted to the manufacture of **NONE SUCH Mince Meat**. No housewife can be more fastidious in the matter of preparing food than we are in the selection and preparation of the materials of which it is made. The cleaning of the currants (for one thing) is more thoroughly done by means of perfected appliances, than it would be possible to do it by hand.

Its cleanliness, purity, wholesomeness and deliciousness are good reasons for using **NONE SUCH Mince Meat**. The best reason is its saving of time, of hard work, of money. A ten cent package affords you two large pies, without trouble to you beyond the making of the crust. Makes just as good fruit cake and fruit pudding as it does mince pie. Sold everywhere. Marvelous Results.

From a letter written by Rev. J. Gunderman of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with pneumonia, coughing, and terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at J. G. Kilburn's drug store, Nonantum, and Bernard Billings', Newton Upper Falls. Regular size 50c. and \$1.00.

NONANTUM.

- Mr. Louis Lennell, a former resident, visited friends in town this week.
—Mr. Harry Gage is visiting his relatives at their home on Rustic street.
—The furniture store, formerly in Stuart's block, has been removed to Murphy's block.
—Thomas White has left his position at the Beta Mills, and gone to work for the Etna company.
—Mr. George Crossland, superintendent of the Bemis mills, left Tuesday night on a business trip to New York.
—It is said that a Watertown druggist is to open a store in the store formerly occupied by Joseph Skinner on Watertown street.
—St. Elmo Division, Sons of Temperance will hold an installation of officers and banquet in its hall on Bridge street, this evening.
—A largely attended meeting was held at the Buelah Baptist Mission last Sunday afternoon, which was addressed by Mr. Augustus King. Mr. Peter Croix will be the speaker next Sunday.
—Early Sunday morning Sergt. Clay with Officers B. E. Burke, J. J. Davis and J. L. Lucy searched the premises of Alexander E. H. Walker on Dalby street and seized five pints of whiskey.
—Michael Flaherty was thrown from his bicycle Thursday afternoon on Watertown street, by coming into collision with a boy, who was rolling a hoop. A team was passing at the time, and Flaherty was thrown against the wheels, sustaining slight injuries.
—In the police court, Saturday morning, John Bosso, proprietor of the Italian grocery store on Watertown street, was arraigned for assault on Dominick Veranchi. The evidence showed that Veranchi called at the store about two weeks previous, and was asked by Bosso to settle an account for groceries. An altercation followed and Veranchi claimed that he was assaulted. Bosso was found guilty and fined \$3.
—If your children are subject to croup watch for the first symptom of the disease—hoarseness. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse it will prevent the attack. Even after the croupy cough has appeared the attack can always be prevented by giving this remedy. It is also invaluable for colds and whooping cough. For sale by A. Hudson, Newton; B. B. Buck, Newton Centre; B. Billings, Newton Upper Falls; E. F. Partridge, Newtonville; J. H. Green, Newton Highlands.

NEWTON A. A. PRACTICE.

NOT MANY MEN OUT, BUT OLD PLAYERS ARE EXPECTED BY SATURDAY.

The Newton athletic eleven practiced Tuesday, on the Newton Centre athletic field. Not very many men were out, but the candidates were all in good form, and with the old players who are expected to return, the N. A. A. should present a strong team against B. A. A. Saturday.

The practice was not very hard, although the men lined up and spent most of the afternoon in breaking through and practicing signals. No captain has been elected yet, but Crane of last season's team will take charge of the men until the captain is appointed.

The men out were Hutchinson, Dunham, Messer, Harris, Nash, Cotting, Burdon, Martin, Crane, Gibbs and Leathy. "Allie" Hutchinson is trying for a position behind the line, and showed the same snappy game which he played when at Bowdoin two seasons ago. Dunham, Tufts '94, where he was the strongest end man on the eleven, is trying for the same position at Newton, and should make the team. Messer is a hard runner for game. He has played before on Peabody academy and Haverhill A. A.

Another man for a back is Harris, one of the backs on the Phillips Exeter team last fall. Nash, the strong man of Tufts College, and who is connected with that team, is trying for a tackle, while Cotting and Burdon, both on the Newton high junior team in 1895, are candidates for ends.

Martin of Exeter, who has been out several times with B. A. A., was trying for end or quarter, but is up against Dike Clark for the latter place. Gibbs, of Waltham, who was also on the class team at Harvard, and Leathy, right guard on the Exeter team in the memorable game with Andover, are out for respective positions behind and on the line.

Hughes of Boston University is coming out for center, and later Nichols and Sears of the 1895 team will be out.

NEWTON UPPER FALLS.

- It is rumored that a grocery store is soon to be opened in Postoffice block.
—Mr. Edward Richards and family have removed from Cottage Hill to Chestnut street.
—Edes Bros., the bakers, lost a valuable horse Tuesday morning. The animal was a victim of colic.
—There are letters in the postoffice for Mr. C. Cutter, Annie J. Tibbets, F. W. Jones, John Obrien, W. B. Quigley, J. V. Sargent, M. F. Sullivan, Michael Weld and J. Weiss.

—Mr. Thomas Probert was badly injured while at work in Pettes's shops, Monday afternoon. His arm caught in a part of the machinery and was broken in two places. He also received some bruises about the head. He was taken to his home and is reported as improving.

—Ancient Order United Workmen, Oak Lodge No. 170, meetings second and fourth Wednesdays, Stevens' building. Beneficiary Order paying \$2000 at death of its members. For application blanks and other literature apply to William L. Thompson, Recorder, Newton Upper Falls.

—Mr. Joseph Taylor, a resident of this place for a number of years, died Friday morning, at Newfield, Me. Mr. Taylor was 36 years old and was well known here where he had a large circle of friends. He had been ill for some time and had gone to Maine in hopes to improve his health. He leaves a wife and one son. The funeral was held at the house in Upper Falls, Monday afternoon, and conducted by Rev. Mr. Fellows. The interment was at Newton Centre.

—For several months, I was troubled with a persistent humor on my head which gave me considerable annoyance, until it occurred to me to try Ayer's Hair Vigor. Before using one bottle, the humor was healed. —T. T. Adams, General Merchant, Turberville, Va.

NEWTON LOWER FALLS.

- Mr. Riley has once more assumed the position of superintendent of Bishop's mills.
—Mr. Buchan, agent of the Dudley Mills has recently returned from a business trip to New York.
—Mr. Fred Mills will soon occupy his handsome new residence just completed at Newton Centre.
—The electric lights, by their failure to illuminate Sunday night, caused the place to be in total darkness.
—The Twilight base ball team were photographed in uniform by Partridge, on Crehore's field last Saturday.
—A social and entertainment under the auspices of the Epworth League was held at the M. E. church, Tuesday evening.
—The parish picnic held Labor Day on St. John's church grounds netted clear of all expenses, the handsome sum of \$1018.
—Miss Alice Harrison, a graduate of this year's class at Newton High school, is attending the Framingham Normal school.
—Mr. Geo. C. Folsom and family have returned to their home at Wellesley Hills after spending the season at their summer home at Winthrop.
—Councilman and Mrs. Geo. F. Perry are at present making their residence at the Valentine house, Wellesley Hills, after an absence from here since June.
—Registration officers were in session at Freeman hall, last Friday evening and 14 applicants for registration had their names added to the voting list of this precinct.
—A social and dance will be held at Freeman hall, next Friday evening, under the management of "The Social Six." Allen's Cadet orchestra of Natick will furnish music.
—Mr. Chas. Rice is having his block improved in appearance by the tearing down of the old grain elevator, which has always stood for ornament rather than usefulness. Mr. E. B. Saunders is doing the work.
—The Garden City band, recently re-organized, solicited the services of those with some knowledge of brass or reed instruments. Rehearsals are held Monday nights at 7.30 in basement of St. John's church.
—Taken in time Hood's Sarsaparilla prevents serious illness by keeping the blood pure and all the organs in a healthy condition.

PICTURESQUE RONDA.

A Spanish City on a Crag, Where the People Are as Savage as Their Home.

Then he went to Ronda, which is a dream of picturesque. There is incongruity in the thought that you can make the journey thither as simply as if you were going from New York to Philadelphia. The town, as J. walked through it, seemed commonplace at first—commonplace, that is, for a southern town, where one accepts marvels of color and light as matters of course. His impression was one of awful glaring heat, of donkeys and donkeys and more donkeys everywhere, of little low houses so white one could hardly look at them, of glimpses into long, cool entries, where people were forever standing waiting for an inner door to open. And then suddenly there before him was the bridge flung across that wonderful chasm—the bridge that joins old to new Ronda, the bridge that so many artists, since the days of David Roberts, have tried to draw or paint, despairing even while they sought to record the strange, almost exaggerated, picturesqueness of the wild mountain gorge, with the little white town looking down so fearlessly from its dizzy post.

There is something in the contrast that seems to suggest—but with a difference—the gay villages that nestle so confidently at the base of Vesuvius. The strangest part of it is that until one comes to the bridge one does not know, except from the guidebook, that the gorge is there at all. Who could suppose that the river, apparently at least, would force its way through the very highest part of the mountain? There is a little alameda where one can stand, leaning against the railing, and gaze down for I do not know how many hundreds or thousands of feet. It is here, in all places, that one realizes the awful height of the precipice, but it is from below one sees the marvel best and most comprehensively—from far below, where one can follow the windings of the white road along the very edge of the cliff and under stately white gateways and look to the bridges hanging in the air, as it were, across the roaring stream, as fantastic and unreal and entrancing as any "Arabian Nights" picture.

It is only as it should be to find the people as fantastic as their high built town—so grisly and ghoulish, indeed, that it is hard to talk about them; so savage in their manners that they might drive the more timid traveler quickly away and back to civilization. When any one comes to draw the great bridge from the appropriate point beneath, the sport of the leading citizens is to gather in crowds upon the bridge and throw stones upon the rocky hillside, starting an avalanche which makes the artist who has been foolish enough to go there drop his work and run for his life. Still, I suppose one must pay somehow for the privilege of visiting the most sensational place in Spain. Its wonderful position, its magnificent bridges, its beautiful little valley, where the finest fruit in Spain is grown, its encircling crown of Sierra, make up to a certain extent for the discomfort of staying in its horrible boarding house among the savage brutes of its population.—Elizabeth Robins Pennell in Century.

Birthplace of Gilbert Stuart.

Little respect is paid by Americans to the birthplaces of their illustrious dead, and the old snuffmill near Narragansett Pier, in which Gilbert Stuart, in 1755, first saw light is no exception to the rule. It may safely be said that it would seldom, if ever, be visited were it not a convenient objective point for a drive from the fashionable summer resort a few miles away. The route along the old Boston Neck road affords one of the most delightful excursions in Rhode Island. For while it holds in view to the right a picturesque estuary, beyond which on a fine day one sees the town of Newport. After a drive of nearly five miles we cross at right angles the dusty highway that leads past a little white church down the breakneck hill to the Jamestown ferry and continue a couple of miles or so along a country road, which we leave to our left, to follow a bridge path through the woods, at the end of which, hitherto hidden by a screen of tall saplings and a tangle of bracken, we come upon the object of our pilgrimage.

Beyond the historical associations connected with it there is absolutely nothing in it to interest the visitor. The mill itself has long since fallen into decay. As to the house, the outside has undergone very little change, and its weather stained shingles are pleasantly suggestive of the century and a half which in a new country like the United States is antiquity itself. But the threshold once crossed, one meets only with disappointment. Not a relic of the painter or of his time! Tradition has not even provided a chair in which it might be supposed that the distinguished artist had sat.—Art Amateur.

Costly Perfumes.

Only dealers in precious stones carry more valuable stock in a small space than the dealers in essential oils and the perfumes that go with such oils. One dealer showed an acquaintance a moderate sized safe containing stock valued at \$25,000. Attar of roses, musk, civet and ambergris are among the precious articles of such a dealer's stock. Attar of roses, wholesale sells at about 40 shillings an ounce, civet at 45 shillings an ounce, ambergris at 40 and musk at 48. The retail price of all these is much greater, but they are usually sold to the so-called consumer in highly diluted form.
Musk in the raw looks a deal like axle grease and smells worse. The popular notion that the musk of commerce is obtained from the musk deer is a mistake. A somewhat similar perfume is obtained from the muskrat, but most of the supply comes from the musk deer, a creature that is carefully reared in India for the sake of the secretion. The secretion is shipped in the crude state, and is used not only in the manufacture of the liquid perfume sold as musk but also in very small quantities to give strength and staying power to many perfumes, made from the essential oils of flowers.—Pearson's Weekly.

The Tailed Man of Mecca.

Colonel Du Corret, in a report to the French Academy of Science, says: "When I was at Mecca, being often at the house of an emir, I spoke to him of the supposed race of tailed men called ghilanes which are said to live in the interior of Africa. I doubted the existence of the race, but in order to convince me of my error the emir ordered before me one of his slaves, who he said, was a tailed ghilane. An examination proved that the slave, whose name was Bellal, had a tail about 3 inches in length and almost as flexible as that of a monkey."—St. Louis Republic.

The Plus' and Ten Defense.

"Nan, that old bachelor doesn't visit you so often of late."
"No; every time he came I made him sit in a plush chair, drink a cup of hot tea and then look at my plush covered album."
—Chicago Record.

A WOMAN'S STORY.

It Should Be of Interest to Every Thinking Woman.

Women who reason well know that no male physician can understandingly treat the complaint known as "female diseases," for no man ever experienced them.

This, Lydia E. Pinkham taught them twenty years ago, when she discovered in her Vegetable Compound the only successful cure for all those ailments peculiar to the sex. Many women have a fatal faith in their physician, and not till they can suffer no longer, will they think and act for themselves.

The following testimony is straight to the point, and represents the experience of hundreds of thousands of now grateful women: "For six years I was a great sufferer from those internal weaknesses so prevalent among our sex. After having received treatment from four physicians of our city, and finding no relief whatever, I concluded to try Pinkham's Vegetable Compound, and it has proved a boon to me. It can truly be called a 'Saviour of Women.'"—Mrs. R. A. PERHAM, Waynesboro, Pa.

—Mr. F. H. Wood is now on Pleasant street in the house opposite the Reading Room and is selling and tuning pianofortes, etc. Read his advertisement in another column.

—The B. A. A. football eleven is advertised to play the N. A. A. team next Saturday on the latter's grounds. For some reason the game called for last Saturday was postponed.

—Mr. and Mrs. Richard Saltonstall will return from Europe to their home at Chestnut Hill early in October, and Mr. and Mrs. F. S. Watson are expected back about the same time.

—Daniel Hart appeared in the police court, Tuesday evening, charged by Inspector Fletcher with receiving stolen goods and disposing of them. He was found guilty and fined \$10.

—Millinery opening at Miss Lane's, Patterson's block, Newton Highlands, Tuesday and Wednesday Oct. 6 and 7, a good assortment of trimmed and untrimmed hats and bonnets, also a good selection of children's hats.

—At the Unitarian church next Sunday service at 10:30 conducted by the pastor, Sunday school at 12. Hale Union at 7:30 conducted by the young people. An address is expected from Rev. L. W. Sprague of Boston. All are welcome.

—There are letters in the postoffice for Edward Cable, Miss Maggie Fitzpatrick, John H. Hartwood, J. H. Kelly, C. C. Kendall, S. S. Melkonian, Elmer McCarthy, F. W. Phillips, Phineas Parker, Mrs. Henry Sarelle and Peter Tierman.

—The Sunday schools at nearly all the Newton Centre churches held Sunday school rallies last Sunday. There was a large attendance at all the different meetings and the evening services for the Young People's societies brought out large numbers.

—The annual meeting of the Baptist church society was held last Friday evening. The reports of the officers were read and accepted. An election of officers took place and the ballot resulted in the reelection of those who served so faithfully the previous year. Mr. J. B. Matthews was appointed a deacon to serve seven years.

—The Baptist Young People's Union held its annual meeting Wednesday evening of last week in the church vestry. Considerable important business was transacted and an election of officers took place. Mr. H. H. Kendall was chosen president and Mr. George Smith vice-president and Mr. Matthews 2d vice-president.

—The McKinley-Hobart torchlight battalion organized in this place Monday evening with nearly 100 members. Mr. Howard Wilson was the captain. Drills are to be held on the common Monday, Wednesday and Friday evenings. The suits, which are expected to arrive tonight, will be of white duck, sailor style. The hats will be like a sailor's cap and on the band will be printed the words "McKinley and Hobart." This outfit is considered one of the prettiest of campaign uniforms and will afford the Newton Centre boys an opportunity to make the best show in the big parade.

—Early Monday afternoon Inspector Fletcher and Officer Tappin found three Italians gunning in the woods near Commonwealth avenue, Chestnut Hill. Each man carried a gun, and in a cane bag, which each declared was not his, was a squirrel and several birds. The men were arrested on the charge of gunning and for assault on two little girls at Waban. The children claimed the men pointed their guns at them and frightening them so badly they were late for school. In court Tuesday they were arraigned as Peter Desessa, Ferdinando Lombardi and Felix Satozino. They lived at the North End, Boston, they said, and came out to Newton on a pleasure trip. Each denied having done any shooting. Judge Haney found them guilty and fined them \$15 each. He warned them not to come out here on a shooting expedition again and to warn their friends. Residents of this place commend the officers for arresting the men and

think that game in the woods in this place cannot be too well protected.

—Evening services will be resumed at Trinity church next Sunday, Oct. 4, at 7:30 p. m.

—Work was begun this week on the brick portion of the new block that is to be erected opposite the depot.

—It is reported that another business block is soon to be erected at the corner of Union street and Langley road.

—The Hale Union will meet in the Unitarian church on Sunday evening at 7:30 o'clock. Rev. Leslie W. Sprague, secretary of the Young People's Religious Union, will speak on the subject, "The Young People and the Forward Movement."

—Hind quarters of lamb, 12 1/2; don't forget that you can buy the best potatoes for 50cts. per bushel at the Newton Public Cash Market, 413 Centre street, Newton. If you want our clerk to call for orders, just drop a postal to the above address.

—The weekly rehearsals of "The Singers" are now inactive progress. There are still some vacancies in the different parts and it is requested that those desiring to attend as active members, especially basses and tenors, should make their applications at once to the secretary, Mr. F. H. Radcliffe.

—The marriage of Miss Edna Woodruff of Winsted, Ct., and Mr. Allen Hubbard of Commonwealth avenue, Boston, took place at Winsted, last Wednesday evening. Miss Woodruff is a handsome girl of the brunettes type and a musician of much promise. Mr. Hubbard is chairman of the athletic committee of the B. A. A., and is a Yale alumnus. After their wedding journey Mr. and Mrs. Woodruff will live on Chestnut terrace, Newton Centre.

—Only the immediate family and a few friends were bidden yesterday to the marriage of Miss Edith White, the youngest daughter of Mr. and Mrs. R. H. White, and Mr. Thomas Crane of Boston. The affair took place at the beautiful country seat of the Whites at Chestnut Hill, at noon, on an account of a family bereavement it was very quiet. Rev. E. A. Horton officiated. The bride and groom walked together, and were preceded by the two little nieces of the bride, Misses Lavie Sargent and Gretchen Chatfield, who were in frocks of white muslin, with trimmings of pink ribbon. The ushers were Messrs. John Chatfield and Herbert White, while Mr. Moses Wales was the best man. The bride was in elegant gown of white duchesse satin, en traine, with high corsage, covered with point lace, and trimmed with pearl passementerie. At her throat she wore a diamond sunburst. Her veil was fastened with lilies of the valley, and she carried a bouquet of the same flowers. Mrs. White, the mother of the bride, was in black crepon. After the ceremony breakfast was served in the dining hall, and the small company congratulated the young couple. Cheney's orchestra was stationed in the upper hall. The honeymoon will be spent in Washington, after which Mr. and Mrs. Wales will make their home in Newton Centre, near the new boulevard. The groom is a graduate of Technology, class of '92, and is associated with the American Bell Telephone Company in Boston. The bride was exceptionally beautiful, that of Mr. R. H. White to his daughter being a solid tea service of exquisite design.

—Somers, the tailor, 149 A Tremont St., Boston, makes a specialty of fine woollens at moderate prices. 51 tf

—The first meeting of the C. L. S. C. was held last week with Mrs. Richards. The next meeting will be held on Monday, Oct. 5, with Mrs. Gilbert, Centre street.

—Millinery opening at Miss Lane's, Patterson's block, Tuesday and Wednesday, October 6 and 7, a good assortment of trimmed hats and bonnets, also a good selection of children's hats.

—The death of Mrs. Jacobs, the mother of Mrs. Ogden, occurred on Wednesday, at the home of her daughter, in the 83d year of her age. The interment will be at Guilford, Vt., her former home.

—Services at St. Paul's church, Sunday, litany, sermon and Holy Communion at 10:45 a. m. Sunday school at 12:15. Evening prayer and sermon at 7 p. m. The Rev. Mr. Kellner will officiate.

—The Rev. Tudor Cherriff Radoslavoff, a native Bulgarian, will speak on the "Manners, Customs and Religious Life of his people, at the morning service in the Methodist Episcopal church, next Sunday. The pastor will preach in the evening. The quartet choir will resume its place again next Sunday.

—The Unitarian society will begin its services on next Sunday, at 10:45 a. m. Renewed interest is being taken in this society and it is expected that the meetings which are to be held in the Highland clubhouse hall, will be more fully attended than any previous year. Mr. Wm. S. Jones of Harvard Divinity school will conduct the services and take charge of the parish duties.

—The ladies of the Congregational church are arranging a pleasing program for their first social gathering of the season to be held next Thursday evening, Oct. 8, in the chapel. It is announced as a Vegetable Sociable, and vegetables, one or more, will be the fee of admission. However diverse may be the opinions of gold and silver values, in these closing campaign days, potatoes, beets, squashes, cabbages, etc., have an intrinsic worth which is sure to be recognized in the charitable institutions of our city, to which the receipts of the evening are to be donated. The entertainment program will be made up of music, tableaux and readings appropriate to the harvest time. "Fruit" refreshments will be served.

—Don't fail to hear Dr. Flower's famous lecture at Eliot Hall next Tuesday night. Dr. Flower has the reputation of being a very magnetic and entertaining speaker.

—Mr. J. E. Morse left Sunday on a months business trip in the West.

—Madame Marie Anderson has returned from Sweden to spend the winter here.

—Mr. F. S. Small has two nice houses on Chestnut and Woodward streets for sale.

—Mr. and Mrs. E. P. Cinter are receiving congratulations on the birth of a son.

—Mr. F. W. Webster and family have returned home after being away all summer.

—The Waban and Windsor Hall preparatory schools have opened with a good attendance.

—Mr. A. Davidson has returned after a three weeks bicycle tour of some of the principal cities in the East.

—The erection of the church which has been at a standstill for a few weeks, is now being pushed forward rapidly.

—There are letters in the postoffice for Mr. John Adams, G. W. Lyon, Theodore Wood, Lawrence Mullen, Marie Clay, Charlotte Guild, Dunbar, Vargie Allen, Mrs. F. Walslow, Catherine Ryan.

—Mr. Hammon Woodbury and family of Beacon street, sail tomorrow, Oct. 3, for Germany and are to be gone two years or more. They go in the interest of their son and daughter as they wish to further and to give them the best possible education. Miss Ethel has already spent some time abroad in that respect.

—At the residence of Mr. and Mrs. William B. Locke on Beacon street, Wednesday evening, their daughter, Minnie Louise, was married to John Donald Coward of Birmingham, England. The ceremony was performed in the parlor of the old homestead, the bridal party standing in a floral bower of palms, ferns and potted plants, and was witnessed by many relatives and friends of the happy couple.

—The Rev. A. Fellows of the Methodist Episcopal church at Newton Upper Falls tied the nuptial knot. The bride was attired in dotted muslin and wore orange blossoms. A reception was given at the residence of the bride's brother, Mr. A. Locke, Beacon street. Mr. and Mrs. Lowell left on the evening train for New York where they will spend their honeymoon. On their return they will be at home to their friends at Elliott street, Newton Upper Falls.

—One of the prettiest of the early fall weddings this season was that of Miss Electa Merriam, daughter of Mr. and Mrs. John Wesley Heaton, of "Wynona Villa," near New, N. J., which took place yesterday afternoon at the residence of Mr. and Mrs. Heaton. The ceremony was performed at 4 o'clock by Rev. William B. Tollman of Malden and was witnessed by a large number of society people of the Newtons and Brookline. The bride was handsomely gowned in a dress of white satin and wore a brocade trimmed with duchess lace. She wore the customary tulle veil caught up with a cluster of orange blossoms, and carried a bunch of lilies of the valley. She was attended by Miss Helen Hardywick of Newton Highlands and Miss Alice Bardley of Hyde Park. The maid of honor was Miss Rena Evelyn Hilton who was dressed in pink and wore a white satin and lace of unadorned chiffon. She carried a bunch of "daybreak" pinks. The flower girl was Miss Mollie Cole of Newark, N. J., who scattered flowers in the path of the bride. The bridesmaids were Misses Helen Hardywick and Alice Bardley of Hyde Park and the following gentlemen ushered: Mr. Alexander Holmes of Hyde Park and Mr. Herbert W. Estabrook of Fall River. A reception followed the ceremony, during which music was rendered by an orchestra stationed on the veranda. At 7 o'clock Mr. and Mrs. Cowkendall left for a tour through the West and upon their return will reside in Newark, N. J.

NEWTON HIGH WINS EASILY.

INTERFERENCE PROVES EFFECTIVE IN GAME WITH WALTHAM HIGH.

Newton High opened the season Wednesday with the Waltham High team and won, 18 to 0, on the Newton Centre grounds. The Waltham line was much lighter than Newton's, but until the last two periods could not be forced by heavier opponents.

In the last period in minutes, Waltham did not have the ball once except on the kickoffs. The features were the rushing of Chase and Burden around the ends. The Newton interference was very good. The score:

Newton High 18; touchdowns, Chase 2; Burden; goals from touchdowns, Chase 3; referees, Gibbs of Harvard; time three 10m intervals.

If your child is puny, fretful, troubled with glandular swellings, inflamed eyes, or sores on the head, face, or body, a course of Ayer's Sarsaparilla is needed to expel the scrofulous humors from the blood. The sooner you begin to give this medicine the better.

NEWTON.

(CONTINUED FROM FIRST PAGE.)

—Mr. Fred A. Hubbard will occupy his store in the new Associates block, corner Centre street and Centre place, about Oct. 15th.

—The meeting of the Ministers Union of Newton will be held in the rector's study of Grace church next Monday afternoon, at 3 o'clock.

—The corner stone of the Belmont Episcopal chapel will be laid this afternoon by Bishop Lawrence. Rev. Mr. Rand of Watertown will have charge of the mission.

—Mr. E. F. Barnes has leased Rev. Mr. Scott's new house on Waverley avenue, to Mr. W. F. Dearborn, Jr., of Newtonville; also Mr. Moses King's house on Belmont street to Mr. Robert A. Murray of Boston.

—The cases of diphtheria in this ward have been augmented by the case of Maude Adams, an 8-year old girl living in the block on Washington street. She was removed to the Newton hospital last Saturday.

—Registration in Newton this year is unusually large. Both the Bryan-Sewall-Williams club and the Newton Republican club are sparing no effort to induce voters to register, and the total registration is expected to be about 800 more than last year.

—Rev. Mr. Bronson will preach a series of four short evening sermons, beginning next Sunday evening. The subjects will be "Solomon's Prayer," "Solomon's Proverbs," "Solomon's Temple," "Solomon's Decline and Fall." Strangers cordially welcomed.

—John Lovely, 20, of Nonantum, is wanted by the Watertown police on the charge of the larceny of a horse and wagon belonging to David Keefe, a Watertown plumber. The horse was left in front of a house on Main street, yesterday afternoon, and when the owner returned it was missing. Later it was seen in Lovely's possession.

—A Gold Democracy League has been organized in Newton with Mr. George T. Coppins as chairman, and Mr. John Cutler as secretary. The membership list includes a large number of prominent democrats from the different wards. Any sound money democrat desirous of joining the league is invited to send his name to Mr. John Cutler, Newton.

—Co. C, 5th regt., will attend the annual field day of the 5th regt., at Plymouth next Thursday. The regiment will leave the train at Seaside station, two miles north of Plymouth, and maneuver work in toward the town in the form of an attack. The gallant gun will be taken to Plymouth by train, and placed in charge of Capt. Butler, who in turn will deliver it to the Co. C detachment. The Newton company will be in charge of Lt. H. B. Inman. In the evening at the United States hotel, Boston, the company will enjoy its annual dinner.

—The Girls Friendly Society held its first meeting of the season at Grace church, last evening. After a variety of business matters the chapel service was held. The rector, Rev. Geo. W. Shinn, made an address on the advantages of the Girls Friendly society in providing a place of assembly, in surrounding its members with a pleasant social life, in giving opportunities for mental improvement, but above all for a religious training. The society is made up of working girls, and invites members to the meetings every Thursday night.

—The Ladies Missionary Society of Grace church held their annual meeting yesterday afternoon in the parish house. The officers elected were Mrs. Geo. W. Shinn, president; Mrs. E. M. Springer, vice president; Mrs. F. N. Robbins, treasurer; Mrs. M. Clark, secretary. The report of the secretary showed considerable outside work done in the way of helping missionaries and teachers. The treasurer's showed an expenditure of \$200. The mite boxes were then opened and the sum of \$40 was found contained in them. After this a tea was served in the upper room of the Townsend Memorial.

—Last evening, in Eliot lower hall, Rev. and Mrs. Dillon Bronson were given a hearty reception by their congregation, congratulating them on their safe return from abroad. The cozy hall was prettily decorated with autumnal foliage and flowers, and was filled with members of the church and many outside guests. Rev. and Mrs. Bronson were assisted in receiving by Miss Annie Blackwell, president of the Epworth League, and Mr. Fletcher Barber

HAYWARD AND PICKARD.

THE WARD FIVE COMBINATION CARRIES THE DAY AT THE REPRESENTATIVE CONVENTION.

The representative convention held in City Hall, Wednesday evening, was attended by the full number of delegates from each ward, and about 100 interested spectators.

The meeting was called to order shortly after 8 o'clock by Chairman Sands of Ward Two. On motion of Mr. W. S. Slocum, who refused the nomination of temporary chairman, Mr. E. H. Mason was elected to that position, and Mr. Adams D. Clafin was chosen temporary secretary.

Mr. A. L. Rand moved that a committee of three be appointed by the chair to receive, sort and count the credentials of the delegates. This motion was seconded and the following were appointed: Avery L. Rand, J. C. Kennedy and C. S. Ober. At this point it was announced that if any vacancies were found in the number of delegates from any ward that they might be filled by a meeting of the ward delegates present. The committee having completed its work reported that there were none absent, and the list was as follows:

Ward 1, 6; Ward 2, 10; Ward 3, 8; Ward 4, 6; Ward 5, 8; Ward 6, 9; Ward 7, 7.

The report of the committee was accepted and a motion was carried making the present organization permanent. The committee appointed to receive sort and count ballots included G. P. Bullard, W. S. Slocum and F. J. Hale.

It was decided the first ballot would be informal. Mr. A. L. Rand moved that the nominations be made from the floor and each speaker be allowed five minutes. This was carried.

Ex-Alderman Bullard spoke of this as a Republican year and of a Republican city. There were some good men in the field for the representative nomination and a careful selection was necessary. Mr. Harwood, a former representative, had been called to a higher position, and Mr. Hollis had retired after two years of faithful service. The man whom he would nominate had only decided to accept at the earnest solicitation of friends. He was especially well qualified. The leading member of a large mercantile house, and a bank president. He was clear-headed and sagacious, not seeking for notoriety, and with no itching for a public office. He was the unanimous choice of the committee. Mr. Bullard then nominated Mr. Albert F. Hayward.

Dr. Stearns of Ward One said that the gentleman he was to nominate was well known and there was no need of telling who he was. He was known for his prominence in the Charles river improvement scheme. The speaker read an extract from the annual report from the state board of health, which showed the need of improving the Charles river. Other cities had more than their share of the appropriations but Newton had not received one. It was entitled to. There was no money to carry out contemplated improvements, and some man was wanted who would secure the amount desired. The speaker then nominated Mr. John T. Langford. He spoke of the gentleman's determination to succeed, and of his well known reputation as a worker.

Councilman C. S. Ober of Ward Four said that his ward had not recently had a representative and the residents thought they were justified in asking for one this time. Their nominee had never been in public life, having been too deeply engaged in his business, but he had now retired and was able to give his time to the work. He was the peer of anyone who was presented. Many sought the nomination, and it was to be regretted that all could not serve. He then proposed the name of Edward L. Pickard.

Mr. W. S. Slocum said he represented the largest ward in the city, and the ward that was allowed the largest number of delegates. It gave him great pleasure to present the name of a candidate who had been the choice of the Ward Two delegation. His ability was unquestioned. He had the courage of his convictions. The republican party had always maintained a high standard. It favored a gold standard and its candidates could be gold. It wanted no 3-cent dollars and no 3-cent men. The Ward Two nominee had served three years in the common council and two in the board of aldermen. Mr. Slocum then nominated Mr. Louis E. Green. He told of his excellent qualifications, of the high esteem in which he was held by his many friends. "We love him for the enemies he has made," said he, looking at a member of the Ward Five delegation, with a quizzical air.

Judge J. C. Kennedy of Ward Seven seconded the nomination of Mr. Pickard. He was certain that the gentleman would take a deep interest in legislation. Mr. Pickard had never before held any public office but was a successful business man.

Mr. S. L. Powers seconded the nomination of Mr. Langford. He spoke of the necessity of completing the Charles river improvement on account of the prevalence of malaria. Mr. Langford was well qualified and the proper man to carry on the work.

The names of Mr. Green and Mr. Hayward were seconded by Messrs. Parker and A. L. Rand respectively. On motion of Mr. Rand the first ballot was taken which resulted as follows: Whole number, 104; Langford, 32; Hayward, 32; Green, 16 and Pickard, 24.

On the first formal ballot the result was, whole number, 104; Hayward 31, Pickard, 31, Langford, 27, and Green 15.

Mr. W. S. Slocum moved that the nominations be made unanimous.

Mr. C. S. Ober announced that Mr. Pickard was desirous of leaving better acquainted with the delegates and invited them to meet at the Woodland Park Hotel next Tuesday evening.

It was decided that if the candidate nominated should be unable to serve by death, withdrawal or inability, their places should be filled by the officers of the convention.

At 9:30 the meeting adjourned.

What He Thought.

(From the Washington Star.)

Even a hurricane has its humors. A man who has the misfortune to so provoke his wife's indignation that her wrath leads her to go to his shop every now and then and demolish his stock in trade suffered severely from the storm. When he got to his place of business and viewed the wreckage he threw up his hands and exclaimed: "Great heavens! My wife has been here again. But it isn't quite as bad as usual."

Mysteries of Providence.

(From the Cincinnati Enquirer.)

"I see," said the lady who wishes to wear bloomers, "that another woman has been burned to death by her skirts catching on fire. You never heard of a woman's mysterious catching on fire and burning her to death."

"Which simply goes to show," said the husband of the lady who wishes to wear bloomers, "how mysterious are the ways of Providence."

The Darlington, Wis., Journal says editorially of a popular patent medicine: "We know from experience that Chamberlain's Colic, Cholera and Diarrhoea Remedy is all that is needed for it, as on two occasions it stopped excruciating pains and possibly saved us from an untimely grave. We would not rest easy over night without it in the house." This remedy undoubtedly saves more pain and suffering than any other medicine in the world. Every family should keep it in the house, for it is sure to be needed sooner or later. For sale by A. Hudson, Newton; B. B. Buck, Newton Centre; B. Billings, Newton Upper Falls; E. F. Partridge, Newtonville; J. H. Green, Newton Highlands.

Light.

(From the Detroit Tribune.)

"At night," explained the fire-escape from the museum around the corner, "I take a light lunch."

Whereupon the waiter, wishing to be agreeable, asked him if he preferred kerosene or gas.

If your children are subject to croup watch for the first symptom of the disease—hoarseness. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse it will prevent the attack. Even after the croupy cough has appeared the attack can always be prevented by giving this remedy. It is also invaluable for colds and whooping cough. For sale by A. Hudson, Newton; B. B. Buck, Newton Centre; B. Billings, Newton Upper Falls; E. F. Partridge, Newtonville; J. H. Green, Newton Highlands.

A lady who was looking about in a bric-a-brac shop with a view to purchasing some thing old noticed a quaint figure, the head and shoulders of which appeared above the counter. "What is that Japanese idol over there worth?" she inquired.

The salesman replied in a subdued tone: "Worth about \$10,000, madam, it's the proprietor.—Tit-Bits.

THE OLD HORSE.

One summer dusk, in a dim room, The city being still with heat, And the old dame, who dwelt of steps, Far off at first, came up the street, K-track, k-track, k-track, k-track.

Nearer and nearer, yard by yard, Along the asphalt in the dark, Clanked the unseen four-footed noise That stopped our talk and made us hark—K-track, k-track, k-track, k-track.

Till dread woke up before its sheer Monotony. The thing possessed That nameless terror of malign And haunted dreams. And half in jest (K-track, k-track, k-track, k-track)

"It must be death," I said. "Sweetheart!" My laughing love against my side Shuddered and hid those eyes of hers And held her breath, for close outside, K-track, k-track, k-track, k-track.

"Dearest, I do not want to die." Before my life had begun. "My little gay, child hearted one? K-track, k-track, k-track, k-track!"

It passed and faded down the street— Only a poor old horse, half blind. Yet even now he often roams The streets of my deserted mind—K-track, k-track, k-track, k-track.

—Bliss Carman in Athenaeum.

HIS GREAT BIG VOICE.

It Frightened the Little Girl Into an Amusing Mistake.

Four well known lawyers sat at a table in a popular downtown restaurant, a gathering place for many of the legal lights who enjoy better than anything else a social hour after wrestling throughout the day with knotty legal problems. They were spending the evening pleasantly, bartering jokes about politics and legal life, but wisely avoiding serious discussion.

Many and good were the stories told, each narrator in turn doing his best to create a bigger laugh than had followed his fellow's yarn. The stories were full of snap and brevity. One of them will bear repeating.

"I remember a calf case," one of the four began, "which was remarkably good for the fighting qualities shown by counsel. It was tried before a justice of the peace in an Indiana village. One of the contending lawyers was a big man, pompous and vain to a degree. The other was a very little fellow who did not weigh 100 pounds. The little man had a voice of remarkable power. He was fiery of speech, and when in an argument would let it out to its limits. The little fellow made an argument an hour long to the six good men and true, and he did not spare his lungs. Loudly he denounced the defendant, and as he came to the close of his address he assumed the attitude of a roaring lion. When he sat down, the justice wore a scared look, while the jury members were open mouthed and on the verge of tears.

The lawyer for the other side then rose, and in quiet, even tones proceeded to address the court and jury, as follows: "May it please the court and gentlemen of the jury, you must not mind my colleague, Mr. Smith. He, gentlemen, will not hurt you. He has a big voice, but he would not harm a child. Let me tell you a story about my learned friend Smith. One day Smith had some important business to transact with Johnson, his nearest friend and neighbor. He went in the early morning to Johnson's house and was greeted by a sweet faced little girl, who opened the door and asked his business. In a voice that would wake the dead Smith asked, 'Little girl, is your father in?'

"Frightened, nearly out of her wits, the girl waited not a moment, but fled to her mother, who hurriedly inquired the cause of her distress. In awestruck tones the little one answered, 'I don't know, mamma. But by his voice I think it's God.'"

"And the jury disagreed."—Chicago Post.

Quicksand.

The operation of testing quicksand may be made a very simple matter, says La Nature. Taking a certain quantity of quicksand and drying it artificially it may be again made into quicksand by putting it into a box and pouring water upon it carefully, when watered Mr. L. was soaked up, and on measuring the volume, or, better, the weight of the sand, it will be seen that the latter takes up a quantity of water that measures 30 per cent of its own volume, or 20 per cent by weight, while the rest remains above the layer of sand. On piercing a small hole in the bottom of the box pure water runs out, the sand forming a kind of immovable floor, or, by turning the box upside down the sand will be seen to keep its form like a stopper. But it is the reverse of this proceeding that results in the real quicksand—viz, putting the water into a vessel and sifting in the dry sand in a thin stream while shaking the vessel lightly, the outcome being the thick but easily flowing compound known as quicksand. That the mixture may keep its mobility it is necessary that the quantity of water be not less than 21 per cent by weight, and the whole be continually though lightly shaken. Increasing the proportion or interrupting the agitation for an instant causes the mass to settle down, retaining about 20 per cent of water, while the surplus, if it exists, rises to the top.

Paraffin Wax.

Probably few persons are aware of the immense amount of paraffin wax now manufactured and consumed, pronounced, indeed, one of the most valuable of the many products of petroleum, much of this importance being due, doubtless, to the perfection at present reached in the methods of production. In the improved process now pursued the wax distillate is redistilled for the purpose of reducing to the desired gravity and crystallizing the wax, this operation being known as cracking, and following this the oil is frozen by the same means that are in vogue for making artificial ice, the machines thus used by refiners of petroleum being of very large freezing capacity and of the most scientific construction. After the oil is frozen it is forced into the filter presses with very powerful pumps, and by these presses the wax is converted into a solid cake, while the oil flows into pans, being then transferred into the sun bleachers or filters as wanted.

Too Conscientious.

"We dissolved partnership," remarked the dairyman. "But he was altogether too punctilious."

"I suppose he wanted to give more than there was any necessity for."

"That's just it. He was the most impractical man I ever saw. Why, sir, he wanted to go to the expense of having the well water analyzed once or twice a year, so's to be sure there wasn't anything in it that 'ud make the customers sick!"—Washington Star.

The Chaldean monarchy is believed to date from 2586 B. C.

The common quarter of silver weighs 104 grains.

It has been held that consumption is hereditary, and the fact that one person of a family had died with consumption was considered a sure sign that others of that family could not escape it. This is partly true and partly untrue. A man with weak lungs is likely to transmit that weakness to his children. But there is no reason in the world why the weakness should be allowed to develop. There is no reason why the lungs should remain weak. Weak lungs predispose a child to consumption. They provide a place for germs to settle. That is all that is necessary. Once let the germ of disease gain a foothold, and they increase with a deadly rapidity. Pretty soon the blood is full of them, and so loses its healthfulness and its strength-giving qualities. If the weakness is in some other organ, the disease will show itself in that organ. The germs will get into the blood, just the same, and the body will begin to lose strength. We speak particularly of consumption because it is most common—because it causes more than one-sixth of all deaths in the world.

If there is a weak and crumbling spot in the foundation of a house, the owner clears out the decaying material, supplants it with new, strong stuff. That's all there is to do. That's all that's necessary.

That is exactly the thing to do with the lungs. Keep them full of rich, red, wholesome blood, and the weakness will disappear. Decaying tissues will be thrown off, and new material will be added until the lungs are well and perfectly strong again. This is the thing that Dr. Pierce's Golden Medical Discovery does. This is what makes it cure 98 per cent. of all cases of consumption where it is taken according to directions. It searches out disease germs wherever they may be in the body. It exterminates them completely and forces them out of the system. It supplies the blood with rich, life-giving properties. It makes the appetite good, digestion perfect. It supplies the needed nutriment to all the tissues and makes sound, healthy flesh.

There are some interesting facts about it told in one chapter of Dr. Pierce's great work, "Common Sense Medical Adviser." This book of 1008 pages will be sent free on receipt of twenty-one (21) one-cent stamps to cover cost of mailing only. Address World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. FOR REPRESENTATIVES.

The Representative Convention was something of a disappointment to those who hoped for the nomination of men from sections directly interested in the Charles River Improvement, but personal politics triumphed over the real interests of the city. The Ward Five politicians proved themselves more successful workers than the men from Wards One and Two, and were able by their combinations to control the convention. Wards One and Two hung together in a loyal manner, but Ward Seven appeared to be hopelessly divided and had no influence in the convention. The board of health and school board combination had the majority, and the result was the nomination of Messrs. Edward L. Pickard of Abundale and Mr. A. F. Hayward of Newton Highlands.

Of Mr. Pickard it can reasonably be expected that he will make an excellent representative. He is thoroughly familiar with the needs of Newton. He is well known by all Newton men, he is accustomed to dealings with men, and it can safely be predicted that he will take a prominent stand in the house, and give Newton some influence in its deliberations. Had either Mr. Langford or Mr. Greene been joined with him, Newton would have had a very strong team.

Of Mr. Hayward it can only be said that he has been a successful business man, being a member of a firm of confectionery manufacturers in Boston, and as he has had no experience in public life, it can hardly be expected that he will exert much influence in the legislature, among men of large experience in such matters.

Newton, from its wealth and importance, ought to take a leading position at the General Court, but hitherto we have generally been content to follow where other cities have led, and we have not had influence enough to secure a penny of the appropriations for metropolitan park and boulevard improvements. We have rotated the offices about by reason of locality or other claims so quickly that our representatives have hardly had time to get familiar with the State House, before they were succeeded by new men. We have passed the honors about to please as many as possible, but we have also effectually prevented the city from having any great influence. Towns all about us have got large slices of the public appropriations, and Newton has got left.

Perhaps this year we shall be more fortunate, as we shall have a senator in Mr. Harwood, who has had two years of experience in the house, and ought to have become so familiar with legislative methods that he will be able to do something for Newton.

Public sentiment has been so aroused on this matter that a sharp watch will be kept over those sent to represent Newton, and they will have no easy task to satisfy the citizens. The people will not be satisfied with their attendance at times when their private business is not pressing, but will expect them to be in their seats at every session and to keep a sharp lookout for the interests of Newton. They will have to encounter men who have the advantage of years of training in legislative matters, and they will have a great responsibility on their shoulders.

As the Charles River Improvement is one of the great questions of the day, the Newton representatives should make themselves thoroughly familiar with it. This will not be difficult for Mr. Pickard, as Abundale is directly interested in the matter, but men from Newton Highlands and Newton Centre can hardly be expected to realize the importance of this question to the city, or know that there is such a river around the greater part of Newton, except by hearsay. It illustrates the foolish way in which we select representatives, that in the year when this great improvement will be a subject for legislation, we pass by Mr. Langford, who has devoted years to the study of it, and is the most persistent and enthusiastic worker in the city, and select a man from a village that is miles away from the river, and who is not claimed to have any knowledge of the question. The majority of the delegates can hardly feel that they acted for the best interests of the city.

In another column will be found an appeal from those favoring the biennial election amendment, which ought to attract attention from the eminent character of the men who have seized it. Among the signers are a number of Newton men, Col. E. H. Haskell, Hon. J. R. Leeson, Hon. William Claflin, Mayor Henry E. Cobb, ex-Senator G. D. Gilman and Hon. Alden Spear, men whose names alone ought to carry a good deal of weight. Annual elections are not only a needless expense, but they serve no useful purpose, and they have been abolished in the great majority of the states of the union. No state that has ever tried the

biennial system has ever seen the slightest effort to return to annual elections, which is one of the strongest arguments in favor of the change. Some very conservative people, who dislike any change merely because it is a change, and some politicians who make money out of elections, are opposing this reform, and they gravely maintain that annual elections are necessary to educate the people, as if the people of Massachusetts were so much more ignorant than those in the biennial states, that we must have more elections than they, as a sort of kindergarten for our voters. The argument is absurd, of course, but it is the strongest one they can advance. Frequent elections are a needless interference with business, and with elections only every other year, we should be just so much better off.

The County Ring has at last been routed and Mr. J. Henry Read, chairman of the board of county commissioners, and who is charged with being responsible for the lax methods of the board, was defeated in convention, after 21 years of service. He will be succeeded by Levi S. Gould of Melrose, and it is expected that the other officials will take warning by Mr. Read's defeat, and take kindly to the reforms in county expenditures, which are demanded by the people. The county is so large and so widely separated in all other interests that the people have paid but little attention to county matters, and this is the reason why expenditures have grown so large. For the next few years the officials will be more sharply looked after. The convention was held Wednesday at Lowell, and was a very warm affair, with several very interesting contests, besides the important one of defeating Mr. Read. On the first ballot Mr. Gould led with 213 votes, Mr. Read had 172, Charles B. Stone of Acton, 44, and Isaac M. Story of Somerville, 38. On the second ballot Mr. Gould had 238, Mr. Read, 153, and Mr. Stone, 48, and Mr. Gould was declared elected. Mr. E. J. H. Estabrook was appointed a member of the county committee.

THERE has been some curiosity as to who paid the expenses of all these train loads of visitors that are dumped into Mr. McKinley's front yard every day, but it is said that the expenses are borne by the campaign committee. Mr. Bryan has to travel about to find his crowds, while Mr. McKinley has them brought to him. Which has the harder time it would be hard to tell, but it shows that our presidential candidates must be men of exceptional endurance to go through with such a campaign without breaking down, both mentally and physically. These daily exhibitions of the candidates, and their mental agility in suiting each speech to the crowd assembled, make it a very spectacular campaign, but whether it is a paying investment can be doubted. The novelty has worn off, and both men are evidently in danger of utter prostration if the thing is kept up for the next four weeks.

MR. WILLIAM H. BAKER of Newtonville has been chosen by the Democrats of this district to oppose Senator Sprague, in the congressional contest, and to give his fellow-citizens an opportunity to know who he is, and where he stands, we give a sketch of his life and his letter of acceptance, on another page. He has no possible chance of success, but he seems determined to make a plucky fight, and has already challenged Senator Sprague to a joint debate, which there is no reason to expect the latter to accept. The district will have an able and worthy representative in Mr. Sprague, and Mr. Baker's letter is valuable chiefly as one of the curiosities of this queer campaign.

THE real fight of the campaign from this time on will be in the states of the middle west. Here in New England the contest is already decided and the only question is as to the size of the Republican majority. People here can afford to look at the contest philosophically, under such circumstances, treat political opponents fairly, and pursue their usual business with due diligence, without losing their tempers or laying awake nights. Massachusetts and the rest of New England is perfectly safe for honest money, and this feeling will deprive the campaign here of any cause for undue excitement.

REPRESENTATIVE HARWOOD of Newton Centre was nominated for Senator from this district, on Wednesday, by acclamation. Senator Read's followers finding that they had not delegates enough to make a respectable showing. Mr. Harwood will be in a position to do a good deal for Newton.

THE death of George Du Maurier, the famous author of *Tribly*, which occurred at London on Thursday, will be received with deep regret by all the reading public. His few books, and especially *"Tribly"*, had made his name known wherever the English language is spoken.

THE Dedham assessors find that they made a mistake of a million in their valuation figures, and this reduces the tax rate from \$18.40 to \$16.40 a thousand. Perhaps it would pay the Newton assessors to go over their figures again.

THE long continued rains this fall are a natural sequence of the long drought during the summer, but it would certainly seem as if things had been about equalized, and that it is only reasonable to expect some good weather soon.

COL. ALBERT CLARKE failed of a nomination for Congress, but his fellow citizens of Wellesley want him to go back to the legislature just the same, and this is to their credit, as he has been a good representative.

A meeting of those interested in Junior Christian Endeavor work was held Tuesday evening, Oct. 6, at the Newton Highlands Congregational church, under the auspices of the conference committee of the Newton C. E. Union. The addresses by Miss Crosby, Sup't. of the Boston C. E. Union, Junior, on "The Need of Junior Work," and by President Noyes of the Newton C. E. Union on "Practical Points in Junior Work," were exceedingly interesting and very profitable to those present.

Readings.
Miss Mary Lewis Spear, the dramatic reader and instructor, will make a few engagements to read by the hour to invalids. See card in another column.

Mr. J. Wallace Goodrich's Recital at Arlington Street Church.

Mr. Goodrich's recital called together a very attentive, appreciative and serious company of musicians and music lovers at Arlington street church, Boston, last Monday afternoon. Mr. Goodrich gave the following program:

Joseph Rheinberger. Preludium
Johann Sebastian Bach. Three Chorale Preludes
a "O Mensch, bewein' dein' Sünde gross,"
e "In dulci Jubilo."
d "Toccata and Fugue in D minor."
Camille Saint-Saens. Fantaisie
G. W. Chadwick. Menuetto
Charles Marie Widor. Prelude
Moderato
Toccata

To give such a succession of serious works requires some courage, for Mr. Goodrich would naturally wish to make a good impression in this his first appearance since his return from study abroad. Many were prepared to hear a finished masterly performance, but it is certain that all went away impressed with Mr. Goodrich's command of the technique of the organ, his skill and judgment in registration. Mr. Goodrich plays with a very comfortable feeling of repose, and we very seldom hear such phrasing and delicate combination with firmness and strength. We are glad to note that the full choir at the end was as cut short as any orchestra would do, and not with the universal "rolling off" of the choir.

The Rheinberger very appropriately began the recital and it opened the door to the good music that was to follow. The Bach numbers were played in a musicianly manner with varieties of registration.

We were again reminded of Bach's great genius and the oft repeated assertion that he foreshadowed the music of today as well as years to come. The Saint-Saens called for a great variety of registration, which Mr. Goodrich was amply met by the organist. The Chadwick minuetto was charming and very well received, and the Moderato Cantabile of Widor was an exquisite bit of writing, and the Toccata brought the recital to a brilliant close. Mr. Goodrich had quite a reception at the close of the recital.

He sails next Thursday for another year's study abroad. We wish him the success which a high and earnest purpose will surely bring to him.

HARRY BROOKS DAVIS.

At the recital in Eliot church, Wednesday evening, people were present from all over the city, and many came from out of town, filling every seat, and there was hardly standing room for those who wished to hear Mr. Goodrich. The audience was a very appreciative one, and for an hour and a half they listened with the closest attention and with many marks of approval to the following program:

Johann Sebastian Bach. Toccata in F minor
Alexandre Guilmant. Meditation
Henry M. Dunham. Sonata in G minor
(First Movement)
Charles Marie Widor. Allegretto cantabile
Felix Mendelssohn-Bartholdy. Andante tranquillo.
Johann Sebastian Bach. Andante
Joseph Rheinberger. Prelude and Fugue in E minor
Otto Nicolai. Pastoral
(Upon the Choral, "Eine Feste Burg ist Unser Gott.")

Levi S. Gould, the candidate for county commissioner, was born at Dixmont, Penobscot County, Me., March 27, 1854, and comes from a sturdy New England stock. His ancestors were John Gould, a resident of Charlestown in 1635, and probably the first white settler of Stoneham, Mass., where he died in 1690, and Francis Whitmore, ancestor of the Whitmore and Wetmore families, who lived in Cambridge in 1649, and died there in 1685. John Gould was a trooper in King Philip's War, and many of his descendants served with distinction in the War of the Revolution and those which followed. The same may be said of Francis Whitmore, who was in the company of Maj. Willard, and served against the Indians. He was also one of the board of selectmen of Cambridge.

During more than 150 years the descendants of John Gould were among the prominent citizens of Stoneham, where they held all the offices of prominence. Levi Gould, father of the subject of this sketch, moved to what is now Melrose Highlands in 1843, and with Dea. Moses Cochran, laid the foundation of the Melrose Congregational church, and he died in 1850.

Mr. Gould has resided in Melrose exactly 30 years, and in early life learned the trade of a shoemaker in North Malden. He came to Boston in 1855, became connected with the firm of F. M. Holmes & Co. in 1866, was elected to the legislature in 1867, re-elected in 1869. He first served on the board of selectmen of Melrose in 1869, and was chairman from 1885 to the present time. He is a member of many societies.

—A new sidewalk has been made around Denison building, corner of Washington and Walnut streets. It is a handsome piece of work and a great improvement to the square.

—The highway and sewer department are working on the transformation of Spruce street, alias Ashburton alley, now known under the elegant name of Madison avenue, and to be one of our finest streets.

—There are letters in the postoffice for Kate Conklin, Mary Donahoe, Mrs. Nellie E. Daggett, Mrs. J. Hannigan, Mrs. Hannah Johnson, Mrs. Alla D. Knight, Mrs. Charles P. Kelly, Wm. McKinnon and Mrs. F. Parker.

—A large bundle of clothing and table linen, which was stolen from a clothesline in the rear of the Newton clubhouse, last Friday night, was found Monday afternoon in a piece of woods near Washington street, West Newton, and returned to the owner.

—A horse driven by Edward Scribner of Chelsea street, East Boston, ran away on Commonwealth avenue near Walnut street, this place, Monday afternoon. The wagon was thrown against a lamp post and wrecked. Mr. Scribner escaped with a few slight bruises.

—Councilman Geo. M. Cranitch was one of the ushers at the wedding of Dr. Daniel S. Harkins and Miss Catherine A. Tighe, at St. Augustine's church, South Boston, Monday morning. Rev. John J. Harkins, a brother of the groom, performed the ceremony, assisted by Rev. Albert M. Peabody and Rev. P. H. Harkins of Holyoke.

—The Newtonville Bryan-Sewall-Williams club opened its headquarters in the Central block, Monday evening. Brief addresses were made by Pres. W. H. Baker, P. J. Gallagher and others. The executive committee was empowered to make arrangements for a rally to be held at City Hall in two weeks, at which George Fred Williams will be the principal speaker.

—Manager G. H. Loomis of the Newtonville Exchange, though reported on the retired list last week, was absent but a single day and has another setback this week, but he doesn't surrender easy. He is up and about and next week will report two or three transactions of some importance. Pluck and patience are prime qualities in real estate and some say he has a good stock of both on hand.

—Mr. G. H. Loomis, we understand, is arranging for an auction sale of house furnishings odds and ends, bric-a-brac, etc., of which many families have an over supply and prefer to sell at a sacrifice rather than to put them in storage. This sale will be timely announced and will no doubt be well patronized by both buyers and sellers in the Newtons rather than to send them to city auction rooms.

—Alexander Sweeney, 30, of Grove street, Auburndale, was hurt while working on the Boston & Albany excavation near the ladder house Saturday afternoon. He was working in the ditch when a load of stone fell from a lifting scale which was being hoisted above his head. A crowd of laborers rushed to his assistance and carried him to a drug store. A physician found that Sweeney had sustained slight internal injuries. He was carried to the Newton hospital.

—Monday evening Newtonville residents complained to Patrolman Dearborn that a young man was going from house to house in the village exhibiting a sore arm and asking for contributions with which to buy a railroad ticket. Later the patrolman arrested William Burton, on the charge of obtaining money under false pretenses. In his possession was found \$8.26 in small change, which he had received from Newtonville people. He received a sharp reprimand in court and was let off. He said he belonged in Michigan.

—The Springfield Republican pays this deserved tribute to a Newtonville resident: "John W. Dickinson, ex-secretary of the state board of education, labored for years to make our public schools so good that no parent could afford to patronize parochial schools. That is the right purpose, approved by all citizens as all have a common interest in the schools. Let us have no more of the effort to make our system of compulsory education the peculiar charge of a party. It never has been such, and never can be, and therein lies its strength and permanence."

—Saturday afternoon a company of thirty ladies met in the Newtonville clubhouse for the purpose of organizing a local branch of the Daughters of the Revolution. The assembly was addressed by the vice regent of the state association, Mrs. Sarah M. Hunt, who briefly outlined its objects and methods of work. Mrs. Robert T. Swan of Dorchester also spoke on "The Work of Local Chapters." A vote was taken for the choice of a name, and it was decided to call it the Sarah M. Hunt chapter of Newton. Mrs. Alexander M. Ferris of Newton was elected chapter regent and Mrs. Annie T. Logan treasurer. The remaining list of officers will be elected at a meeting to be held at an early date. At the close of the

meeting a large number of applications for membership were received.

—The Misses Kneeland of Central block have moved to Newton Centre.

—Saturday evening will usher in the winter gaieties at the clubhouse.

—Rev. Mr. Dwyer was the guest of Mr. and Mrs. Austin R. Mitchell for a few days.

—It is expected that the Walnut street bridge will be completed in about six weeks.

—Mr. and Mrs. Charles W. Fell of New York are the guests of friends here for a few weeks.

—Mr. Nelson Soule of Easton, Mass., is the guest of his brother, Mr. W. P. Soule, on Walker street.

—During the session of the registrars, Wednesday evening, an unusual large number of names were added to the list.

—Rev. J. M. Dutton has been in attendance upon the State Sunday School Convention at Northampton the past week.

—Mr. C. E. Wilson and family, formerly of Washington street, have moved to New Hampshire where they will reside permanently.

—Miss Mary Park will hold a sale of fancy articles and ice cream at her home on Park place, Wednesday afternoon and evening.

—Mr. F. S. Amidon has been sending his friends ripe strawberries, picked from his own vines, this week, measuring an inch in diameter.

—Work on the new Masonic Temple is progressing rapidly and it is expected that the walls and roof will be completed before the winter weather.

—The Universalist society will hold the first fall social next Thursday evening in the church parlors. A supper will be followed by an entertainment.

—Alderman Green was opposed by the school board for representative, and why not nominate him for a member of the school committee. Such men as he are needed on the board.

—About one-half of the amount necessary for the illuminated clock has been subscribed, and it is hoped that enough interest will be shown to supply the remainder within the coming week.

—Two large bundles of clothing were found Sunday by Patrolman Soule on Kimball terrace. A large portion of the clothing taken from the various clothes lines during the past few weeks, have been identified. It is thought to be the work of an insane person.

—Frederick Henry Clark of Newtonville is stumping the state for the State Republican ticket. During the last week he addressed 3000 at Hardwick in the western part of the state, speaking again at Charles town, and on Wednesday evening he spoke at the rally of the railroad men, under the auspices of the Boston & Maine Gold Club in Boston.

—A musical and literary entertainment will be given at the Universalist church next Thursday evening by Mr. W. F. Wentworth. The program will be interspersed with music by local talent. Mr. Wentworth will be assisted by twelve young ladies who will illustrate Longfellow's poem, "Sandalphon," in a series of moving tableaux with musical and illuminating effects.

—The first of a series of musicales occurred last night at Mr. Hale's studio. The evening was informal and thoroughly delightful. The social feature of the occasion was varied by songs from pupils of Mr. Morse, violin solos by Mr. Howard, readings by Mr. Eaton, and piano pieces by Mr. Hale. Very light refreshments were served. Twenty-five guests were present.

—Four candidates were initiated at a special meeting of the Ancient Order of United Workmen last evening.

—J. T. Bailey has bought the Chas. T. Cutting estate on Webster street, and Mr. Cutting is moving to the Highlands.

—John Eliot Lodge, A. O. U. W., will give a supper and entertainment at Knights of Honor hall, Wednesday evening.

—The Unitarian Sunday school held the first fall meeting last Sunday. There was a good attendance in spite of disagreeable weather.

—Mr. Herbert R. Houghton was one of the ushers at the wedding of his cousin, Miss Esther R. Y. Hinckley of Medford, Monday, to Mr. Irvin E. Peak.

—Thomas Cavanaugh, 70, of Oak avenue, fell from an apple tree on the Cook estate Monday morning about 9 o'clock, and struck heavily on his head. He was picked up unconscious and taken to his home. His injuries are regarded as serious.

—The finance committee of the city council, in preparing the appropriation budget for next year, will be asked to provide for an increase in the police force. The number of patrolmen now at the disposal of the city marshal is inadequate to cover the city, and at least six more men are needed.

—Aaron T. Webber, one of the oldest residents of this city, died at the residence of his son, Highland street, Wednesday morning, after a long illness. Mr. Webber was formerly well known to the members of the building trades of Boston. He was born in Romney, N. H., in 1806. He came to Boston when 18 years of age, and soon after engaged in business as a contractor and builder. He remained in business in Boston for upwards of 50 years. Two years ago he moved to Newton.

—There are letters in the postoffice for Mrs. R. F. Adams, Mrs. John Bryson, Mrs. Bryson, Mr. Geo. A. Bridges, Lusia Ceconda, Mr. Daniel Cody, Mr. F. C. Coburn, Mr. J. H. Connor, Mrs. Charles G. G. P. J. Duan, P. J. Giuseppe Talbo, P. J. Hakanson, Henry Irving, Charles Kirk, Mrs. Wm. Kelley, Miss Helen Lord, Mr. Late, Miss Annie McKinnon, John Manning, Elizabeth Orcutt (2), Mrs. E. K.

Perley, Moses C. Smith, Mrs. Maggie Simes, Mr. B. L. Whelpley.

—Miss M. Anderson has moved to Salem.

—Mrs. Curtis of Elm street is away for a short stay.

—Miss Stella Kimball of Crescent street was in Wakefield, for a short stay this week.

—Mr. and Mrs. W. G. Smith of Springfield will reside here during the winter season.

—The widening of Cherry street is nearly completed, making a great improvement in the street.

—The first fall meeting of the Newton Congregational Club will be held Monday evening, Oct. 13.

—The many friends of Miss Harriett Claffin will be much pleased to hear of her return to this place.

—A delegation from Post 62, G. A. R. attended the 30th anniversary of Post 1 at New Bedford, Tuesday.

—The regular meeting of the local branch of the W. C. T. U. was held in the Baptist vestry, Tuesday afternoon.

—Miss Dora Nelson, who was the guest of Mrs. Robbins on Cherry street has returned to her home in Albany, N. Y.

—The regular meeting of Crescent commandery U. O. G. C. will be held Thursday evening in Knights of Honor hall.

—Boynton Lodge U. O. I. O. O. Q. will hold their regular meeting Tuesday afternoon. R. W. Q. G. Julia Burroughs is expected to be present.

—If your electric lighting is out of order send your address to J. W. Lockett, P. O. box 204, West Newton, and he will attend to it for you.

—The Newell Young People's Society of Christ the Redeemer were obliged to postpone their social, owing to a church meeting that evening.

—A delegation from Boynton Lodge attended the annual meeting of the Odd Ladies' Relief Fund Society at Roxbury, Wednesday afternoon.

—The building on the corner of Washington and Chestnut streets is being moved back to allow for the widening of Washington street through this section.

—The abutments of the Putnam street bridge will be completed and the road opened for public use within a few weeks.

—The fall millinery opening of Mrs. M. H. Quimby and Miss M. C. Baird began yesterday morning. Many artistic styles are displayed, doing away with the necessity of going to Boston for new headgear.

—Several members of the Newton Home Circle visited the Soldiers' Home at Chelsea, Tuesday afternoon, laden with confectionery and fruit for the inmates. This is a worthy place for one to visit and carry words of good cheer, fruit or flowers.

—The Women's Guild connected with the Congregational society held its first fall meeting, Wednesday afternoon, in the church parlors. Mrs. Kellogg, sec'y of the Women's Board, and Mrs. Caswell were present and made some interesting remarks.

—A delegation from Crescent Commandery, U. O. G. C., attended the 17th anniversary of Abraham Lincoln commandery Thursday evening. Several members of the supreme board were also present. Refreshments were served and a pleasing entertainment presented.

—The regular meeting of Tennyson Lodge, Daughters of Rebekah, was held Tuesday evening. A "Sammamunga party" furnished amusement for all present. The first prize was awarded to Mrs. Bust and Mr. Cushing, and Mrs. Lovell and Mr. B. F. Barlow carried away second honors.

—Mr. Charles E. Barker, a well known resident, died at his home on Webster street, yesterday morning, after a short illness. He was 48 years old and had lived in this place all his life. He was for many years engaged in the wholesale drug business on Kilby street, Boston, but retired a few years ago. He leaves a widow and two children.

—Mr. Fred A. Inman will give a short talk on "Hypocricy" in the First Baptist church on Sunday evening next. He is thoroughly familiar with the subject having made it a study for years and will bring examples before his hearers. It is hoped a large attendance will be present, as all know him to be an interesting and earnest speaker to young and old.

—The Newton Veteran Firemen went to Nashua, Wednesday, to take part in the great play-off they were to have there. It was a rather dreary day, the rain pouring down most of the time. In the contest, the Newtons failed to show up much enthusiasm and only won seven points, with 1-2 inches. The Peppercell Co. won first prize, with 200 feet, 7 1/2 inches; with Peabody second, fifteen of Lowell third and Excelsior of Winton fourth. The Waltons only got two points so the Newton men did not feel as blue as they might.

—The annual meeting of the Newton Ladies Home Circle was held in the Unitarian church parlors, Wednesday afternoon. Reports of the year's work were read by Mrs. Hadlock, rec. sec'y; Mrs. Smith, treas.; Miss Chamberlain, sec'y; Mrs. Langley, entertainment committee; Mrs. Wetherbee, emergency committee; Mrs. Pearson, relief committee; Mrs. Crafts, cutting committee; Mrs. Anders, cottage, and Mrs. Wilson, Solid Home committee. The following officers were elected for the ensuing year: President, Mrs. Pearson; vice president, Mrs. Anders and Mrs. Plummer; rec. sec'y, Mrs. Hadlock; cor. sec'y, Mrs. Wilson; treas. Mrs. Smith.

—The following Co. C. members, Lieut. H. B. Inman, 1st Sergt. R. W. Daley, Corp. Gifford, and Privates Staples, Reed, Ober, Hoyt and Bailey from this village attended the annual field day exercises of the 5th regiment at Plymouth, Thursday.

—About 12 1/2 o'clock Wednesday night an alarm was rung in from box 44 for a blaze in the house occupied by Thomas Hobson on Lexington street. On the arrival of the apparatus the fire had gained considerable headway and it was with difficulty extinguished after several hours fight. The damage will amount to some \$450. The origin of the fire is not known but a combination of rats and matches is

thought to have been responsible for the trouble.

—Mr. Charles Davis of Melrose has taken a house on Charles street this week.

—Mr. and Mrs. George B. Knapp are occupying their house on Central street.

—Miss Carrie Turner is the guest this week of Mrs. Fred Pond of Auburndale avenue.

Boston, **3311.—TELEPHONES—W. Newton, *234.

Now I will preach a little. All next week we will carry our preaching into practice. Nutmegs is my theme. Not the Connecticut wooden variety, but the real, genuine, spicy article—good as one silver half dollar. This was never done before to my knowledge, and I believe it will never be again. Every family should secure one pound now. A little Kitchen Ware left yet; also a few packages of good starch at 7c.; a little Shredded Wheat Coffee at 17c., such as you will pay 20c. for at Food Fair in Boston; also a few Clothes Wringers—haven't room for them. I am going to save you some more money next week on all these goods.

Curtis Bros. of Rochester, N. Y., are now known to everybody as one of the largest packers of the finest goods in this country. Their name is a guarantee of quality, and any article bearing their name that proves bad can be returned and the money refunded. I have purchased my supply for the next six months of them—Fruits, Jams, Jellies and Vegetables, partly in cans and partly in glass jars. The style equals the quality. My Worcester County Creamery Butter and my New York Creamery Butter are good and popular as ever. S. S. Pierce & Co.'s fine Olives and Olive Oils and other fine goods of theirs. Pillsbury's Best, Gold Medal, Matchless, Bridal Veil, Columbia, Daisy and Swansdown Flour in bags and barrels. Terms cash and thirty days' credit.

We have made special and exclusive arrangements with the author for a series of new and charming fairy stories. For some time they will be one of our special features.

THE PRINCE'S BRIDE.

[Copyright, 1896, by Walter B. Guild, Boston.]

CHAPTER III.

"Oh, no, no. It is all a mistake. I thought it was Uncle John," said Finetta.

"You have made a great mistake, as you say," said the prince, still in the same voice, "but I make no mistake in going away."

Rosebud was the name of the sixth sister, but they always called her Bud. She felt sure that the failure of her five sisters was because the prince had chosen her; so, as she went out upon the porch to wait for the prince, she took a cat, that no mouse might scare her, and resolved to look at any one who spoke to her, so as not to make the fatal mistake of telling the prince to go away as Finetta had done. "No mice and no mistakes for me," she thought. "Well, no wonder that the prince passed the others, for I am really prettier than any of them. They can be my bridesmaids, probably, unless the prince is angry with Finetta."

She had waited scarcely ten minutes when a gorgeously colored feather blew from her hat into the road. Now Bud was so vain and thought so much of fine clothes that she chased the feather without a thought of anything else, but as she caught it and turned toward the house the prince met her and said:

"You have saved the plume for your hat, but it has cost you a kingdom."

Poor Bud wept, and the prince passed. The seventh sister's name was Prudence. She was very much in earnest as to winning the prince. She determined that no feathers, nor mice, nor old uncles' voices should cause her to miss her opportunity. She would not leave the porch no matter what happened. As she sat there, a large snake crawled toward her. She was terribly frightened, but not a step did she move, and the snake passed down the path and out of sight.

A fox was chased by dogs and ran under her settee, but not a step did Prudence move.

Three mice ran into her lap and looked at her, but not a scream nor a step from Prudence. "I will not be frightened," said she.

Soon a little girl came along who was so faint from want of food that she fell down in the road. She held up one little thin hand and cried, "Come to me."

"No going anywhere for me," said Prudence. "Aunt Nancy can go if she hears her." Weak as the little voice was, Aunt Nancy heard and came with her hands all covered with dough and her apron torn where in her haste it had caught in the door latch. When Aunt Nancy got half way toward the poor girl, there stood the fairy prince. His face shone with happiness as he said,

"At last I have found the beautiful, the true and loving one who is worthy to be my queen." Prudence thought that he surely referred to her, but when Aunt Nancy was taken into the chariot with the poor hungry girl and the prince she understood.

All were invited to the wedding, and when it was known that Aunt Nancy was the bride, there was great wonder and fear among the girls who had made sport of "Our bride, Aunt Nancy."

They all went to the wedding, but not one of them was even a lady in waiting.

When Aunt Nancy came in with the prince, all of her old deformities had vanished. Such beauty had never been seen. The seven sisters looked in amazement. Then each took out a mirror and saw her true self for the first time.

The prince shook hands with every guest, and it took three days for the handshaking. To every one he appeared as he had done at some previous time. To Olga he was the old woman whom she had so rudely grieved.

As a lesson had to be taught, the prince said to each one just what that one had said to him when in disguise he had tested her loyalty.

To Nora he came as a baby with a lame foot. She then saw that the opportunity which she had missed was to save the baby and thus win the crown. Ever after the wedding Nora was lame, for the baby's hurt was passed to Nora. She thus knew from what pain she might have saved another.

The bride now opened the letter which was left by the old woman whom Olga had treated so rudely and it said:

"As you have treated my subjects, so have you treated me and so must you be dealt with."

A royal message offering pardon to the lawbreakers was issued. A measure of yarn was given them to reel, and the more the law had been broken, the longer the yarn, so that all could see the true measure of the king's displeasure. The people were much surprised, for some of the highest society people had a longer measure of yarn to reel than the common herd thieves. It taught them a lesson, however, and the measures of yarn were the means of bringing much joy to those who reeled them in quickly and properly.

THE END.

THE FAIRY'S SANDAL.

[Copyright, 1896, by Walter B. Guild, Boston.]

In the great city of Obledo there dwelt many rich and many poor men. There were many of the people who were dishonest, and so it came about that those who could do a kindness were often imposed upon.

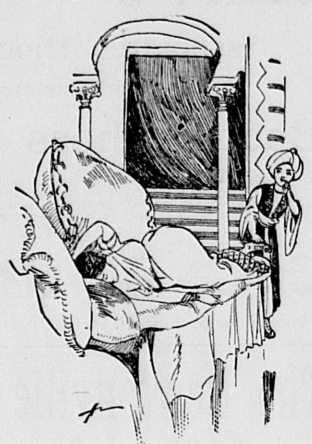

Little Shere Ado dwelt in a miserable lane and in a still more miserable house. He was very poor and earned his scanty living by carrying water to the camels and men of the caravans which passed through the city.

One so small and weak was not able to earn much, but he was always kind and polite.

While he sat with his water bottle one day, there came to him a man of majestic appearance and asked if he would do him a favor.

"How many leagues must I go?" asked Shere Ado.

"Go only to the house of yon witch and bring to me her right sandal," said the stranger. "Disturb not her slumber."

So it came about that Shere Ado took the slipper.

For she sleepeth at the noon hour and might not give you the slipper if you ask for it never so civilly."

"A hundred shekels of silver shall be yours when you bring the slipper." Now "yon witch," as the stranger had called her, was no witch at all, but a good fairy and one who had done Shere Ado full many a kindness.

"Come here again tomorrow and I will see what I can do for you," said Shere Ado.

When the stranger went his way, Shere Ado went to the house of his good friend the fairy and told her all that the stranger had said.

"When I sleep tomorrow, you may take the sandal from my foot," said the fairy.

So it came about that Shere Ado took the sandal or slipper from the foot of his friend and got his hundred shekels of silver.

"Glad now is my wealth," said he, "and I will give to the fairy the half of the money, for was it not her slipper?"

When the fairy received the fifty shekels of silver, she went outside the city wall and sowed them in a field which she owned and then gave the field to Shere Ado to be his very own, with all that it contained.

Shere Ado did much good with his money, and many a poor person was helped in more ways than you would expect.

The winter soon came, and Shere Ado was now as poor as before, for he had spent and given away all of his fifty shekels of silver.

Water carrying was again his only means of earning a living. Not a word did the good fairy say until he was stricken with the desert fever.

Then all of his needs were supplied, and some of the poor people whom he had helped came to care for him the best that they could.

In the spring, when Shere Ado was fully well, there came a kneek at his door.

There stood the stranger who had sought the slipper.

"Because you would not rob my sister, but took her slipper by her consent, you have a new house and much wealth. Come with me," said the stranger.

They went outside the city wall to Shere Ado's field, and there had grown a beautiful palace. There were men-servants and maid-servants, and every shekel of silver which the fairy had sown upon the field had grown to a pot of gold.

Shere Ado now asked the fairy to be his good counselor. He thus used his wealth so wisely that the caliph (that is what they called their king) bestowed upon him a title, and he was raised to high honors.

The caliph had no son, and so in his old age he appointed Shere Ado to be king or caliph in his stead, "for," said he, "one who would not steal even an old sandal for a hundred shekels of silver will surely in all things be faithful."

BIENNIAL ELECTIONS.

Why Massachusetts Should Adopt the Amendments.

The undersigned, Citizens of Massachusetts, respectfully address this appeal to their fellow citizens, in behalf of the Amendments to our Constitution, providing for Biennial Elections of State officers and members of the Legislature, recently approved by the Legislature of 1896, and which will come before our voters for approval at the approaching November election.

First Article of Amendment: Shall the proposed amendment to the Constitution establishing biennial elections of state officers be approved and ratified?

Second Article of Amendment: Shall the proposed amendment to the Constitution establishing biennial elections of members of the general court be approved and ratified?

These Amendments provide, that, beginning with the election of 1898, all future state elections shall occur every two years instead of annually, and that all of our State Executive officers, as well as members of the Legislature, shall serve for two years. The Legislature, however, will meet annually, as at present.

This important measure of reform in the administration of our State affairs has been before our people for consideration for twenty years. It has been strongly urged for adoption by several of our esteemed governors, viz: Rice, Talbot, Claflin, Ames, Robinson, Brackett and Greenhalge. It has received the hearty support of thousands of our citizens, irrespective of party affiliations; its merits have been commended by substantially the entire public press of the State, and in the exercise of their duties, as legislators, it has received, after proper consideration, the support and votes of nearly three thousand legislative representatives of the people.

The history of the movement for less frequent elections in the various States of the Union shows that it has not been regarded as a party question, but has been adopted by the several States, independent of party consideration, as an eminently wise measure of reform in the conducting of State affairs, and it has received the joint support of all classes of their citizens, who have believed that such a change would be, not only, in the highest and best sense, in the interest of the administration of their public affairs upon more economical principles, but in the interest also of wiser and more intelligent, because better-considered, legislation.

At the present time, forty-three of the forty-five States have adopted the system of Biennial, or less frequent, elections. Forty of these States discuss State and National issues in the same canvass, and it has proved so satisfactory that in no State of the Union has there been a movement to adopt, or return to annual elections.

The testimony of the highest officials and prominent citizens of the several States is substantially unanimous in its favor, as shown by its practical working, its economical results, its beneficial influence on legislation, and the measure of satisfaction with which the change is regarded by their people.

It has also been shown that such a change has not weakened, as has been claimed, the interest of citizens in public affairs, or affected their participation in political campaigns. On the contrary, it has enhanced their interest and activity, and in many of the States, has brought out a much larger vote, relatively, than is cast in our own State.

In our own State, since the organization of our present government, we have conducted a State and national canvass together every two years, to the satisfaction of our people, and without any movement to separate them. And in the years 1874, 1882 and 1892 elected a Democratic governor on State issues, and a Republican delegation to congress and in 1892 presidential electors, on national issues.

Believing, therefore, that the adoption of Biennial Elections of our State officials would prove a wise and beneficial change in the administration of our State affairs, that our people will gladly welcome the relief from the turmoil, excitement and expense of an annual State political canvass, that the States only now impair, but will help to improve, the character of our legislation, and the general efficiency of our State government, as shown in the experience of nearly every State in the Union, we urgently appeal to all our citizens to unite in a common effort, in behalf of these amendments, in order that they may be adopted, and become the established policy of our beloved Commonwealth.

Can Choose Between Eight Tickets.

The American voter has no occasion to complain this year that his electoral bill of fare isn't extensive enough. Even in the presidential field there are eight tickets, put forward by separate organizations, although, some of these have merely said ditto.

First to enter the lists were the straight prohibitionists, who nominated Lovering and Johnson at Pittsburg, Penn., May 27.

The next day at the same place, the free silver-woman suffrage wing of the prohibitionists named Bentley and Southgate, and called itself the national party.

McKinley and Hobart were nominated at St. Louis, June 18, by the republicans. The socialist labor party, at New York on Independence day put forward Matchett and Maguire.

Next came the nomination of Bryan and Sewall by the democratic convention at Chicago, July 10 and 11.

The silver party, in convention at St. Louis, July 24, endorsed the ticket of Bryan and Sewall.

The people's or populist party, in the same city, holding convention, July 24 and 25, nominated Bryan for president and Thomas E. Watson for vice-president.

Finally, at Indianapolis, Sept. 3, gold standard democrats named as nominees of the "national democratic party" Palmer and Buckner.

This is a very peculiar campaign, and nobody knows what a day therein may bring forth. But it seems safe on the whole to predict that the parties have all been "heard from" so far at least as presidential tickets are concerned.—Boston Globe.

—Mr. M. C. Bray has commenced the erection of a house on Albany avenue.

—Mrs. J. H. Sanborn of Chase street has returned from an extended trip abroad.

—Congratulations to Mr. and Mrs. John Brown of Langley road, a 13 pound boy has come to them.

—Mr. Arthur Neilson and family of Chestnut street, near the boulevard, have removed to Newton.

—Mr. Barnes and family, formerly of New Jersey, have taken Mr. H.W. Towle's house on Parker street.

—Somers, the tailor, 149 A Tremont street, Boston, makes a specialty of fine woolsens at moderate prices. 51 tf

—Mr. Frederick W. Turner and family of Norwood avenue have returned from their summer outing at Nantasket.

—Ground was broken this week for a house to be erected on Dr. Sylvester's land on Beacon street, near Centre.

—Mr. A. F. Henniker's boy of three years was quite badly burned on Monday by falling into a tub of hot water.

—Mrs. C. H. Dole, formerly of this place, and late of Brookline, has returned to Newton Centre, to make her home here.

—The Young Men's Catholic Association are planning for an entertainment to be given in Associates hall, Oct. 14 and 15.

—Mrs. Richard O'Brien of Thompsonville, who has been a patient at the Newton Hospital, is reported as improving.

—A lobster weighing nearly twenty pounds is attracting attention at Mr. Richardson's market, where it is on exhibition in a glass case.

—At the Unitarian church next Sunday, service at 10.30 conducted by the pastor. Sunday school at 12. All persons are heartily welcome.

—Rev. J. S. Chandler, for many years a missionary in India, has with his family taken a house at the corner of Langley road and Warren street.

—The affairs of the local Republican torchlight battalion are in a flourishing condition and the boys are drilling with an interest that assures them great success.

—Mr. Louis S. Spear and family, who have been spending the summer in Newton Centre at their house, corner of Ward and Summer streets, have returned to Boston.

—Miss Mary McGrady, bookkeeper at W. O. Knapp's for about eight years, has left her position there and will remain at home. Her place is being filled by Miss Lottie Maloney.

—Clarence Hawkins has reported to the police that a kit of tools valued at \$12 and owned by him was stolen from a house on Grafton street sometime between last Saturday and yesterday.

—The ladies of the Unitarian church will hold a sale in the church parlor every Saturday from 3 to 5, beginning October 17th. Home-made cake and candy a specialty. Admission free.

—The first meeting of the Stebbins Alliance of the Unitarian church, for the season of '96 and '97, was held Wednesday afternoon and attended by a large number of lady members of the church.

—Mr. William Rising, Mr. Fred Rising, Mr. Frank Wales and Mr. Arthur Fowle have been enjoying an outing in the Maine woods. Mr. William Rising returned Monday and reported that Mr. Fowle had shot his first deer. The rest of the party are expected home today.

—Miss Mandell has been obliged to change the day of her dancing class to Monday. A class for beginners will be held from 4 to 5.30, advanced class from 5.30 to 7, beginning Nov. 2nd. Reservations for either class must be made before Oct. 20, to 117 Washington street, Newton.

—The first sociable of the season at the Methodist church, was held Wednesday evening and attended by the larger part of the congregation and many invited guests. At 6.30 o'clock a supper was served and a pleasing entertainment of literary and musical selections provided for the evening's pleasure.

—Whilst riding a bicycle on Langley road Saturday evening Edward Henniker, 8 years old, was badly hurt about the head by coming into collision with an express wagon at Gardner's corner. He was picked up by a party of bystanders and immediately removed to his home. His wheel was considerably damaged.

—The peculiar actions of the town clock this week were brought to a sudden end Wednesday noon. Workmen came to repair the works, and to properly regulate them were obliged to sound the bells at unheard of hours. To say that the noise caused considerable excitement would not be exaggeration, judging from the crowd in the square.

—Mrs. C. A. Clark of Cypress street was brought to her home last week still suffering from the effects of a severe rheumatic fever, which prostrated her August 2nd while at the home of her mother, Mrs. W. H. Ashley of Fall River. Mrs. Clark has recovered from the fatigue of the journey and is slowly regaining her usual state of health.

—Crane, the star end rusher of the Newton Athletic Association eleven, will not start his foot ball suit this season. Ned, it will be remembered, scored the only touchdown against the B. A. A. team last year, and his playing last Saturday helped materially to keep B. A. A.'s score low. We learn that the real estate business is responsible for the change.

—A horse attached to a light buggy, the property of Mr. Marshall O. Rice, ran away Tuesday afternoon, and was captured before it had caused any damage. The animal started from the boulevard, where it was left standing, and ran up Centre street, and turning into Pelham, was stopped. The vehicle was overturned on Pelham street, and was but little hurt.

—There are letters in the post office for Mrs. May Bacon, Miss C. J. Blake, Lizzie Bell, Mrs. M. A. Beardsley, Miss Bateman, Miss Bessie Clark, Dr. F. H. Clark, Miss B. Lawrence, Miss Florence Marshall, Malcolm McSkell, Mrs. L. S. Parker, Bartholomew Quinn, Miss Abbie Rand, George H. Rand, Miss Robert Reid, Mr. Richardson, Miss Eva Wilson and Miss Hattie Wiggan.

—A story is told of the misfortune of some young lady members of a local church decorating committee. They had been recently assigned to their new duties and were very anxious to make a pleasing success. With this in mind, and thinking that festoons of autumnal foliage would be most appropriate, they started for some neighboring woods. The trip was uneventful and they returned laden down with highly colored leaves and other decorations appropriate of the fall season. Not long after their arrival home each young lady felt an illness which told them they could not continue their labors so well established. They wondered why? The reason was soon obvious, they were victims of the dreaded poison ivy.

NEWTON HIGHLANDS.

—The C. L. S. C. will hold its next meeting with Mrs. J. C. Hyde.

—Mr. Edwin R. Crane of this village, Harvard '96, has returned from a trip down East.

—The annual Harvest supper will be served in the parlors of the M. E. church next Monday evening, Oct. 12, from 6 to 8 o'clock.

—Mrs. Bonner conducted the services in a very acceptable manner at the evening service at the Methodist church, last Sunday evening, on account of the absence of the pastor.

—Ancient Order United Workmen, Oak Lodge No. 170, meetings second and fourth Wednesdays, Stevens' building. Beneficiary Order paying \$2000 at death of its members. For application blanks and other literature apply to William L. Thompson, Recorder, Newton Upper Falls. 36 tf

—A Harvest concert will be rendered by the Sunday school in place of the regular morning preaching service next Sunday in the Methodist Episcopal church. The harvest idea will be carried out in the evening also both in the music and in the brief address by the pastor.

—The Ladies' Sewing Society and the Ladies' Missionary Society of the Congregational church, held a union meeting in the chapel, Wednesday afternoon, and united under the name of the Ladies' Church Aid and Missionary Society. Mrs. Havens was chosen president and Mrs. George May secretary and treasurer. Each department is to manage its own affairs in much the same manner as heretofore, having its own officers, etc. The plans are not fully matured but are under consideration.

NEWTON UPPER FALLS.

—A public meeting of the Newton Christian Endeavor Union will be held in Needham, Oct. 12. The meeting will be addressed by Editor Ellis of the Golden rule.

NEWTON LOWER FALLS.

—The Dudley Mills will cease operating after this week until Nov. 9th.

—The Ball house is being repaired and fitted in part with dormer windows.

—Officers Harrison, Tibbetts and Allen are taking their annual two weeks vacation.

—Congratulations are extended to Mr. and Mrs. F. H. Dennis on the birth of a daughter.

—Bishop's paper mills expect to resume running in full next week. The works have been undergoing repairs during the recent shut down.

—The new horse wagon for Hose 6 station arrived last Friday. The new piece of apparatus is a model of beauty and workmanship. It is about 400 lbs. heavier than the other horse wagons in use in other parts of the city.

—The cottage advertised to be sold at auction at Wellesley Farms last Saturday, evening, Oct. 10th, on account of the bid being too small for consideration. It is probable another attempt will be made to sell the estate.

—Rev. P. H. Callanan has added to his already large and rare collection of animals and birds, two elegant specimens of the lion and a fox. The former came from Foxboro, where they were captured in their infancy.

—Rev. Fr. Fagin of Natick will preach in St. John's church on Sunday evening, Oct. 11th, at 7.30. Rev. Fr. Welch of the Cathedral, Boston, will preach on Thursday evening, Oct. 15th, at 7.30, and Rev. Fr. McDermott of Newton Centre will preach at 7.30 on Sunday night, Oct. 18th.

—Officer Tainter arrested Edward Farrell of Wellesley last Saturday night for trying to force a young lady to accompany him near the footbridge. The latter complained to the officer hence his arrest. He was fined \$15 before Judge Kennedy, for non-payment of which he was sent to the house of correction for 60 days.

WABAN.

—Don't forget to register this (Friday) evening.

—Mr. Amasa Gould entered Harvard, Monday.

—Mrs. Wm. B. Locke is visiting relatives at Lowell this week.

—Mr. F. A. Childs is confined to his home by illness this week.

—Mr. C. E. Comer's house on Chestnut street is fast nearing completion.

—Mr. J. E. Morse returned from a business trip in the West, Wednesday.

—Services were held in Waban Hall last Sunday, Prof. W. H. Williams officiating.

—Services will be held in Waban Hall Sunday at 10.30 a. m., by Rev. Wm. Hall Williams.

—Mr. and Mrs. B. S. Johnson of Woodward street, returned from the mountains, Monday.

—Prof. C. E. Fish, Waban School, has passed part of the Page and Henshaw block for recitation purposes.

—The house lot adjoining Mr. A. W. Vose, Beacon street, is reported as sold and a house is soon to be erected thereon.

—Mr. and Mrs. Edward Carpenter of Bridgeport, Vt., were the guests of Mr. and Mrs. A. S. Barnes last Saturday and Sunday.

—It is reported that a nice brick block is soon to be erected here on Beacon street, between Windsor road and railroad track. More details next week.

—There are letters in the postoffice for Mrs. F. M. Henshaw, Mr. S. W. Ireland, Henry Willey, Mrs. T. Walshaw, Mrs. Marcus Jacob, Lawrence Mullin, Mrs. Jane Nixon.

Honoring Mrs. Pomroy.

The following letter has been received by Commander Whitney of Charles Ward Post, which will be read with interest:

Wakefield, Mass., Oct. 7, 1896.
To the Officers and Members of Charles Ward Post 62.

Dear comrades, Please accept the warm and grateful thanks of the Massachusetts Army Nurses, for your generous donation of twenty-five dollars for their fair.

It has made our hearts doubly glad to have it come from you as a memorial of our beloved sister nurse, our dear Mother Pomroy.

She nobly ministered to our martyred president, Abraham Lincoln and his family, as well as to his brave boys in blue who saved us a nation. She served all with a loyal Christian heart.

Thanking you again and hoping to see you as a Post on Nov. 2, (which is G. A. R. night) at our bazaar.

I am yours loyally in F. C. & L.

Harper's Weekly.

During November some interesting and characteristic features in the progress of the political campaign will be shown in pictures by T. de Thulstrup, who has made a special trip to the National Headquarters at Chicago in the interests of Harper's Weekly. Princeton's sesqui-centennial will be fully treated by the Weekly, in illustration and text, and Robert Reid's decorations for the Congressional Library will form the subject of an attractive paper.

REPUBLICAN CLUB.

MAYOR COBB, SENATOR SPRAGUE AND TO BE SENATOR HARWOOD THE SPEAKERS.

The Newton Republican Club held an enthusiastic meeting in City Hall, West Newton, last evening. The plans of the club for the last month of the campaign were laid before the meeting by President Robert H. Gardiner, and he urged the members to spare no exertion to secure a full registration. Reports were received from the various wards showing that large numbers of new names were being placed on the lists.

After the business meeting the president announced that three speakers, Hon. A. L. Harwood of Newton Centre, candidate for the senate from the 1st Middlesex district; Mayor Henry E. Cobb and Hon. Charles F. Sprague of Brookline, would address the meeting on the issues of the campaign. In conclusion he introduced Mr. Harwood, who said, in part:

"We are fortunate that in Newton we are working among business men. No class of men feels more deeply what the result of Republican defeat will be than the business men. They have never been so deeply and thoroughly stirred, or so deeply in earnest as today."

"The Republican party has proved itself capable of meeting any emergency. We are now at a crisis where we want to place the government in the hands of the party which has successfully met every emergency. It has been called upon to face, not into the hands of the party which has proved itself incompetent."

Mayor Henry E. Cobb said:

"I congratulate you that you have this year an issue that is not a mere question of party policy, but of high principle. No honest man can hesitate in this crisis."

Senator Charles F. Sprague, candidate for congress from the 11th district, said:

"It is no use for me to speak to such a company as this of sound currency or the protection of the tariff. You have already had them thoroughly explained to you and understand them all."

"There is an important feature of this state campaign which may be lost sight of in the consideration of national issues. I refer to the question of biennial elections. It means, if adopted this fall, that beginning in 1898 we will elect our state officers for two years."

"Frequent elections disturb business. In off years it is hard to get voters to attend the caucuses, and it is a well known fact that in presidential and congressional years better men are selected in the primaries. The elections cost the state each year \$200,000, and the practice in country districts of giving the representative in rotation to each town diminishes the influence of that representative in the legislature. With two sessions of the same legislature we would have fewer laws passed on the blue books. The sessions would also be shortened. The arguments against biennial elections will not hold water. They are a success. No state which has once tried the system has ever gone back."

Death of Miss Patience P. Ward.

At Palm beach, Florida, on Tuesday, Sept. 22, at the home of her adopted daughter, Mrs. Enoch Root, the soul of Miss Ward took its flight.

The death of this most estimable lady was not a surprise to her friends, as her strength of body and of mind have been failing rapidly for some months past. Four months ago she was prostrated by a stroke of paralysis. Her devoted children, Mr. and Mrs. Root, took her to the mountains of Tennessee in the hope that the change would be beneficial, but on the advice of physicians returned home last month.

Since their return she suffered another light stroke, but bore her sufferings as she has borne her many years of invalid life, without complaint and with a fortitude and sweet grace, that was the remark and admiration of all who had the pleasure of the dear old lady's acquaintance.

Her birthplace was Newton Centre, on Ward street, and she was a granddaughter of the John Ward who owned the "old Garrison House," which stood near where the Newton reservoir has been located.

At an early age she adopted two girls, only one of whom, Mrs. Root, is now alive. Her entire life was unselfishly devoted to her adopted daughters, and that devotion was in return shown her in her declining years by Mrs. Root.

Had she lived two months longer Miss Ward would have been 79 years of age. Conscious at times up to a few days ago, her last words were a tribute to the loving kindness of her son, Mr. Root.

The temporary interment was in the West Palm Beach cemetery, but later the body will be placed in Oakwood cemetery, at Chicago, the family burial place.

Biennial Elections.

There will be a public discussion of the above question, under the auspices of the Auburndale Village Improvement Society, at Auburn Hall, Auburndale, on Tuesday evening next at 7.30 p.m. It is announced that Col. E. H. Haskell, president of the Biennial Elections Association, will present the argument in favor of that system, and Mr. R. L. Bridgeman, the side of the annual elections. Admission free.

How It Happened.

"How did you?"—the visitor began, when the ossified man hastened to say:

"How did I get in this condition? Certainly. A young woman gave me the marble heart when I was a young man, and it spread."—Cincinnati Enquirer.

Citizens spoke of "taking the water" very much as we now speak of taking an omnibus or cab. The watermen's fares were regulated by the company's printed scale of charges, the Hall of the Watermen's company, where all their business was transacted, being then situated at Cold Harbor, near the Vintry. Some 40,000 watermen were upon the rolls of the company, those of the king's court and the nobility being, no doubt, included in this number, and the company was in a position to furnish the navy with as many as 20,000 men.—Chambers' Journal.

At one time, now a century or more ago, the Thames was recognized as the only great London thoroughfare. Its banks on either side were studded with the "stairs" of the nobility; its waters were covered with every kind of craft, from the gilded barge of royalty to the nuts-and-skiff or wherry. In those days the river was pure and undisturbed, and those who lived upon its banks never hesitated to bathe there in balmy weather. In those days there was no spot in London so picturesque as the Strand, with its broad gardens, its shady trees extending to the water's edge, where "the river glided at its own sweet will," and where the battled turrets of many a palace, such as the Savoy, towered artistically in the background. Flocks of swans sailed to and fro in spite of the traffic. They ventured unharmed even below the bridge, and the sight of them and their quaint "songs" must have been vastly agreeable to the Thames watermen and their fares. "Prig, did you come with oars or scullers?" was an everyday question.

Citizens spoke of "taking the water" very much as we now speak of taking an omnibus or cab. The watermen's fares were regulated by the company's printed scale of charges, the Hall of the Watermen's company, where all their business was transacted, being then situated at Cold Harbor, near the Vintry. Peremptory Sale

—OF—

Two Valuable House Lots

At WELLESLEY FARMS.

Will be sold at PUBLIC AUCTION, on

Saturday, October 17th, 1896,

At Three O'Clock in the Afternoon,

on the premises, two valuable building lots on the corner of Washington and Orchard streets, at Wellesley Farms, containing respectively 10,670 and 10,472 feet of land. The property is finely situated on high ground, within three minutes' walk of Newton Lower Falls Station and within six minutes of Wellesley Farms, with electric line passing on Washington street, giving the best of service to Boston, the Newtons, Wellesley and Natick. The rapid increase in value of real estate in this vicinity during the last two years is very marked, and the indications for the future of this section are most encouraging. These lots will be sold on easy terms and under moderate restrictions for the benefit of this and surrounding property.

Terms: Ten per cent. at sale. Further terms at sale. Free plan on application. For further particulars inquire of H. J. Jaquith, Esq., adjoining the property, or to HYDE'S REAL ESTATE AGENCY, 31 Milk Street, Boston.

—The Clifton Guards Veteran Association celebrated their 25th anniversary Saturday evening at the United States Hotel, Boston, 30 members being present. Mayor Cobb presided, and Charles A. Balch acted as secretary. The guests of the evening were Lieut. Springer and Inman and Mr. T. E. Stutson, all of whom made remarks. Mr. Stutson making a great hit with humorous stories. The officers elected are H. E. Rothfeld, pres.; F. P. Barnes, 1st an. J. C. Kennedy, 2d vice pres.; J. Albert Scott, sec'y, and W. E. Glover, treas.

—The annual meeting of the Y. M. C. A. Congress was held in the new association rooms in the Nonantum building, Tuesday evening. There was no discussion, and plans for re-organization were considered. Several amendments were adopted, and it was decided to hold the meetings each Tuesday evening. An election of officers took place and the ballot resulted as follows: C. H. Woodworth, speaker; J. L. Roll, vice speaker; A. W. Ball, clerk; T. W. Mephum, asst. clerk; P. H. Robinson, sergt. at arms; A. J. Ball, chaplain; G. D. Sanford, L. D. Bailey, S. P. Thrasher, executive committee.

—The Wards One and Seven McKinley-Hobart torchlight battalions assisted by the clubs from the other parts of Newton, will parade next Tuesday evening through this part of Newton. The local company was organized through the efforts of Mr. William E. Pike and Mr. John S. Coxeter, who are to be congratulated on its success. These gentlemen have given considerable time to the work of organizing and have been complimented for the success achieved. The officers of the local company are as follows: Edward Hollis, major; John S. Coxeter, capt. Co. A. William E. Pike, 1st lieut.; Carl Farquhar, 2d lieut.; Arthur Hollis, capt. Co. B; C. Benyon, 1st lieut.; C. Barrows, 2d lieut.; Geo. Sibley, capt. Co. C; H. Hackett, 1st lieut.; H. R. Cooley, 2d lieut. The route of the parade starting from corner of Elmwood and Centre streets, will be as follows: Centre street to Washington, to Waverley avenue, to Church, to Centre, to Franklin, to Park, to Sargent, to Centre, to Bellevue, to Church, to Washington, to Walnut park, to Waban park, to Hovey, to Washington, to the square, where the parade will be dismissed. The parade will be reviewed by Mayor Cobb as it passes his residence on Bellevue street. At the conclusion of the

procession a spread will probably be served.

—Mrs. R. A. Ballou and family formerly of Church street have taken the Stevenson house on Willard street, Hunnewell Hill.

—The engagement is announced of Miss Marguerite Crowell, daughter of H. S. Crowell, Hunnewell avenue, to Mr. H. W. Crowell, Jr.

—There will be an adjourned meeting of the parish corporation of Grace church at 5 p. m., Saturday, Oct. 17th, to fill a vacancy in the vestry.

—Work will be begun on the interior of the chapel of Grace church next week. The matter is in charge of Mr. D. McDonald, the glass stainer and house decorator.

—Miss Wilson will be at the Y. M. C. A. rooms, Tuesday, Saturday, and Wednesday afternoons, from 3 to 5 o'clock, to make appointments for measuring, and give any desired information, regarding gymnasium work for women and children.

—The Sunday school of Grace church had a social gathering in the parish house on Wednesday evening. The exercises included vocal and instrumental music and recitations. The persons taking part on the program were Mr. and Mrs. F. N. Robbins, Miss Butler and Miss Schim.

—It was a very happy occasion for all.

—The Helping Hand Chapter of Grace church have begun work for the coming season and have chosen the following officers: Miss Mabel Langford, president; Miss Belle Hampton, vice president; Miss Isabelle Jackson, secretary; Miss Minnie Ramsey, treasurer. The young ladies have decided to sew for the Newton Hospital.

—John Martin, a teamster employed by W. H. Mague, contractor of West Newton, was seriously injured Monday afternoon. While driving through the passageway at the side of the Lancaster block, his wagon struck the side of the building, and he was thrown out. Both wheels passed over his feet and crushed them. He was taken to his home.

—Music in Grace church Sunday night: Processional, "Jerusalem the golden." Le Jeune Magnificat. King Hall. Nodding. King. Anthem, "Praised be the Lord daily." Calkin. Anthem, "O how amiable are thy dwellings." West. Recessional, "Hark, hark my soul." Dykes. Seats free.

—At a faculty meeting at Amherst College, the Porter prize of \$50 for excellence in special entrance examinations was formally awarded to Edward C. Cobb, who prepared for college at the Newton high school. Of the total number of Barnes prize winners here registered to date, graduates of the Newton high school have won more than half.

—If the city would lay concrete sidewalks from Cole's block to the temporary railroad station on Washington street, it would be appreciated by all who take the trains. Walks ought certainly to be laid before cold weather, or it will be almost impossible to get along on that side of the street. It is going to be a tough winter for Newton patrons of the railroad, especially if they have only that toy shed to shelter them from the winter storms, while waiting for the train.

—A beautiful memorial window to the late George S. Harwood, who was one of the leading members of the Newton Baptist church, was dedicated, with appropriate ceremonies there Sunday afternoon. The services were simple, and consisted of singing of hymns by the choir, Rev. G. E. Merrill. The central design in the window is David playing on a harp. Underneath is the inscription, "And dwell in the house of the Lord forever." The coloring is particularly effective.

THE BANK LOT HEARING.

NEWTON CENTRE AND NEWTON HIGHLANDS OPPOSE THE SEIZURE—MEX MADE RICH BY THE BOULEVARD ALSO OPPOSE—THE ABUTTERS OBJECT TO DETRIMENTS—LAWYER TRAVIS DEMOLISHES LAWYER DICKINSON'S ARGUMENTS—LARGE CLAIMS FOR DAMAGES.

The hearing on the question of seizing the bank lot under the betterment act drew a crowd to City Hall, last Friday evening. It was a joint hearing before both branches, and Mayor Cobb presided.

Attorney Harry W. Mason appeared as before for the two banks, and announced that the case would be conducted for the banks by Martin F. Dickinson, the great railroad lawyer. Mr. S. L. Powers appeared for Henry F. Ross, and Mr. Geo. C. Travis came as a spectator, but was roused by Mr. Dickinson's remarks to make an earnest speech, in which the great railroad lawyer got a good deal of the worst of it.

Mr. Mason opened the case by explaining that the bank had a deed without any restrictions, to the property. He said that the bank had made every effort to find out the intentions of the city and had only gone ahead after finding out, as they thought, that the city did not intend to take action. The fact that they had secured a permit from the city to put up a building, showed that the city had abundant warning of their intention.

Mr. Mason then called on several prominent citizens of Newton Centre and Newton Highlands, to oppose the taking of the lot.

Mr. Wm. E. Webster of Beacon street, Newton Centre, thought the lot in front of the bank was plenty wide enough, and that the city could not afford such an expenditure. Boston, wealthy as it is, had decided it could not afford to widen Water street, a similar case to this, or Tremont street. The danger was, with all these expensive improvements, that Newton would become too expensive a city for any but millionaires to live in. Newton Centre people were dead set against this scheme, and he thought the bank building would be an ornament to the city.

Mr. Adams Claffin of Newton Centre, president of the Commonwealth avenue street railway, agreed with Mr. Webster, that the city could ill afford such an extravagance, and that the widening of the street was not a necessity.

Ex-Alderman Harbach of Newton Centre, who always appears to oppose any improvements, opposed this on the ground that the city could not afford to do it. Ex-Alderman Ward of Newton Centre, whose farm has been turned into high-priced building lots by the new boulevard, opposed the scheme as a trustee of the Newton Savings bank, and said if it was only paid for the land, it would be a worse robbery than Bryan's 16 to 1 scheme. (Applause and laughter.)

Mr. Seward W. Jones of Newton Highlands, protested against the taking of the lot, and said the city was in no position to incur such an expense. The bank lot ought to be left as it is.

THE ABUTTERS.

All the abutters but Mr. Taylor, who has changed that section from a nest of old rookeries, to a modern and prosperous looking business center, opposed the seizing of the lot. Mr. James W. French said he felt very strongly on the matter, the street was plenty wide enough for travel, and it would be a damage to his property, instead of a benefit, to have the bank removed. The bank added to the value of the adjacent property.

Mr. S. P. Whitman, owner of the stable opposite the bank grounds, said he would much rather have the bank there.

Mr. John S. Sumner sent a letter stating that the removal of the bank would be a great injury to his property and it would be robbery to assess betterments.

Mr. John C. Claffin said that while it would be a great benefit to the city to have the bank property seized and the street widened, he was opposed to taking the land under any other conditions than putting the cost in the general tax levy. As one of those interested in the Cole's block property, he would rather have the bank there.

Mr. J. Henry Bacon, as the proprietor of the large dry goods store in Bacon's block, favored having the bank there from a business point of view, as it made the place a business center and the stores would bring a larger rental on that account.

ATTORNEY M. F. DICKINSON.

of Boston, appeared for the two banks, and made a lengthy address. He said the banks had used all due care in trying to find out the intentions of the city, and read from the state constitution to show that they were entitled to reasonable compensation. It had been claimed that the city was restricted to the value of the lot alone, but this was wrong, as regard would be had to all damages, and the rights of property owners were fully protected by law, and a full and fair equivalent must be given.

Many things besides the mere money value had to be considered, and the bank would not be satisfied with merely \$5 or \$6 a foot, and you need not hug that delusion. He then quoted from a railroad decision in Illinois to prove this. The bank, he said, had stopped work when they found the city was going to take the land. The damages must be high and \$25,000 would not begin to cover it. He had looked up 35 cases similar in the state, but in none that he could find had the questions arising that must be decided in this, as a case exactly like this had not arisen. The city can take the land, but must give value for the same, which included removing the building, the architect's fees, and other things. The location was exceptionally well fitted for a bank, as it was surrounded by streets, so that it would be impossible to burglarize it, which in a place like Newton was of great importance. This statement caused great laughter, at which Mr. Dickinson seemed puzzled, but he soon caught on and explained that he meant, that policemen were not plenty, and people went to bed so early, that a free field was left for burglars.

He then went on to enlarge about the losses the contractor would sustain, if the contracts were broken, including the loss by reason of that famous derick, which caused more smiling, and by reason of the specially ordered stone and other materials, and said \$60,000 would not more than cover the total, and if you take it you will have to pay every dollar. He said there was nothing in favor of the scheme but a sentimental desire for a wide street, and quoted decisions of courts in New Hampshire, Oregon, Montana, Illinois, and even the U. S. Supreme court, to impress the city council.

ASSISTANT ATTORNEY GENERAL GEORGE C. TRAVIS.

of Newton was called on by Mayor Cobb. He said he had not expected to speak, as he was present merely as a private citizen, but he felt bound to say that he did not find anything in the arguments by his friend Dickinson that required an answer. It was amusing to listen to him, and one would suppose that this was an entirely new question, that had never been brought up before. He was surprised that a man who had been so long an attorney for the West End R. R. Co. and had appeared in hundreds of cases, should make such misstatements about questions of law to the board. It is not proper to say what I think of his statements, as my language might shock you. Why don't he quote from the decisions of the courts of Massachusetts instead of going way out to Oregon. It has been shown that public necessity and convenience demand the taking of

this land. We take the land only, and the market value of the land is the damage. Nothing is better settled than the fact that the city is not liable to the contractor, equity and justice may enter in to the case, but all you can do is to follow the law. If it was not so, no public improvement could ever be carried out, as there must be a limit to the liability. When I see two institutions depending on the public for their prosperity, come here with a lawyer to make such statements, which have no bearing on the case, and are only meant to intimidate you, it rouses me considerably. You have a city solicitor, a wise and safe lawyer, who can inform you of the law in this case. Over and over again it has been decided, our courts are bound by century old decisions, that we must follow our own law. Other states have different constitutions and different laws, but they have nothing to do with us, even the United States Supreme Court can't change the fact that our state is supreme in such cases. When I see such a plan attempted, I feel that two city institutions to prevent the city doing a simple act for justice it makes me indignant, (loud applause.) In this case public necessity and convenience demand the taking of the land, there is no sentiment about it, your duty is to make the street wide enough so public travel can get through. The question to-night is, is it wise to take this land under the betterment act, I have to say anything of my friends and neighbors who own property abutting on this square, but I can't help saying this, when I hear Mr. French and others making the statements they do, that the city can't afford it, and that the widening of the street is not a necessity, Human nature is a curious thing, especially when questions arise that touch a man's pocket book. Here is one man, the largest property owner in the part of the city, who has invested some \$200,000 there, Mr. Taylor, I should like to hear from him.

Mr. Taylor said his property would be benefited and he would pay any amount the city should assess upon him.

Mr. J. Edward Hills said he had presented the petition from some 70 prominent citizens stating that the widening was a public necessity, to provide for the growth of the city. Mr. Taylor was a good judge, and if he was willing to be assessed the smaller property owners ought to be. Mr. Dickinson states that the bank ordered the contractor to stop work, but they had not done so until notified to do so by the city, and in fact the work had only been stopped within the last week.

Mr. W. C. Bates said it was the duty of the city to seize the land. Three much travelled streets meet here, and are crowded in to a narrow place.

Mr. Dickinson said he was sorry he had said that. Mr. Travis up. (Laughter.) The courts of other states are available in interpreting our own law. This question is one that has never been settled in this state, as nothing like it has ever come up. You can not settle by paying a mere pittance for the land. Mr. Taylor can afford to pay betterments, as he probably thinks the offices in the bank building might take tenants from his own offices. He says he will pay, but he may talk differently when the time for payment comes.

Mr. Taylor here arose and gravely said that he had never refused to pay any betterments assessed upon him, and was perfectly willing to pay his full share for this great public improvement.

ATTORNEY S. L. POWERS.

appeared for Henry F. Ross, the contractor for the bank building, and said that to say that the city was not liable to the builder, opened the question whether the bank was liable. It is no fault of ours that the contract is broken, and the bank says it is no fault of theirs, and thus \$20,000 is taken right out of Mr. Ross's pocket. I believe this to be a great public improvement, I signed the petition for it, but I don't believe that any one should be robbed by the city. It has no moral right to take property without a fair and just compensation. I pay a tax which is heavy and burdensome to me, but I have never seen a tax that I would not rather have doubled than to have the city act unjustly in such a case. Mr. Ross wants only a fair and just compensation for the damages actually sustained, either from the bank or the city.

He don't want to make anything out of the city, but he don't want to lose the money he has actually expended.

Councilman Hutchinson asked if the city could take the land and make good any one's loss legally.

Mr. Powers was hardly prepared to decide that question.

Mr. Walter U. Lawson asked why could the bank not put the same building on some other lot?

Mr. Powers said Mr. Ross only had a contract to place it there, but the building would not fit any other lot.

Mr. Preston, the architect, said that it would hardly be possible to find another lot of the same shape, and it would not be adapted to any other lot. The stones were all cut to fit that lot, and the terra cotta was made for that lot.

Mr. E. J. H. Estabrook suggested that the building might be moved nearer to Hall street, and so widen Washington street, letting Hall street as it is at present.

Mr. Preston thought possibly this could be done.

Mr. Lawson said he had been in many cities and seen many bank buildings, but he must say this was the most inaccessible building he had ever seen. You can't get to it without crossing a street, no one ever passes along the walk in front of it, and for any kind of retail business the lot would be worth nothing, a man with a store in such a place could not make enough to pay his gas bill. The bank could get plenty of land more suitable and better adapted for business purposes, and instead of being worth \$25 a foot, as it is, it did not think it was worth \$2. It had an old stable directly opposite, and was not worth half the price of the land across Washington street.

Mr. Powers said that the city ought to see that Mr. Ross's loss was made good. In answer to Alderman Tolman, he said that the loss, provided the materials could be disposed of for some purpose, would be \$22,000, on a careful estimate. He had six different contracts to satisfy. He did not ask payment for the loss of the profit he might make on the building, but only for the actual loss he would be compelled to stand.

The hearing was then closed.

AFTER THE HEARING.

After the hearing the board re-assembled for the consideration of matters which included an order for the appointment of a committee to see what loss would be sustained by the contractor, and that the citizens of the wards interested would be willing to subscribe, if the bank land was taken.

Alderman Downs introduced the order as stated above, with the provision that the contractor be made of good family, and President Wing and two other councilmen. The order without discussion was adopted.

Alderman Tolman suggested that the appointments be made for other wards as they might be able to give a fairer consideration of the matter as they were not locally interested.

Alderman White hoped that the members of Wards One and Seven would be appointed, as they had done excellent service thus far and thoroughly understood the matter.

Mayor Cobb selected Aldermen Downs and Tolman.

VOTED DOWN IN THE COUNCIL.

The common council to a man voted against the passage of the order.

Councilman Hutchinson thought that such an act would be unbecoming city government members. It was not business. If the citizens asked the city fathers to "jockey" with residents of Wards One and Seven to see what money could be raised, they would not ask that the city solicitor be allowed to draw up any legal document to take the land, or that the city perform any other service for their benefit. He was certain that a legal quibble was likely to follow even if the

first steps, as the appointment of this committee, were taken.

Councilmen Ober, Sprague, and Parker spoke against the measure with the same arguments as the previous speaker. Their remarks were not so extended, but to the same point.

OTHER MATTERS.

The petition of Lewis E. Coffin and others for artificial stone sidewalks on Edin Centre street was referred to the highway committee.

A catch basin was requested on Highland street and referred to the highway committee.

Orders for sewers on Momford road and Beacon street were adopted.

Alderman Tolman introduced an order for the appropriation of \$300 to be added to the \$500 already appropriated for the removal of furniture from the high school. It was necessary, he said, because at the time the first appropriation was made it was understood that the furniture was to be removed. The expense was incurred because chairs had been purchased and placed in the new Pierce school instead of the old seats that the floor might not be marred. The work thus far had been very satisfactory.

Mayor Cobb said he had visited the school and was satisfied with the work. The order was passed.

The claim committee reported that John O'Neil and John A. Dillon for recovery of damages for injuries received, be granted leave to withdraw. On reconsideration of the claims committee S. M. French, who sued for damages for injury done his property, was referred to the highway committee.

Orders were passed assessing abutters for the construction of sidewalks on Edin boro and Clyde streets, and also authorizing the extension of Richardson street to Washington over the proposed bridge.

An order was passed recommending the laying out and construction of Border street, for a \$500 bond issue on the high school furniture removal expense. \$2000 was temporarily transferred from the city loans to miscellaneous expenses. The report of the highway committee recommending a crossing on Hammond street was accepted.

Mr. F. A. Hubbard's license was transferred from 42 to 42 1/2 Centre street. Mr. H. French's license was granted a license for a carriage.

At 10.30 the board adjourned.

Why Not Compromise?

To the Editor of the GRAPHIC:—It has been suggested that a compromise might be reached in regard to the bank lot. The banks of course do not want to make money out of the city, or wish anything else than to be treated fairly. The old bank lot, although a prominent location from being in the middle of the street, had its disadvantages, it was dirty and unsightly, and a building would be almost unobtainable if surrounded by a railroad track, as is proposed. No carriage could stop at the door, or anywhere in front of the bank premises, and every customer now has to cross the street to get to it, and run the risk of being run over by teams, electric cars and bicycles.

All the bank wants is a lot in some convenient and central place, and they would save a great deal of money in putting up their new building by having it in another location.

Why not compromise the matter, let the city buy another lot, there are many central ones in the market, and give it to the banks in exchange for the present lot, and settle the whole matter in that way to the satisfaction of every one? The bank would be even better off than they are now, as a regular shaped building could be put up for much less than the one they proposed, and the city and the banks could divide the payment of the actual loss to the contractor between them.

Now that the lot is vacant, and people have seen what a great improvement it would be to have it moved to the street where it belongs, no one will ever be satisfied to have it built upon, and the streets blocked up.

The banks are of course more or less dependent upon public patronage, and depend upon the public for their prosperity, just like other branches of business, and they do not wish to, and cannot afford to offend public sentiment, or put any needless obstacles in the way of this great public improvement.

A building on the bank grounds, jutting out into the streets on all sides, would be a public eyesore, no matter how beautiful the building was, and it would be a handsome thing for all parties to show an obliging spirit, and come to some reasonable compromise upon this matter. Things have gone so far, that neither the city government nor the bank people, nor the contractor can afford to have all this agitation come to nothing, and allow the lot to be built upon.

A Big Gin Fizz.

This is about a Tammany braye who, while at the Buffalo convention, visited Niagara Falls with a party of fellow delegates, says the New York Journal. He was very much impressed, but, unlike most other visitors, he for a long time kept his impressions to himself. While others used such commonplace adjectives as "Wonderful," "Grand," "Magnificent," "Sublime!" he just gazed silently.

Finally, when the boat was being tossed furiously below the falls, he said to one of the party sitting to the silent braye: "What do you think of it?"

"I'm thinking," was the reply, "that if Niagara was running Old Tom instead of water that would be a magnificent gin fizz!"

HONORED ALDERMAN NOYES.

THE CITY COUNCIL ADJOURNS OUT OF RESPECT TO HIS MEMORY.

A special meeting of both branches of the city council was held Monday evening. In the chambers were quite a number of prominent gentlemen from Wards One and Seven, who expected that the proposed taking of the bank lot would be again considered.

Promptly at 7.45 Mayor Cobb called the board to order, with Aldermen Downs, Green, Allen, White and Tolman present. The first business was the drawing of four jurors, which resulted as follows:

Henry A. Thomason, Beacon street; Elery B. Clark, Winchester street; Charles J. Buffum, Beacon street; Ralph M. Kurland, Parker street.

Mayor Cobb then read the following message:

To the city council:—Gentlemen—Again it becomes my painful duty to announce to you the death of a faithful and valued city official, Alderman Albert F. Noyes, who suddenly passed away this morning in the full vigor of an active manhood and the full tide of a great usefulness.

For 19 years he was employed in the engineer's department, 15 of them as city engineer, during which he was inaugurated and carried to completion the great systems of water and sewerage, which are monuments of his professional knowledge and skill.

As a member of the board of aldermen he had been diligent, conscientious, and efficient, giving to the departments under his supervision the results of his wide experience and excellent judgment.

The remembrance of his genial companionship, his chivalrous devotion to the right, and his untiring activities will long linger with us as a fragrant memory of a well rounded life. I recommend to you such action as you may deem appropriate.

HENRY C. COBB, Mayor.

Alderman Allen moved that a committee of five be appointed to draw up resolutions and make arrangements for the funeral. The mayor appointed Aldermen Allen and Green, after which the board adjourned out of respect to Alderman Noyes.

In the council, the mayor's message was read, and the following gentlemen were appointed as members of the committee: President Wing, Councilman Ober and Councilman Hutchinson. The council then adjourned.

THE BANK LOT HEARING.

The hearing on taking the bank lot under the betterment act was an interesting one, though most of the speakers wandered far from the subject in hand.

Mr. M. F. Dickinson, the famous West End lawyer, who appeared for the two banks, might be called the star of the evening, though like most of the outside lawyers who are hired to appear before our city council, he did not make a favorable impression upon the council, and his speech had very little to do with the special subject of the hearing. His quotations of railroad cases in other states were shown by Mr. Travis to have nothing to do with our state law, and no bearing on the case under consideration, and every one enjoyed the neat way in which Mr. Travis demolished the whole framework of his argument.

As Mr. Dickinson himself said, at the beginning, he knew very little of the case, and his speech made a bad impression. The Newton city council is composed of shrewd and intelligent men, capable of passing judgment on any case that comes before them, and it is always a mistake for a lawyer, no matter how famous he may be, to treat them as if they were the average jury, or to try to have them take mere assertion for fact. There has hardly been a case before the city council since the beginning of the city, when an outside lawyer did not injure rather than help any case in which he appeared. Whether it is because they are careless, and do not take pains to suit their arguments to their audience, or because the average jury lawyer is unfitted to appear before a legislative body, the fact remains that it is not good policy to go outside of our own city for legal assistance.

The address of Mr. Powers, for instance, was in strong contrast to that of Mr. Dickinson, and he not only avoided arousing any antagonisms but excited a good deal of sympathy for his client. He caused every one to feel that his case was presented very fairly and honestly, and that it was only just that Mr. Ross should be reimbursed for his actual losses. Mr. Dickinson could learn a profitable lesson from Mr. Powers, who has few equals as a speaker before legislative bodies.

Mr. Travis' reply to Mr. Dickinson was as perfect a sample of the good-natured way in which one lawyer can use up another, as one often hears, and there are probably few men who are better authorities on the laws of Massachusetts than he. The effect of that part of the hearing was to leave the case in worse condition for the banks than before it began, but the banks ought not to be held responsible for the unpleasant way in which their attorney put their case.

As for the other speakers, it was rather of a surprise when men were called to protest against widening the street, as that part of the case was closed at the former hearing, and it was still more surprising that citizens of Newton Centre and Newton Highlands should appear in remonstrance. One of them had his farm changed into high priced building lots by the laying out of the new boulevard, which was a speculative improvement and not a public necessity. After all his activity in favor of that improvement, he was hardly in a position to protest against any needed improvement elsewhere in the city.

Ex-Alderman Harbach's protest was expected, as he always objects to every improvement, and a hearing without his protest would hardly be considered legal.

Of the abutters on the square, Mr. Taylor was the only one who favored seizing the land under the betterment act, and he paid a large price for his land, and will have nearly as much property as all the rest combined, when his new buildings are completed. As for the statements made by the others, that they would be damaged instead of benefited by the removal of the bank, that, as Mr. Travis said, is susceptible of proof, and if they are not benefited they will not have to pay an assessment.

No action was taken on the matter, Monday evening, and as far as the hearing is concerned, the matter seems to be left in about the same condition it was before, although the common council put itself on record as opposed to the payment of damages, above the price of the land.

ALBERT F. NOYES.

The sudden death of Alderman Albert F. Noyes was a great shock to his friends in Newton, coming as it did without the slightest warning. Having been so long connected with the city, Mr. Noyes had friends in all parts of Newton, and the sorrow for his untimely death has been deep and sincere.

The loss to the city is a very great one, as in his service as alderman Mr. Noyes has been a valuable official, his intimate knowledge of all parts of Newton making him an authority on most matters that came up for legislation, and he has saved

the city many thousands of dollars by such knowledge, the most well-known instance being in regard to the widening of Boylston street, which was defeated some time ago. The owners of property there had offered the city the land if they would widen the street, and as this seemed very generous it was about to accept, when Mr. Noyes informed the board that the land to be given consisted for a long distance of a high ledge of rocks, to excavate which to the street grade would cost a large fortune. Many other instances could be cited of where his knowledge of the topography of the city was of great value.

During his 17 years of service in the city engineer's office, Mr. Noyes designed many important works, and was a very hard-worked official, as he had charge of the plans for the sewer system, the surface drainage, the new filter basin and covered reservoir, and other improvements of great importance to the city. His work was always carefully done, and he was one of the most valuable officials the city has ever had.

The estimation in which he was held by the outside public was shown by his being elected a member of the Metropolitan Sewer Commission, and by the fact that he was elected to the highest office in the New England society of civil engineers.

Personally Mr. Noyes was of such a character as to make warm friends, and his genial disposition always made it a pleasure to meet him. He possessed the respect of all who knew him, and the warm friendship of those who knew him intimately. He leaves a record that may well be a source of pride to his family, who have been cast into such deep sorrow by the sudden loss of a loving husband and father. They will have the sympathy of the entire city in their terrible affliction.

NEXT Monday evening, the fate of the bank lot will be decided. From present indications it promises to be a case of great cry and little wool. It will certainly cost more than \$25,000, and there are votes enough from the south side of the city to defeat it unless some guarantee is given by men of Wards One and Seven that they will be responsible for all in excess of that sum. Such men have not yet appeared, and there is not much likelihood of their doing so. The great trouble is that no definite sum can be named as the cost of the great and much-needed improvement. Mr. Ross claims at least \$22,000, and both the banks will want about \$25,000, but if there is to be any chance for the plan to go through, the committee appointed should be prepared to give the exact figures necessary. The city does not want to run the risk of a suit, as the experience of the laying out of the Jamaica Plain boulevard is recalled by many. In one case there, not to mention others, a man was awarded \$17,000, and the jury gave him \$95,000, and Newton does not want any such experience as that. The bank lot now is right in the middle of the street and a building there, no matter how handsome it might be, would be a continual eyesore. Besides, with a railway track around it, and all the noise therefrom, it would not be a very desirable place for business, even if the building did block the street, so that no one could fail to see it. It is much to be hoped that the lot will be taken, but unless something practical is done before Monday night, there is very little prospect of it.

Death of Albert F. Noyes.

The startling news came to the city, Monday morning, that Alderman Albert F. Noyes had dropped dead in the Park Square Railroad station in Boston. He had just entered the station to take a train for Dedham, that was to leave about 8:30. Medical Examiner Draper, who was sent for, pronounced it a case of heart disease.

As soon as notice was received at City Hall, the flags on public buildings throughout the city were raised at half staff, and the bells on the fire department houses were tolled. A special meeting of both branches of the city council was called for Monday evening by Mayor Henry E. Cobb and appropriate action was taken.

As city engineer of Newton, Mr. Noyes was the designer of many important public works, including the covered high service reservoir and the filter gallery plant at Newton Upper Falls. He was also in charge of the construction of the city's sewer system, and was widely known as the originator of a plan for utilizing natural water courses for surface drainage in connection with a general boulevard system. This plan has been put in practical operation in Newton in the case of the Cheese-cake brook and Laundry brook boulevards.

Mr. Noyes was elected to the board of aldermen in 1885, and had been one of the most valuable members of that body.

He was born in Boston in 1850, but at an early age moved with his parents to Melrose.

He was educated in the public schools of Melrose and at the Lawrence Scientific school in Cambridge.

In 1867 he became attached to the city engineer's office in Newton, and two years later he became the city engineer.

He remained in that position for 17 years and was held in very high esteem by the city authorities. In 1885 he was appointed assistant chief engineer of the state board of health, and in 1888, he was appointed a member of the Metropolitan Sewer Commission, to succeed Harvey N. Collison.

He investigated the scheme for the proposed Metropolitan water supply, and helped make the plans for the Metropolitan water supply and drainage.

He has been president of the New England society of civil engineers, and also president of the New England water works association. He was a man of the strictest integrity, popular with his associates, and a man whose judgment was highly regarded.

In 1892 he was appointed as a member of the first commission to consider the subject of the separation of grade crossings in the city of Newton, the other members of the commission being Chas. A. Allen and Geo. S. Rice of Newton.

His home was in Auburndale, and he leaves a widow, one son and three daughters, one of the latter being a student at Vassar.

Comer's Commercial School.

Founded in 1849, this school has continued on in its growth and popularity, until it has reached an era in its existence where it can claim to be one of the oldest, and one of the most successful schools of its kind in America. Business and Book-keeping, shorthand and typewriting, are the principle features in the instruction given, and these can be had in class, or individual instruction, experienced teachers giving attention thereto. Whatever is done at this school is thorough, practical and reliable. Comer's is located at 690 Washington street, Boston.

STURCK DOWN.

IN ATTEMPTING TO CROSS THE TRACKS TO THE NEWTON STATION N. P. DAVIS OF BOSTON WAS KILLED BY AN EXPRESS.

Another name was added last evening to the already long list of those who have met death on the tracks of the Boston & Albany in Newton, since the work of separating grades was begun.

The victim is supposed to be M. Davis of the Davis refrigerator company of 41 Beverly street, Boston, whose home is in Somerville.

His body, with the head missing, was found lying beside the outward bound track shortly before six o'clock by C. Josephson, a car repairer from Allston. Baggage-master Davilian Donald with several others removed the body to the baggage room. They discovered the head a short distance away. The body was badly crushed and it seemed that every bone and a package were found on the tracks undoubtedly instantaneous.

The central police station was notified and Medical Examiner Mead summoned. He examined the remains and turned them over to Undertaker John Flood.

On the body was found a bank book showing that Mr. Davis had that day made a deposit of over \$100, about \$9 in money, several papers and a ticket from Newton to Wellesley dated July 1887. The names on the book served to identify the remains.

It is supposed that Mr. Davis attempted to walk around the fence which separates the east and westbound tracks, in order to take a train for Boston from the southern platform. No other theory can account for his presence west of the station at the time. The train which struck him approached from behind, and he was hidden from the engineer's sight by a curve in the tracks until the train was upon him.

He was struck by the Framingham train, which leaves Boston, express for Wellesley Hills, at 5:25 p. m. The train passed through Newton at 5:40 last night. The first knowledge the trainmen had of the accident was when the unfortunate man's umbrella and a package were found on the pilot of the engine at South Framingham.

This morning, the victim of last night's sad accident was fully identified as Nathaniel P. Davis, 7 Myrtle street, Boston. He was engaged in the refrigerator business, as was first supposed. He leaves a widow and two sons in Barre, Vt., and another son who is a house surgeon in the Lynn Hospital. The latter arrived in Newton this morning to take charge of the remains.

The special train with the Fitchburg R. R. popular Hoosac Tunnel excursion of October 17th, leaves the Union Station, Boston, at 8:15 a. m. Rate only \$2.00.

—The Fellow Craft degree was worked on five candidates at the regular communication of Dalhousie Lodge, Wednesday evening. Right Worshipful District Deputy Grand Master Frank K. Porter and suite were present, making their annual visitation. A collation was served and a social hour enjoyed at the close of the business meeting.

—Whist furnished the entertainment at the first in the series of Saturday night entertainments for members at the Newton clubhouse, Saturday evening. Fifteen tables were arranged in the assembly hall, and play continued from 8 to 10. Late refreshments were served in the main dining room. The prizes, many valuable pieces of silver, were won as follows: Kingsbury and Lunt, first; Chase and Terrell, second; Shattuck and Chapman, third; Leland and Mendall, fourth.

—The Christian Endeavor societies of this village held a union meeting at the Universalist church on Sunday evening last, under the special charge of the Methodist society. The meeting was presided over by Mr. W. P. Rich, president of the society, and was addressed by Rev. Luther Freeman of Newton Centre, general secretary of the New England district of the Epworth League. Following the address a half hour was spent in devotional services, in which many participated.

—Last Saturday evening the Newton club opened their winter season by a gentleman's night with the president, Mr. Samuel L. Powers, as host. On Wednesday the ladies' whist party took place in the ladies' parlors. Preparations are active to make the coming art exhibition to open Dec. 9, with a large reception—one of exceptional merit and interest. Mr. Henry E. Cobb, Mr. Wm. M. Bullivant, Mr. Louis K. Harlow are the exhibition committee. This will be their third annual exhibition and will close Dec. 17.

—The women of club members' families enjoyed the hospitality of the Newton club Wednesday evening. It was the first of the fortnightly "ladies' nights." Nearly 200 of the society set of the Newtons were present. Progressive whist was played at 40 tables in the large assembly hall. At 10 the company adjourned to the main cafe, where refreshments were served. The prizes, valuable pieces of cut glass, were awarded as follows: Mrs. E. S. Merchant, first; Mrs. L. K. Harlow, second; Miss Cobb, third; Mrs. C. B. Somers, fourth; Mrs. W. F. Kimball, fifth; Mrs. E. N. L. Davis, sixth; Mrs. Chas. Stuart, seventh; Mrs. S. W. Manning, eighth.

—Edward Sands received a pleasant reminder of the esteem in which he is held by the employees of the Adams express company Saturday evening. At his pleasant home on Walnut street, was invaded by more than 60 express agents and officials from all parts of the state. When Mr. Sands had recovered from his surprise, W. A. Hartwell, in behalf of the employees in the New England division, presented him a handsome couch and reclining chair and \$75 in gold, at the same time wishing him every success in his new business relation. Mr. Sands responded briefly, thanking those present for their gift, and expressing his regret at leaving the company. C. S. Spencer, manager of the company, F. F. Hawson, assistant superintendent, H. B. Chesley, division superintendent of the Boston & Albany railroad, A. J. Lowe, of Ashland and Robbins G. Woodman of Newtonville also made brief remarks, expressing their regret at Mr. Sands' retirement, and congratulating him on his promotion. Later the affair took the form of a reception, and refreshments were served. Mr. Sands has been route agent of the Adams express company for a long time, and is popular among the employees of the corporation. He resigned his position Oct.

1 to become New England agent of the Plant railroad system.

—Mr. L. L. Hamilton of Clyde street is away for a few weeks.

—Mr. and Mrs. Sydney Hobson will reside in Boston during the winter.

—Mr. William F. Dearborn, formerly of Lowell street, has moved to Newton.

—Mr. Albert E. Nickerson has leased one of the Schofield houses on Washington terrace.

—Mr. J. Wesley Kimball of Washington park will reside in Boston during the winter season.

—Mr. Charles Beals has purchased the residence on Lowell street owned by Mr. William F. Dearborn.

—Mr. Montgomery and family of Medford will occupy the Teele house, corner of Walnut and Lowell streets.

—Mr. M. W. French and family have returned from East Jaffrey, N. H., to their winter home on Newtonville avenue.

—About \$100 more are needed to make the illuminated clock a surety. Will not Newtonville people make this a success?

—Mrs. Fred S. Johnson, who has passed the summer at Hough's Neck, will reside during the winter on Waltham street, Boston.

—The "Fadette" orchestra of which Miss May Casey is the violinist, furnished the music at the World's Food fair last week.

—Miss Goodale and niece, Miss Corrae, of Highland avenue have returned from North Woodstock, N. H., where they passed several weeks.

—Saturday, Oct. 17, you can buy chickens for 15 cents a pound and fowls for 14 cents a pound, 15 pounds of sweet potatoes for 25 cents, at Newton Public Cash Market, 413 Centre street, Newton.

—The Newtonville Bryan-Sewall-Williams club will hold a rally at City Hall Oct. 21, with Hon. George Fred Williams and William H. Baker, candidate for congress from the 11th district, as speakers.

—Mrs. Nellie Haskell of Lowell street fell in a fit on Austin street yesterday afternoon and was badly hurt by falling on the ground. Officer Soule summoned the patrol wagon and she was taken to the hospital.

—The second in the course of demonstration lectures in cooking will be given in the Universalist church parlors next Tuesday evening at 7.45 o'clock. The subject will be "Made-over dishes and the chafing dish."

—The firm of Johnson & Keyes, Auburndale expressmen, reported that police headquarters that in passing through Newtonville Saturday evening several packages, valued at \$35, were stolen from one of their wagons.

—Gamaliel Barnard, a stone mason, living at 7 Foster street, Boston, and employed by Stewart & Sons of the new High school building, Monday, was struck on the head by a heavy piece of iron falling from a derrick. He was taken to the Newton hospital, where his condition is regarded as serious.

—Mr. Charles F. Avery of Crafts street reported to the police of division 2 Monday morning that a number of articles of clothing were stolen from his yard Saturday night. Clothesline thieves have been active in Newtonville of late, but in every instance the clothes have been thrown away after being stolen.

—Miss Catherine A. Glynn, formerly a teacher in the Williams school, Auburndale, and now teacher in Milwaukee, Wis., is the authoress of a new book just issued from the press of E. A. Weeks & Co., Chicago, the title of which is "The Girl from Oshkosh." Miss Glynn has a large number of friends in Newton who will be pleased to hear of her success as an authoress.

—The Newtonville Woman's Guild held its opening reception and house-warming at its new club room, Denison Hall, Tuesday afternoon. Mrs. Hill and Mrs. Carter received the guests and the social committee Miss M. C. Worcester, chairwoman, served the refreshments. The literary meeting of the Guild will be held Tuesday, Oct. 20, at 3 p. m. Subject, "Historical Papers by Members."

—The 40th semi-annual meeting of the Suffolk West conference of Congregational churches was held in the Central church, Wednesday afternoon and evening. The topic of the afternoon was "Two Factors in the Religious Culture of Children." Addresses were made as follows: "The Public School Teacher," Granville B. Putnam, West Newton; "The Sunday School Teacher," Amos Andrews, Waltham; "The Preacher," Rev. E. M. Noyes, Newton Centre; "The Home," Rev. S. L. Dike, Auburndale. A general discussion followed. At the evening session the general topic was "Wants." The sub-topics were as follows: "More First-Class Young Men to Enter Our Ministry," "Power in the Church," "The Christian's Duty," "A Spiritual Dynamic," Rev. William H. Davis.

WEST NEWTON.

—Miller pianos, Farley, Newton.

—Miss Works was in town for a few days this week.

—Mr. Henry Parker is building a house on Fuller terrace.

—Mr. J. L. Gallagher is occupying his new house on Clark street.

—Somers the tailor, 149 A Tremont St., Boston, makes a specialty of fine woolsens at moderate prices. 51 tf

—Mr. Chandler Seaver and family have removed to Hyannis, where he has established himself in business.

—The local branch of the American Legion of Honor received a visit from District Deputy Childs of Natick, Tuesday evening.

—Mr. Hussey of Webster street has leased the Cate house, corner of Highland and Hunter streets, has had it removed to the Phillips house on Shaw street.

—Saturday, Oct. 17, you can buy chickens for 15 cents a pound and fowls for 14 cents a pound, 15 pounds of sweet potatoes for 25 cents, at Newton Public Cash Market, 413 Centre street.

—At the fortnightly meeting of the Woman's Suffrage Association in Boston, on Tuesday, Mrs. Livermore, who presided, paid a high tribute to the late Mrs. Abby Davis and Mrs. W. B. Claflin.

—The annual reception of the West Newton Woman's Educational Club, will be held Thursday afternoon from 3 to 5 at the home of the President, Mrs. E. N. L. Walton on Chestnut street. This society always has a large waiting list, and it is unusually large this year.

—The work of widening Cheesecake brook through the Davis estate on Watertown street is now completed, and makes a very pretty effect. The removal of the hedge takes away another landmark, but makes the street more cheerful, and improves the front of the property.

—It has been suggested, and the suggestion meets with the approval of most Ward Three residents, that there be no attempt to fill the vacancy on the school board caused by the death of Mrs. Davis. It is now very near the end of the year, no important business is to come up, and the contest that has been started has reached such a stage that the only way to preserve harmony among the residents of the ward would be to defer action. A city election is to be held in a little over a month, and the matter can then be settled. It would be a mark of wisdom on the part of the school board

to postpone action, as in this way all friction would be avoided.

—Mr. George F. Works and family are expected home next week.

—Mr. and Mrs. Charles Stacy are enjoying a short stay at Methuen.

—Mr. Stephen Keegan is seriously ill at his home on Watertown street.

—Mr. E. B. Drew and family expect to leave for China, Thursday, Nov. 5.

—Mr. George B. Cook has leased one of the new houses on Robin Hill road.

—The pastor's reception will be held in the Unitarian church parlors this evening.

—Tennyson Lodge, No. 119 will hold a "Hurdy Gurdy" at Odd Fellow's hall, Tuesday evening.

—The Newton Veteran Firemen's Association held its regular monthly meeting, Wednesday evening.

—The N. Y. P. S. C. E. will hold a social Tuesday evening in the Congregational church parlors.

—Mr. J. E. Trowbridge and family have returned from Downer Landing, where they spent the summer.

—Mr. James Bailey and family of Warren avenue have moved into their new home on Webster street.

—Mrs. W. H. Daniels of Watertown street has returned from Princeton, where she passed several weeks.

—Mr. George Stacy, engineer of Chemicals, is passing his vacation with friends in New York and Philadelphia.

—The Allen School Dancing class will be opened Oct. 30, under Prof. G. Percival Chick. See adv. for particulars.

—Mrs. W. A. Clark of Eddy street is entertaining Mrs. Mortimer Kingman and Mrs. Charles Collins of Brockton.

—Crescent Commandry, U. O. G. C., held their regular meeting, Thursday evening. Three applications were presented.

—The Women's Guild connected with the Congregational Society will hold their regular meeting Wednesday afternoon, in the church parlors.

—Three applications were read at the meeting of Boynton Lodge, U. O. L. O. E., Tuesday afternoon. A light collation was served at the close of the business meeting.

—The regular meeting of the Newton Ladies Home Circle will be held Wednesday afternoon. A full attendance is desired as the committees for the coming year will be chosen.

—Mrs. Richard Anders and Mrs. John T. Prince, are the two candidates for the school board, to fill the vacancy caused by the death of Mrs. Davis. Petitions have been started by the friends of each.

—The first regular meeting of the Educational Club will be held in the Unitarian church parlors, Friday afternoon, Nov. 6. Memorial services will be held in memory of the two prominent members who died during the past summer, followed by a report by Mrs. Walton of the convention of the Federation of Women's Clubs, at Louisville, Ky., last May.

—Mr. A. L. Barbour, who is secretary of the Mass. Mutual Insurance Union, and president of the Columbian Co-operative bank of Cambridge, and secretary of insurance and bank officers and directors with their ladies to Pittsfield and return, on Tuesday and Wednesday of this week, notwithstanding the inclement weather they had a fine time. Wednesday morning, the clouds breaking away for a while, they took a ride on Tally Ho to Lenox and Stockbridge bowl, returning at noon just in time to avoid the afternoon shower.

—John Elliot Lodge, A. O. U. W., gave a turkey supper and entertainment in Knights of Honor hall, Wednesday evening. The supper, in charge of the wives of members, was served from 5.30 to 7.30. A pleasing entertainment was presented, including songs by Mrs. Beardsley and Miss Allen; readings by Miss Angelina Bruce; piano solos by Miss May Fogwell and Mr. George Gammon and banjo solo by Mr. F. Liddell. Dancing was enjoyed at the close of the musical program until a late hour. About 30 were present, including guests from the surrounding villages. Many thanks are due Mr. W. W. Bruce, who had charge of the entertainment program.

AUBURNDALE.

—Ivers & Pond pianos, Farley, Newton.

—Try Thorne's Little Liver Pills.

—Mr. W. K. Corey will soon occupy his new house on Commonwealth avenue.

—Mr. Albert H. Hunt of Woodbine street is confined to his home by an attack of typhoid fever.

—Somers, the tailor, 149 A Tremont street, Boston, makes a specialty of fine woolsens at moderate prices. 51 tf

—The Auburndale Review Club will meet Tuesday evening, Oct. 20, at the residence of Mrs. Herriek, Fern street.

—Millinery. Miss Cookson, a first class milliner, will call on the ladies of Newton and vicinity and remodel old hats, or take orders for new ones. See references. Address box 97, Auburndale.

—Last Sunday evening a pleasing Sunday school concert was given in the chapel of the Congregational church. An interesting address by Rev. F. E. Peloubet and a number of literary and musical selections were enjoyed by those present.

—The debate on the proposed Biennial Election to the town council in which was to have taken place at Auburn Hall, Tuesday evening, was postponed to next Tuesday on account of the storm of that evening.

—Residents are warned to look out for three young men, who have been traveling about the town the past week, selling peaches from a wagon. The young men have displayed a tendency to take whatever they could lay their hands on, in a number of instances, and citizens would do well to refuse them permission to enter their yards, as it has been no fault on the part of the young men that articles of value have not been taken.

—Rev. Crosby H. Wheeler, a well-known missionary worker, died at the Auburndale missionary home on Hancock street Sunday after a long illness. He was about 65 years old and was prominent among the Congregational ministers of the state. He was nearly a quarter of a century engaged in mission work in Turkey, and was latterly president of Harpoon College, Harpoon, where he made his home many years. After the outbreak of the Armenian troubles he was obliged to leave the field after months of privation and anxiety. The troubles of the last few months of his stay in Turkey proved too much for his shattered health, and he has been seriously ill since his arrival

in this country. He leaves a daughter, who is still engaged in work among the Armenians.

—The Misses Crane of Rowe street are spending several weeks with friends in New York.

—Mr. E. L. Pickard of Woodland road is out of town on a business trip to the Province.

—During the funeral of the late Alderman Albert F. Noyes, yesterday afternoon, all the stores in the village were closed.

—G. B. Griffin and wife of Vistar avenue have closed their house and are spending two weeks with friends in Dorchester.

—Sister Mary De Pazzia of Hoboken, N. J., has been visiting her sister, Mrs. Mary Lyons, of Pine street, the past week.

—Last evening the first social for the winter was given in the chapel of the Congregational church. In spite of the stormy weather the attendance was good.

—Contractor R. W. Dennison has nearly completed the swimming tanks, tennis grounds and other improvements being made on the estate of C. W. Hubbard at Riverside.

—Mr. W. F. Edmonds of Grove street, who has been making a special study of electric wiring, etc., wishes to call attention to his adv. on page 5, and solicits the patronage of any resident who desires the services of an electrician who thoroughly understands his business.

—Mr. E. Marden of the Woodland Park Hotel has secured a number of new art treasures in painting, which he has added to his already fine collection in the hotel gallery. All interested in oil and water color paintings would do well to inspect this collection. See adv. on this page.

—Mrs. S. H. Cochran and daughters, Miss Mary and Miss Anna Grace, of Charles street, Riverside, formerly of Everett, left Tuesday evening for Peru, Ill., where they are to visit Mrs. Cochran's sister, Mrs. J. P. Tilden, that place. They will visit other various places in the West, returning home in the early spring.

—The funeral services of the late Dr. Wheeler, who died here Sunday morning, took place Wednesday afternoon from the Congregational church. Rev. Dr. Barton, a secretary of the American Board, delivered the funeral address. The prayer was delivered by Dr. Judson Smith, another member of the board, and after a short and simple service the remains were removed to the Newton Cemetery for interment. There was a larger number of Armenians present, besides other friends and acquaintances of the deceased.

DO YOU WANT THE BEST?

Do you want it as cheap as possible? Do you want to know where you can be accommodated? Come in and see us. Ask for a Cook Book. Send for one. Get one some way. Free. It tells you how to cook everything, and more information besides. It's better than a cooking school, and cheaper. It tells you all about the best Baking Powder in the world, and why Cleveland's is the best. Read it carefully. Now I will tell you the price. For just one week (to introduce it in every family) the manufacturers authorize me to sell 500 pounds for 40c per lb. Buy it now. It's less than a Boston Baking Powder for 20c. 2 and wish you would take it away. I want you to have the best of everything, and you shall. The best Butter, Cheese, Potatoes, Lard, Flour and Eggs. I have made arrangements with another breed—'Old Bugs.' I guess they are called—who now lay me plenty of choice fresh eggs every day. No more trouble with eggs.

Did You Ever

Try Electric Bitters as a remedy for your
troubles? If not, get a bottle now and get
relief. This medicine has been found to be
peculiarly adapted to relieve and cure of all
Female Complaints, exerting a wonderful
direct influence in giving strength and tone
to the organs. If you have Loss of Appete-
tite, Indigestion, Headaches, Fainting
Spells, or are Nervous, Sleepless, Ex-
citable, Melancholy or troubled with
Dizzy Spells, Electric Bitters is the
medicine you need. Health and Strength
are guaranteed by use. Fifty cents and

NONANTUM.

—Mr. Senior and family will remove
soon to Philadelphia.
—Mrs. Brown of St. Johns, N. B., has
been visiting Mrs. Stuart of California
street.
—Ventilators are being placed this week
in the old Adams school building on
Watertown street.
—Somers the tailor, 149 A Tremont St.,
Boston, makes a specialty of fine wooleens
at moderate prices.
—The drug store in Farrell's block has
been leased by Forknall's agency to Gene-
ssee Laerich for a term of years.
—The meeting at the Beulah Baptist
Mission next Sunday will be addressed by
Mr. D. J. Adkinson of Everett.
—At a meeting of St. Elmo lodge, Sons
of Temperance, last Friday evening, Miss
Alice Oliver and Miss Ida Johnson were
admitted as members.
—Mr. Abraham Tumin, a former resi-
dent of this place, has returned, and taken
a position as manager for Berkman's cloth-
ing store in Murphy's block on Water-
town street.
—Through Forknall's real estate agency,
the blacksmith shop on Pearl street, formerly
occupied by John Gilligan, has been
leased to Daniel Sullivan for many years an
employee of T. Stuart & Sons.
—The number of lodgers booked this
week at Station 2 has averaged 12 a day.
It is said there are few "holoers" among
the number and that most of them are will-
ing to work for their breakfast.
—The free evening school in the Jackson
building opened with the largest attend-
ance for several years, Tuesday evening.
There was a large list of applicants from
the different Newtons and so were ad-
mitted.
—Work was begun this week placing in
position the new telephone poles on Water-
town street, and removing the old ones.
The electric light, telephone, and street
railway companies to use the same poles,
and by this plan the number
will be reduced from 132 to 74.
—The force of the recent storm was but
little felt in this district. The electric
light service was little crippled, and but
few lights were reported as not burning.
Sunday evening several lanterns of the
Chapel street sewer were extinguished and

some broken. The fine orchards suffered
the most as the fruit was blown off by the
wind and considerably spoiled.

—An alarm from box 24 of the Water-
town system about 10 o'clock Sunday
morning, brought the fire department of
that place to Benis for the first time for
over five years. While Joseph Delaney
was passing the house of Mrs. H. G.
Fanchon of Pleasant street, he noticed
smoke issuing through a window in the
second story and hastened to notify the in-
mates. It was found that the bed in an
unoccupied room was on fire and the blaze
had caught the woodwork in the room.
An alarm was sounded and the department
arrived and extinguished the flames. The
loss is said to amount to \$75. The origin
of the fire is a mystery and it is thought
by some that it was set. The Benis mills
who own the property offer a reward of
\$100 to ascertain the cause. The old mill
boarding house that was built on this site
was burned down about twenty years ago,
and caught in a similar manner.

A Newtonian in London.

The following letter to friends in this
city gives an interesting sketch of an
American's experiences in London:

London, Sept. 20, '96.
Sunday morning.—I have had a walk be-
fore breakfast. Upon London, "roaring"
London on week days, rests a Sabbath
calm. It reminds one of Wordsworth's
lines:

God! God! the very houses seem asleep,
And all that mighty heart is still!

Wordsworth wrote of the city as seen
early morning from Westminster Bridge.
The London of today, taken as a whole,
differs not from that description, but the
section will be different. In the White-
chapel district, where "Jack the Ripper"
defied the London police, and in "Seven
Dials," but I do not choose to go and
being satisfied with what I am told of
noise and danger there.

I shall go to St. George's church, "es-
tablished," Canon Boyd Carpenter's. His
grave is in the church. If Dr. Park-
er (Congregationalist) were in town, I
would go to his "Temple," and hear the
man whose sermons are sometimes used by
others without acknowledgment.

Let me attend service at St.
George's, and I rejoice in having gone
there. Dr. Carpenter is eloquent. His
thought is fresh, and his speech a fitting
vehicle for it, copious, simple, clear. His
voice is sweet, and his manner distin-
guished. His scholarship leads him to the use
of pure English. He uses no notes, but talks,
with animation, straight to his hearers.
Text and sermon are dealt in your
heart by faith. I should not do Dr. Car-
penter injustice, if I should try to give you
even an abstract of the discourse.

The singing was exquisite. The Doctor
is himself a clever man, a whole, did not
show up so well as in last Wednesday's
game. The greatest weakness was again
at the end positions. The ends didn't seem
to have the least idea as to how to dispose
of the ball after they had run down on
the ball. Either they interfered
with the catching of a punt by a back on
the opposite side, or else they were dodged
by him after he had caught the ball. At
suddenly the only play for the ends
were Moulton's breaking up the inter-
ference and tackling Taylor for a loss and fall-
ing on the ball when Draper fumbled one
of Brown's punts. All four ends were
easily forced out, so that they were respon-
sible for many of the gains which appeared
to be made through the tackles.

The tackles, in spite of the fact that
Newton's ends were a whole lot better than
Harvard's, did fairly well. Mills was the best
without any question, making a star tack-
le which prevented Draper from making what
seemed a sure touchdown. Of the guards
and tackles, played his old steady game,
with his eyes always on the ball; Jaffray,
as usual, played high and was a mark.

Behind the line the first set of backs,
Beale, Wrightington, Cozzens and Brown,
played better than their successors.
Dibbler, Sullivan, Warren and Cabot.
When Beale passed the ball, though it was
pretty slow in coming, it generally came to
the right place, where Cabot was waiting.
There was no assurance that it was com-
ing at all. Even when it did come it was
generally on some erratic toss which usually
resulted in a fumble, or in the downing
of one of our own players.

Wrightington was the surest ground-
gainer of the six rushers, Cozzens and
Warren ranking next. Cabot, though ap-
parently slower in punting than Brown,
was less often blocked. Their punts were
about equally fair, but Cabot had the wind
with him where Brown had to kick against
it.

The toss gave Newton the advantage of a
good breeze, and Harvard the ball. After
Newton had twice carried the ball the re-
quired five yards within four downs, Draper
was forced to kick. His high punt fell
into Wrightington's hands. But after two
punts, Harvard, too, was forced to punt.
Brown's low twister touched some-
one in the rush line as it ascended, and
when it fell Richardson got it on the center
and fumbled it. Their punts were
after Draper had made five yards, a chance
fumble by Saul gave Norton Shaw a chance
to get it.

Brown was called on to punt on the first
down and sent the ball to the 15-yard
line. There Draper fumbled it, and Moul-
ton captured it. Off-side play of Newton
advanced the ball to within five yards of
the goal line, when Wrightington made the
first touchdown, from which Brown kicked
a goal.

Draper's kick-off went to Moulton, who
was downed on the 40-yard line. Brown
punted to Newton's 40-yard line, but Rich-
ardson was in the way of the ball, and his
offense cost Harvard to yards. Four downs
gave Harvard the ball, but it availed little,
as Saul blocked Brown's attempt to punt
on the first down.

The play was now on Harvard's 40-yard
line. After Taylor had gained four yards
and Nichols had been downed for a loss of
an equal number, a fumble sent the ball
back to Newton. Draper was downed in his
tracks by Mills. Harvard got the ball on
four downs. Then two good rushes by
Wrightington and Cozzens and additions
for holding and off-side play brought the
ball near enough to the goal line for
Wrightington to rush it over. Brown
kicked a hard goal, making the score 12 to
0, where it remained for the rest of the
half.

Harvard's third and last touchdown was
made in short order. Draper kicked off
and Sullivan punted back to the center.
Saul attempted to rush the ball and went
to Harvard. Having the wind with him,
Cabot punted on the first down and the
ball went to the 40-yard line, where Har-
vard immediately got it on a fumble. Then
Cabot punted to the 25-yard line. Newton
being unable to gain, Draper was called upon
to punt, but the ball went out at the 30-
yard line. Warren made an end run

CAME NEAR SCORING.

NEWTON A. A. SCORED BIG GAINS
THROUGH HOLES MADE BY MARSHALL
NEWELL IN THE HARVARD LINE.

The Harvard-Newton A. A. game on
Soldiers' field Saturday afternoon resulted
in a victory for the crimson by the score of
18 to 0. The ideal weather brought out
about 2000 spectators. The Newton team
was not so strong as it was expected to be,
while Harvard was neither so good in de-
fensive as in the Williams game nor so
strong in offensive as in the Trinity game.

It was a very simple style of game, no
tricks nor fakes, no really successful end
plays, and no nice interference or blocking.
The game was directed almost entirely at
the center and tackles. The men who
played in these positions, realizing their
responsibility, frequently got offside and
held each other so that both sides were
heavily penalized for this breach of the
rules, although Newton was the heaviest
sufferer. Both eleven fumbled a great
deal, but Harvard's turned out most for-
tunately.

Neither eleven had any team play, the
Newton men having had little chance to
perfect any, while the Harvard men are
not yet well enough tested to settle the
positions, and this feeling of uncertainty
makes united action impossible.

The first half was pretty much a kicking
game, in which, notwithstanding that the
wind was against them, Harvard had the
best of it owing to Brown's good work and
the fumbling of the Newton backs.

In the second half the absence of Capt.
Wrightington behind the line took away
from Harvard its backbone. Cabot, who
was acting captain, gave his orders in a
limp, timid way, while his own work was
not such as to give the men confidence.
For a time the Newton men took advan-
tage of the weakness of their opponents.
They resolutely plugged away at the
tackles for gain after gain until they got the
ball on Harvard five-yard line. Here
Draper's slowness in punting gave Harvard
the ball and the chance of scoring was lost.
Did not turn them to good account. Exci-
tations are however an almost unheard of
thing in the fields, a word of warning be-
ing, as a rule, quite enough to make the of-
fender mend his ways. Indeed the great
majority of the holders seem to take a keen
delight in their work, and they vie with
each other in trying to get as much out of
their land as possible. Already in 1892 the
potato fields were divided into 2,700 hold-
ers and each holding was worked by a
separate family. At that time 11,343 chil-
dren were in a great measure dependent
for their food on what the fields yielded
and since then the number of holdings has
increased steadily.

As it was the chief interest in the game
was casual in Marshall, who played right
tackle on the Newton eleven. Al-
though he seemed to be paying more at-
tention to the men in front of him than to
the ball, he got the pigskin several times on
the line, and took care of about three men
in every play. To see him dispose of some
of the Harvard tackles was indeed a treat.
Did not seem to have any idea of his po-
sition, and through the holes made by him
he made almost all her gains.

Of the other Newton players, Hewes at
center was perhaps the strongest and most
valuable. Draper and Cline showed up
well on the ends, but not so much on ac-
count of their own strength as because of
their opponents' weaknesses.

Behind the line Nichols, Sears, Taylor,
Draper and Harris alternated in the po-
sitions with such rapid succession that it
was impossible to keep track of them.
Draper, though lamentably weak in pun-
ting, rushed well and always kept a cool
head. His run of 25 yards in the second
half, made when the Harvard forwards
were too close to him to allow him to punt,
was the feature of the game.

Harvard's game, as a whole, did not
show up so well as in last Wednesday's
game. The greatest weakness was again
at the end positions. The ends didn't seem
to have the least idea as to how to dispose
of the ball after they had run down on
the ball. Either they interfered
with the catching of a punt by a back on
the opposite side, or else they were dodged
by him after he had caught the ball. At

yard line. Warren made an end run

which netted 10 yards, Cabot made two,
and off-side decreased the remaining dis-
tance by one-half. Then Warren was
pushed across and Cabot kicked the goal.
Score 18 to 0.

The Pingree Potato Patch Scheme is a Success in Germany.

Some years ago, says the London Pall
Mail Gazette, the Berlin Law Department
devised a scheme by which the Poor Law
Department rents land, in 1892 some two
hundred and seventy acres, but con-
siderably more now, in the suburbs of
Berlin, divides it into gardens about one
tenth of an acre in size, and leases these
out gratis to the heads of families. The
Potato Fields is the name given to the
land, and they among whom it is divided
are presented with seed potatoes when
sowing time comes around. Not that they
need grow potatoes unless they wish to;
they are free to raise cabbages, turnips, or
any thing else that serves as wholesome
food. The cultivation of flowers is, how-
ever, prohibited. The potato field holders
are required to cultivate their land care-
fully and to keep it in good condition.
If any one of them stint it in the labor
it needs, should he leave it undug and let
weeds flourish, he speedily receives a visit
from the inspector, who is always on the
alert to relieve of their holdings those who
do not turn them to good account. Exci-
tations are however an almost unheard of
thing in the fields, a word of warning be-
ing, as a rule, quite enough to make the of-
fender mend his ways. Indeed the great
majority of the holders seem to take a keen

Jollette, Miss Keri, Miss S. N. Monroe, Catherine Maxwell, C. W. Miller, Albert Parmenter, David Porter, Miss Mary Perkins, Master Willie Perkins, Herbert Stebbins, Miss M. C. Tourbet and Miss E. C. Wilcox.

—Miss Alice B. Coleman, daughter of Mr. and Mrs. Coleman, of Commonwealth avenue, was married Wednesday morning at the Church of the Sacred Heart, to Mr. John B. Kneeland, a well known young man of this place, who was present at the church a large number of guests from Brookline, Boston and the different Newtons. A reception followed the ceremony after which Mr. and Mrs. Kneeland left for a wedding trip.

—A horse belonging to Trotter Brothers, provision dealers, of Brighton, ran away on Circuit road, Monday morning, and was stopped nearly a mile from where it started. The driver was in a house delivering goods, and the horse started to turn around and in doing so overturned the wagon to which it was attached. The front wheels were detached from the body of the wagon and with these the animal ran until it was captured in the woods off Hammond street.

—Shortly before 7 o'clock last Saturday morning Joseph Parri, an Italian laborer, was killed by falling from a tree at Chestnut Hill. He was employed on the Russell estate on Ward street and had been at work but a short time when the accident occurred. While picking apples from a tree in the orchard he attempted to ascend to a branch above his head when the limb beneath him suddenly gave way and he was thrown to the ground. His neck was broken by the fall. The body was viewed by Medical Examiner Swan and taken to the Hospital morgue. Later it was interred in the Potter's field. Parri was 45 years old and had a wife and three children living in Italy.

—The much-talked-of scheme for a street railway line through the Oak Hill district has at last taken definite shape. A company has been formed under the title of the West Roxbury & Newton Centre street railway, to build to miles of road. Most of the stockholders are interested in the development of Oak Hill property. It is proposed to build the road from the corner of Parker and Dedham streets to the Boston fruit thence to South street, at the junction of the arborvitae. The section of Newton through which the line will pass is entirely undeveloped, and comprises nearly one-third the total area of the city. It has hitherto been almost inaccessible.

—Saturday afternoon on the grounds of the Newton Centre Golf Club was played the second of the series of three team matches between the gentlemen members of the club. The largest score of holes up was made by team one, team two coming in a close second, with seven holes up and team three with 3 holes up. Team four failed to score. The third match will probably be played about the first of November, when a prize will be given the winning team. Next Saturday, this following is the list of teams: Team 1, Capt. E. W. Noyes, F. H. Love, Dr. Fessenden; Team 2, Capt. C. W. Royce, E. L. Allen, C. A. Sawin; Team 3, Capt. J. D. Greene, Edward Brackett, Clinton Hunter; Team 4,

Capt. W. B. Merrill, Henry Bailey, Walter Sanborn.

NEWTON UPPER FALLS.

—Officer McKenzie of the night squad, has returned from a trip to Albany, N. Y.

—Mr. and Mrs. James Clarkson of Reservoir street, have the sympathy of the community in the loss of their two year old daughter.

—Last Saturday morning car number 7 of the Newton & Boston street railway left the tracks on Woodward street near the bridge. The passengers received a severe shaking up but no damage was done.

—Miss Mary Cunard, 23 years old, for many years a resident of this place, died Tuesday at the home of her mother on Reservoir street. The funeral was held yesterday morning from St. Mary's church.

—Christopher Nugent, a resident of this place, who was sentenced in July to serve a year at the Bridgewater State Farm for drunkenness, escaped from that institution Wednesday. The police of this city were notified.

—This evening in Wade hall the Echo Bridge fire, drum and bangle corps will hold its first grand levee. The corps paraded through the streets one evening last week and did very creditable work. It is said that several engagements for campaign work have already been secured.

—The Bryan rally held here last evening was very enthusiastic and the hall was crowded. T. J. Galvin presided, and the speakers were William H. Baker, candidate for congress, C. T. Callahan, Dr. F. A. D. J. Gallagher, all of whom had spoken previously at the Town Hall at Needham.

—Last Sunday evening the police removed a live electric light wire that had been blown down by the wind on High near Winter street. Fortunately it was discovered before any teams or pedestrians had passed, and the damage was soon repaired. Some of the fine orchard trees and shrubbery in this vicinity suffered from the force of the storm, but no other damage was reported.

—Bud Brier in the Boston Globe pays a high compliment to Newton Upper Falls, when he says the following: "I take it somewhat in the nature of a personal compliment to Bud Brier, that Newton, his place of residence, has the lead up to date, in cash contributions to the Boston fruit mission. Mr. Daniel Hurley, the well-known contractor and builder, who resides at Upper Falls, has added his ready name to the list of cash contributions, and his generous example will, I am sure, have its beneficial effect. If all those interested in the 'mission' could take a peep into the storehouse at Long wharf this morning they would see a sight that would stir their hearts to gladness. Hundreds of bushels of apples, well-sorted, red and rosy, being eagerly sought for and properly given out to worthy applicants proves the good sense and the success of the apple propaganda."

A Card.

Mrs. M. E. Parker wishes to return her grateful thanks, to the friends who were so kind in her recent affliction, and also to the young men who sent the beautiful floral tributes, and attended the funeral of the late W. H. Parker, Newtonville, Oct. 15.

NEWTON LOWER FALLS.

—The pastor's theme at the M. E. church next Sunday morning is "The Model Christian."

—The Ladies' Society of the M. E. church are going to have a "birthday party" at the church next Wednesday evening. A fine literary program will be furnished, and refreshments served. Each person is expected to bring as many pennies as years they are old.

—About 11 o'clock yesterday morning Officer Shannon found James Carpenter, an insane patient that had escaped from the Medfield Asylum, wandering about the streets. The patrol wagon was summoned and the man taken to police headquarters where he was later turned over to the asylum authorities.

—Ye and ye friends are invited to ye olden time "Poverty Party" in ye Village Hall, Oct. 23, in aid of ye new meeting house. Supper at 6.30. Dancing pledge 50 cents. Come ye all.

—The church is being pushed forward as fast as the weather will permit. As it progresses the interest seems to increase and already a very costly window has been given and a great deal more is expected to be given. It is hoped to have the dedication services Christmas.

—The ground was broken Wednesday for the new building on Beacon street by Mr. W. C. Strong. It is to be of red brick with rustic stone underpinning and free stone trimmings, the roof will be slated with stepped brick gables in the style of the old English tower architecture. The building will be seventy-four feet front and sixty feet deep with three stores on ground floor and three apartments of five rooms each on second floor.

The C. E. Union at Needham.

In spite of the storm, there was a fair representation of the various C. E. Societies of the city at Needham, last Monday evening. The Burgess Society of the Congregational church, entertained the Newton Union. The literary exercises opened with a well written sketch of the Washington Convention by Mr. Herbert J. Kellaway. The principal address of the evening was given by Mr. W. T. Ellis of the Golden Rule, whose topic was "The Message of the Master." The President of the Union, Rev. E. M. Noyes, of Newton Centre, followed with a brief address upon "Personal Service, Its Reasons, Resources and Rewards." Music was furnished by the choir of the church, and Miss Florence Nickerson sang a solo. After the addresses refreshments were served and the social hour was full of enjoyment until the imperative summons of the last train called the visitors away.

The last public meeting of the year will be held the second week in December, when it is hoped that a more central place of meeting, and more favorable weather will rally a larger force of the Union workers.

An Appeal for Clothing.

The provident committee of the Associated Charities makes an appeal for clothing, undergarments, shoes, gowns, jackets and trousers, especially for children of the school age.

While the abundance of work in the city during the summer and autumn insures a comfortable winter for the families of most of the day laborers, the shutting down of the Nonantum Worsted Mills and the usual dullness of trade in a campaign year, will cause great hardship in many others.

One gentleman of Newton authorized the secretary of the Associated Charities to send coal at his expense, where such gifts are needed and where they will not encourage idleness and improvidence. If others would do likewise, we could face the winter with greater courage.

Funeral of Alderman Noyes.

The funeral services in memory of Alderman Albert F. Noyes were held at the Church of the Messiah, Auburndale, Thursday afternoon. Rev. John Matteson, rector of the church, officiated, and the choir took part in the service.

The city council of Newton attended in a body, and each of the city departments, Boston society of civil engineers, state board of health, Metropolitan sewer commission, state water commission, Massachusetts highway association, Dalhousie Lodge, F. & A. M., De Molay Commandery, K. T. were represented by delegations.

The casket was completely hidden by the mass of floral tributes, which included: A basket of roses from the city council of Newton, book of flowers from Mayor Cobb, tablet inscribed "City Engineer's Office," from employees of the department; a bunch of roses from Newton water board, basket of flowers from New England water works association, wreath from the board of departments at City Hall, inscribed, "At Rest;" wreath from Boston society of civil engineers, roses from Massachusetts highway association, pillow from the state sewer commission, pillow from Dalhousie Lodge, book of flowers from 8 o'clock club.

The pallbearers were Alderman Louis E. G. Green of Ward 2, President Mitchell Wing of the common council, Harry Manley of the Massachusetts highway association, George A. Kimball of Somerville, Charles F. Ross, superintendent of streets; J. C. Whitney of the Newton water board, and Prof. George P. Swain of the Boston society of civil engineers.

The ushers were Vine D. Baldwin of Auburndale, John C. Brimblecom of the board of health, Stephen Childs of the engineer's office, W. F. Fowler and C. L. Markham of Auburndale.

The interment was in the family lot at Newton cemetery.

During the day the flags on the city buildings were at half-mast, and during the services the bells were tolled throughout the city.

Resolutions Adopted.

A special meeting of both branches of the city council was held yesterday afternoon shortly after one o'clock.

Mayor Cobb in calling the board of aldermen to order said that if he should speak further on the sad event which called them together he would be reiterating what he had said in his message Monday evening. He regarded the death of Alderman Noyes not as an official but as a friend. When I was inaugurated he came to me and said he would support everything that was for the benefit of the city. He showed in every way his earnestness, his integrity, and his deep-seated love of principle which characterized him as a public official. Our sentiments will be fittingly expressed by the resolutions.

The following resolutions were read by Alderman Greene and adopted:

Resolved: That in the early and sudden death of our friend and colleague, Albert F. Noyes, the city has lost a able and efficient member of its Metropolitan Commission, the city a wise and conscientious citizen and the circle of his friends and companions, a loved and trusted member.

Resolved: That he died as he had lived, in the full possession of high moral and intellectual faculties, with armor on and fronting the day that lay next before him; and that in his life we have a signal illustration of the consecration of his powers to lofty professional and moral ideals, in the realization of which, with absolute forgetfulness of self, he spared neither time nor exertion.

Resolved: That while we may not enter that family circle over which well-nigh impenetrable shadows have fallen, we yet extend our heartfelt sympathy to that stricken group, trusting that this sympathy may be grateful and helpful to all in their sorest need.

Resolved: That the City Council as a mark of their respect, esteem and love for their late colleague, attend the funeral of the deceased.

Resolved: That a copy of these resolutions be sent to the family of the deceased, and that they be spread upon the official records.

JAMES T. ALLEN, Alderman.
LOUIS E. G. GREEN, Alderman.
MITCHELL WING, PRES. Com.
COLON S. SWAIN, Councilman.
FREDERICK HUTCHINSON, Councilman.

At this point the board adjourned until next Monday evening.

IN THE COUNCIL.

President Wing called the council to order with the following remarks: "We came together for the purpose of paying our respect to the memory of one who has served the city faithfully, bravely and conscientiously, not only as a member of our city council but for many years as city engineer. Newton may well mourn the loss of one who has been so thoroughly identified in the development of her various improvements, who has shown such intense interest in her progress and welfare, and it is fitting at this time that we should assemble and adopt such resolutions as the committee appointed for that purpose may present."

Councilman Colon S. Ober spoke of Alderman Noyes as a well known member of the Metropolitan Commission and the work he had done both in this body and as official of Newton. He was held in the highest respect in this village. Councilman Ober knew him a great many years and both families had always been intimate. "It was with deep regret that we heard the sad news and each man in the village felt he had lost a valuable friend."

Councilman Hutchinson spoke of his acquaintance with Alderman Noyes, and of the latter's interest in the city's welfare. "We will cherish his noble life and rejoice in it."

The resolutions were adopted and the council adjourned.

REAL ESTATE.

John Q. A. Whittemore has bought a lot of vacant land of about 12,000 square feet, on Tremont street, Brighton, from a tract owned by Maria W. Hill, and will improve the same by building.

Bowker & Wills have sold for Mrs. Hattie E. Millard one of her houses on Warwick road, off Waltham street, West Newton. The property consists of a modern, 11-room, frame dwelling house, and about 6000 square feet of land. The estate is assessed for \$4500. The purchaser is Ralph Messenger of New York, who will occupy. He buys on private terms. The same firm has sold to Mrs. Esther Silberstein of Newton the large estate on Prospect street, Framingham Centre, consisting of a frame house, stable and nearly five acres of land. The grantor was Nathan D. Parker of Boston. The purchase value is \$9000. Mrs. Silberstein has bought for her own occupancy.

Congregational Club.

The next meeting of the Newton Congregational Club will take place in the parlors of the Second Congregational church at West Newton next Monday evening.

It will be the first meeting of the winter. The doors will be open at 5 o'clock and supper will be served an hour later. The topic for the evening's discussion will be "The Training and Development of Our Youth," and the various phases of the subject will be presented as follows: "Mental Training," by Henry T. Bailey, agent of the state board of education; "The Moral Training," by Miss Sarah L. Arnold, supervisor of Boston schools; "Physical Training," by the Rev. William H. Davis, pastor of the Eliot church at Newton. Music will be furnished by a quartet from the Auburndale Congregational church.

The Biennial Election Debate.

The debate to be held in Auburn Hall, last Tuesday evening at 7.30, has been postponed to next Tuesday evening at the same hour. Col. E. H. Haskell will speak for the amendment, and Mr. R. L. Bridgman against it. It will be a very interesting meeting, and Auburndale ought to see many outside visitors that evening.

Tickets for the Fitchburg R. R. popular Hoosac Tunnel excursion of October 17th, are good returning on any regular train Sunday or Monday, October 18th or 19th, and on this special which leaves North Adams at 4.30 p. m.

—Mr. E. P. Burnham has been re-appointed local centurion of the Century Road Club. The annual century of the Mass. division takes place Nov. 8. Mr. Burnham took part in the Press Club's annual century, at Newton, on Tuesday, the time made being 7 hrs. 45 min.

—Mr. and Mrs. S. A. D. Sheppard have issued cards for the marriage of their daughter, Miss Clara Emma, to Mr. Edward Enos Blake. The ceremony will take place at the Immanuel church, Wednesday evening, Nov. 2, at 7.45. The future home of Mr. and Mrs. Blake will be at Charlotte, North Carolina.

—Mr. Leon H. Vincent, well known as a lecturer on literary subjects, has been selected to give a course of four lectures to be given in the chapel of Eliot church on the following evenings: Saturday, Dec. 2, Hawthorne; Monday, Dec. 21, Dickens; Tuesday, Dec. 26, Emerson; the man; Wednesday, Jan. 6, Lowell, the letter writer.

—Crowds of interested spectators have witnessed the work of the steam shovel on the Boston & Albany while it has been in operation near the depot this week. The excavation is so deep that pedestrians are obliged to use the bridge instead of clambering over the tracks as before. The digging here has been very easy as the ground is sandy.

—Considerable damage was caused by the derelict of the wrecking train while it was at work here Saturday. The crane of the machine caught the wire suspended across the tracks in front of the temporary bridge, from which is hung leather straps to warn those standing on top of cars that a bridge is nearby. The two poles on which the ends of the wire were fastened were broken off at the base so great was the force of the shock.

—All the Congregational churches of the city have been asked to unite with the Eliot church, Sunday evening, in celebrating the 25th anniversary of the beginning of the Apostle Eliot's mission to the Nonantum Indians, which falls on Oct. 28. In the morning an historical address will be delivered by Rev. John Byington, and at the evening service Rev. Dillon Bronson, Rev. George E. Merrill, Rev. William H. Davis and Frank Brown, Mr. Morrissey, W. F. Grace, Thomas Kelley, W. J. Dunn.

—The citizens' committee on revision held a meeting at city hall Friday evening and began the work of preparing the final draft of the city charter. It will probably be presented to the city council at the first meeting in November. The committee will recommend a city council of one board composed of 14 ward aldermen and seven aldermen-at-large. A single commissioner, to be in charge of the highway, sewer and water departments, will also be recommended. Greater power and responsibility will be given the mayor and the heads of the fire and police departments, the board of health will be reorganized and the legislative and executive branches of the city council will be made entirely distinct. The only other important features of the new charter, which has been made public, is the abolition of the present system of legislation by committees.

—Bicycle repairing at Hodgdon & Jones, 329 Centre street.

—Mr. Frank Dunlap Frisbie has returned from an outing in Maine.

—Mr. F. H. Tucker of Church street is in Europe on a five weeks business trip.

—Mrs. Princes of Chatham is visiting Mr. Washington Warren and family of Centre street.

—Miss Mabel Harty, bookkeeper at Bunting's market, is ill at her home on Morse street.

—Mr. Thomas Edmonds is home from the Highland Academy at Worcester, suffering with eye trouble.

—Mr. W. J. Henderson and son William Henderson, are at Wood's Hall, where they are at work on some new cottages.

—John Eliot, the noblest of the Puritans, will be the topic of Dr. Shinn's discourse in Grace church on Sunday morning.

—The Garden City A. C. will play the Waltham High school football eleven on Stearns' field, Nonantum, tomorrow afternoon.

—Capt. Crockett, who is to have charge of the new Associates building, has with family taken apartments in Cole's block.

—Watch, Clock and Jewelry repairing. Clocks called for and delivered. All work guaranteed. Theo. L. Mason, Eliot Block.

—Order Blackwell's double front shirts for winter wear. They are unsurpassed for strength, warmth and comfort. See adv. on page 1.

—Some ornamental iron work is being made by the arch way entrance to the chapel of Grace church. It will be in position some time in November.

—The fourth annual regatta ball of the Garden City Lodge, 7191, will be held Friday evening, Nov. 20th, at Armory hall. Music, Dunbar's orchestra.

—Miss Margaret Clifford of Bellevue street and Miss Mabel Eager of Auburndale were two of the bridesmaids at the Harris-Breed wedding in Lynn, Wednesday evening.

—The Boston & Albany has made great progress with their excavations between the old depot and Church street this week. The work is now so deep that the bridge has come into general use.

—The other night a gentleman on Hunnewell Hill found a very handsome black and white animal on his front piazza. It was not a cat and hence he had to skirmish round for some time before he could get inside his house. The neighbors say that the whole hill was perfumed.

—A conference of republican leaders was held in Boston Friday afternoon to discuss candidates for the mayoralty nomination. The meeting was practically unanimous in favor of renominating Mayor Henry E. Cobb. The preliminary campaign will begin immediately after the state election.

—Rev. Dr. Davis of Eliot church administered the communion at the American missionary jubilee meeting at Tremont Temple on Tuesday evening. Rev. Mr. Noyes of Newton Centre led the devotional service Tuesday afternoon and Rev. Mr. Patrick led the evening service.

—The annual meeting of Eliot religious society was held Friday evening. The following officers were chosen: Frank A. Day, deacon; George Agry, clerk; George Putnam, treasurer; Daniel Shaw, auditor; W. F. E. Cobb, superintendent of Sunday school.

—The winter time table of the Newton Street Railway, will go into effect on Monday, Oct. 26th. The only change will be a return to a half hour service on week day forenoons. Cars will leave Newton for Watertown at 6.25, 7.00, half hourly till 1.30, then every fifteen minutes until 10.00 p. m.; then 10.30 and 11 p. m.

—Mr. T. B. F. Boland, formerly in the dry goods business in Worcester, has taken the large store in the new Taylor Block on Washington street, and is fitting it up for the dry goods business. The owner of the grocer who had hired it, decided that he did not want to risk competition with all the other groceries here. Mr. Boland has taken a ten years lease.

—James Killian, a Brighton contractor, while driving on Pearl street, with his son, Sunday afternoon, was thrown from his carriage and struck on his head, inflicting a deep cut, nearly four inches in length, and rendering him unconscious. He was removed to a drug store, where Dr. A. Stanton Hudson took seven stitches in the wound, after which he was taken to his home.

—There are letters in the postoffice for Charles J. Behong, L. Burns, Patrick Connors, Thomas Gealish, O. Goiner, C. F. Johnson, Michael Sweeney, Harry J. Smith, Mrs. Charles Briggs, Mrs. Charles E. Brown, Mrs. John Burke, Elizabeth Champagne, Miss Derby, Josephine Connell, C. A. Coville, Miss S. L. Hackett, Della Gallagher, Sarah Kelly, Helen McCarthy and Mary Ryan.

—Mr. Fred A. Hubbard's new drug store in Associates block was opened to the public for the first time last Saturday afternoon. All the afternoon and evening many patrons visited the store leaving with the usual stock of drugs. The store is quite general, that it is one of the handsomest and most attractive in the city. Mr. Hubbard has spared no expense in the fixtures of his new place of business, and the fine appointments will show. It is about the same size as the old store, although the width behind the counter has been enlarged making it more convenient for the clerks.

—Mr. John J. Haley, for twenty years a resident of Newton, died at his home in Tilton, N. H., Oct. 17th, aged 73 years. The direct cause of his death was cerebral apoplexy. He was a member of Eliot church, and a prominent Boston business man. Three years ago he went to Tilton, and lived in quiet retirement owing to failing health. A widow and two children survive him, John J. Haley, Jr., of Worcester, and Mrs. Edward C. Huxley of this city. The funeral services were held at Tilton and the interment was at Mt. Auburn.

—Owing to the poor condition of Rev. Dillon Bronson's throat, Rev. Robert Hoskins gave a highly interesting talk Sunday morning, before the Methodist society on the subject of work in India. Departing from the usual run of missionary appeals, Dr. Hoskins said not a word about the collection which was later asked for, but told the auditors some of the very things they wanted to know most about, and how money was spent, in what way the work was conducted, the progress of missionary effort and the outlook for the future. The address was illustrated with a large map showing the important centres, the railroads and other features of India. The astonishing fact was presented, that in what we are accustomed to consider a heathen country, there are estimated to be 28,000,000 of attendants at Christian services. A number of business men, who have commercial dealings with India, were so interested in the address that they stopped after the service to ask Dr. Hoskins questions relative to the products of that country, etc. The pastor, Rev. Dillon Bronson, said that after such an interesting talk there was no need for an extended appeal for a large contribution to the annual missionary collection.

—Prescriptions a specialty. Hahn's.

—Mrs. A. R. Carter, whose husband was superintendent of streets in Newton some 20 years ago, died this week in Waltham.

—Officer Charles Young has been confined to his home on Washington street with a severe cold.

—Boys having their hair cut by Burns, Cole's block, will have a chance for the Christmas presents.

—Mr. Ralph Emery of Waverley avenue returned Tuesday from a hunting trip at the head waters of the Narragansett river, Maine, with a fine deer.

—Rev. Dr. Shinn at the invitation of the Rhode Island Institute, was one of the speakers at the meetings in Providence on Thursday afternoon and evening.

—Miss Marion Mandell was one of the bridesmaids at the wedding of Miss Jessie Southard and Mr. Torrance Parker in Boston, last evening. Mr. Carl Keller was the best man.

—Fresh lot of Ferris Hams and Bacon just received direct from F. A. Ferris & Co., New York. We can give you canned goods at very low figures. Newton Public Cash Market, 415 Centre street.

—Mrs. W. H. Williams, the drummer evangelist, will deliver a temperance address in Eliot lower hall next Tuesday evening. Subject, "The last romp with the tiger." All are welcome. A collection will be taken up to defray expenses.

—Mrs. Mary Beebe Cutler will receive a limited number of pupils in vocal culture, at her residence, 60 Franklin street, in response to requests from many of her friends. Such an opportunity to secure instruction from a teacher of Mrs. Cutler's culture and high standing as a singer, is seldom offered.

—At Immanuel church next Sunday morning the pastor, Rev. G. E. Merrill, will preach from the text upon which John Eliot, the apostle to the Indians, preached his first sermon in Newton, two hundred and fifty years ago. The evening service will be in union with the other churches in the Eliot meeting house.

—While the 12 o'clock electric car was passing Bellevue street on its way to Newtonville this noon, a wagon load of lumber crashed through the side of the car. Two windows and a part of the woodwork were badly damaged and glass scattered about the interior of the car. A young lady who was sitting near the window narrowly escaped being hurt. The passengers were badly shaken up.

—At the service of the Methodist society in Eliot lower hall next Sunday morning, the pastor, Rev. Dillon Bronson, will preach, taking for his subject, "The first disciples." At 6.30 in the evening there will be a meeting of the Epworth League. The regular 7.30 service will be omitted in the evening, on account of the union service to be held in Eliot church.

—Music in Grace church Sunday night: Processional, "Christ is made the sure foundation." Magnificat. King Hall Nine Dinitists. Solo, "One sweetly solemn thought." Ambrose Anthem, "Ho! every one that thirsteth." Martin Recessional, "O! what the joy and glory must be."

Seats free.

—Joseph Kivlin reported to the police of this division, Wednesday night, that a new light overcoat had been stolen from his lodgings at 333 Washington street. About 3.30 the landlady, Mrs. Mahar, let a room to a tall man, dressed in a dark chevot suit and wearing a golf cap. At supper time when she went to his room to call him he was missing, as was Kivlin's overcoat and a razor and a small sum of money belonging to another boarder.

—Music at Eliot church Sunday next: MORNING. Organ prelude. Deved Tenor solo, "Wait thou still." Dunham Tenor solo, "Rock of Ages." Henshall Organ postlude. Calkin

EVENING SERVICE. Organ prelude. Foote Anthem, "Send out Thy light." Gounod Tenor solo, "Rock of Ages." Eichenberg Rym, "To Thee O Country." Lux Organ postlude.

—Much sympathy is expressed for Mrs. E. M. Adams of Washington street, in the loss of her daughter, Maud Anna, who died of diphtheria Sunday morning, at the Newton hospital, aged 9 years. Maud was an unusually bright and attractive child, and loved by all who knew her. She will be missed by her many young friends and school mates of the Underwood school. Her remains were interred in the Newton cemetery, Dr. Shinn officiating. Mrs. Adams' other child, a boy of 12 years, is at present very ill at the hospital with scarlet fever.

—Armory hall was the scene, Wednesday evening, of a very pretty dance given by the Young Ladies' Charity Club. Over 200 couples were present and dancing was enjoyed from 9 to 3. On the handsomely decorated platform was stationed an orchestra which discoursed music for the evening's pleasure. The affair was in charge of Miss Josephine Stuart, president, assisted by the following committee of young ladies: Miss Mary Gavin, Miss Elizabeth Hackett, Miss Katherine Cranitch, Mr. John Briston was floor director and Mr. P. A. Murray chairman of the reception committee. A neat sum was netted for the club's poor fund.

—The counsel of Mr. J. J. White gave a long statement to the press, denying the charges made against him in the New York dispatches, and stating that as soon as the case came up in court he was released on \$2,500 bail, given by two prominent residents of Brooklyn. The attorney states that he was not in contempt of court, and that he was not guilty of perjury, and says that the whole case arises out of the affidavit filed by his attorney some two years ago, in the matter of the inheritance tax against his son, the affidavit stating that there was no estate legally taxable by the state of New York. Mr. White claims that as the property in other states is taxed in those states it cannot be legally also taxed in New York.

—The public were given a glimpse of the new Y. M. C. A. rooms, Wednesday evening, when the first of the series of popular entertainments was given in the new Nonantum building. Perhaps the audience might have seen more of the new building and been able to read the program had not the electrician gone back on his promise and failed to have any light in the hall. As it was the young men of the reception committee proved equal to the emergency, and provided several piano lamps which did very well. The program was rather brief but of even excellence. It was without doubt one of the best entertainments given under the auspices of the Y. M. C. A. The first number was a selection by the Beethoven male quartet, which like each selection that followed, called forth an encore. Chester Homer Griswold read "A Bad Little Boy" and responded to an encore. Numbers by the quartet, Master Griswold and Edward Danforth Hale, A. M., followed, and the evening closed with the boy orator's "Mrs. Maloney on the Chinese Question."

THE CITY GOVERNMENT.

ORDER TO SEIZE THE NEWTON BANK PROPERTY AFTER PASSAGE—LINCOLN SCHOOL MATTER SETTLED—NO ACTION NECESSARY—LOWER FALLS WANTS EXTENSION OF SEWER SYSTEM—\$60,500 FOR NOVEMBER CITY EXPENSES.

The board of aldermen finally settled the much discussed question of the seizure of the Newton bank property at its special meeting, Monday evening, by refusing to pass the order for the taking of the land by a tie vote.

The board was called to order by Mayor Cobb at 7.45, with six members present. Several telephone hearings were opened and as no one appeared the hearings were closed.

Election officers were appointed to fill vacancies left by resignations received. A petition of Lower Falls residents for an extension of the sewer system to their village was referred to the committee on sewers.

The petition of Thomas White, an Upper Falls druggist, for a sixth class liquor license, was referred to the license committee. Edward La Croix and 19 others petitioned for a concrete sidewalk on Bridge street. Referred to the highway committee.

E. E. Hardy and 60 other residents of Auburndale petitioned for the widening of Auburn street to a width of 65 feet from Washington to Melrose street. The petitioners said that at a recent meeting of the Auburndale Improvement Society this was the sentiment expressed by all present. The petition was referred to the highway committee.

C. H. Hunt and 7 others petitioned for a concrete crossing on Waverley avenue at the junction of Tremont street. It was referred to the highway committee. A petition for one street lamp at the same place was referred to the street light committee. Two street lights to be located on Chestnut street, at Fairview and Otis streets, were petitioned for and the communication was referred to the street light committee.

Alderman Allen said that Chestnut street at these points was exceedingly dark and residents of that section were almost afraid to pass through there at a late hour. He hoped that the committee would favor the granting of the petition.

C. W. Leatherbee and others petitioned that a fire alarm station be located at the corner of Austin and Greenwood streets. Referred to the fire committee. Petitions for street lights were received and referred to the street light committee as follows: For lights on Austin street extension, for lights on Otis street at the junction of Hillside avenue, for lights on Forest street, for two lights on Waban avenue, for one on Holland road, for several on Clark street and Auburndale avenue.

The telephone company was granted a hearing November 3rd on its petition for pole and wire locations on River street. The gas company was granted a hearing on the same date on its petition for location on Commonwealth avenue near Austin street. A. D. Putney and others petitioned for a concrete crossing on Standish street. Referred to the highway committee. James Lynch's petition for a license was referred to the license committee.

In a communication to the mayor Alden Spear protested against the seizure of the Newton bank property.

The sewer committee reported favorably on the petition for a sewer location on Highland street and advised that the prayer of the petitioners be granted. The public property committee, to which was referred the petition of the school board for sanitary improvements in the Lincoln school building, reported no action necessary, as the building was in a satisfactory sanitary condition.

Alderman Tolman said that the water test had been applied to the pipes with satisfactory results.

Orders were adopted on the recommendation of the highway committee for laying out of Pemberton street and providing for the extension of the Cheesecake brook boulevard from Watertown to Eddy street.

The committee reported that the petitioners for the laying out of Clark street, Washington avenue, Stanford and West Pine streets be granted leave to withdraw. The water board was authorized to lay mains in Fuller terrace, Highland avenue, Russell road and Williams street at an expense of \$1010. It was also authorized to purchase special pipe and castings at an expense of \$2100.

Hearings were ordered for November 3rd on the laying out of Pemberton street from Commonwealth avenue to Woodland road, and on the proposed Cheesecake brook boulevard extension.

An order was adopted granting the telephone company a location on Bowers street.

THE BANK LOT ORDER.

Alderman Downs presented an order for the widening of Washington street from Hall street easterly, under the provisions of the biennial election act, and awarding the damages to the National Bank at \$623, and the Savings Bank at \$825, making a total of \$1448.

Alderman Degen was not aware that the order was to be presented, and he inquired if some arrangements had not been made with the bank people. He supposed that some agreement had been made whereby the city would be insured against further damages. He was surprised that it had not.

Alderman White said that the order was entirely out of place. The city government had given the matter the wisest consideration and best judgment. Last year the highway committee had considered the matter with ex-Mayor Bothfield and it was decided that the taking of the land was not a public necessity. The public did not require it. If this was seized \$100,000 worth of taxable property was wiped from the books. Only two or three favored it. The heavy taxpayers did not wish this. The prominent taxpayers of the wards interested had sent an attorney to show they were not in favor of it. The bank would be an ornament to the city.

Alderman White hoped that the order would be passed. Public sentiment favored that the land be taken, and he hoped it would not be lost. Anyone who had watched the building had been going on within the past few years would see that it was only a question of time when the bank lot would have to be taken. If a building was erected it would have to be removed as an absolute necessity.

Alderman Tolman corrected Alderman White's assertion that only two or three favored it. Seventy-three men at the Republican caucus of Ward 7, out of the seventy-five present, requested their alderman to present the matter for consideration before the city government. They were not \$2 men either.

Alderman White was not vote in favor of taking the land. If the city council did this they were buying themselves into a lawsuit. It will be left for 12 men to decide and they will decide against you. If you vote in favor of this after voting against it you cannot do so without making fools of yourselves. Prominent taxpayers do not want the land taken.

Alderman Tolman, "As Alderman White is so thoroughly well posted I should like to have him name a few of those prominent taxpayers who are opposed to it."

Alderman White, "I don't think it is necessary."

Alderman Tolman, "You can't do it."

Alderman Downs thought there was a

mistake in the number of those who favored it. 75 per cent. of the residents wanted the land to be taken.

Alderman Allen said that the matter had been discussed pro and con and both sides had been fully heard. We do not wish to reflect on the actions of any previous city governments, because they made mistakes. I should say that 30 per cent. were in favor of taking the property. The consensus of opinion was that the land would have to be taken within a few years. The amount that would have to be paid some later time would greatly exceed the amount suggested at present. I think I voice the sentiment of this ward when I say the bank lot should be taken. It will be something that we shall run against when we drive down Washington street. Public necessity does require it. It will be a monstrous if this building is erected.

Alderman Green was in favor of taking the land if it could be obtained for \$25,000. Public travel in that part of the city would not be congested. He thought some arrangement could be made whereby the city would be insured from any damages above that amount. He was not in favor of the order in that form. He was in favor of this ward when I say the bank lot should be taken. It will be something that we shall run against when we drive down Washington street. Public necessity does require it. It will be a monstrous if this building is erected.

Alderman Degen thought that some understanding regarding the expense should have been made.

Alderman White did not favor the order that would buy the city into a lawsuit or cheat anybody.

Alderman Downs said that the order was not intended to cheat anybody. He explained that one citizen was willing to subscribe \$500 and perhaps more. He was interrupted by Alderman White when Alderman Tolman turned to the mayor and said, "Such interruptions disconnect a man who is speaking, Mr. Mayor, and I protest against it."

The mayor asked if the board was ready for the question and a vote was taken which resulted as follows: Yes, Downs, Allen, Tolman, may, Green, White and Degen.

OTHER BUSINESS.

The list of polling places was established and the order adopted.

An order was passed appropriating \$60,500 for the November expenses of the city. The petition of G. W. Avery for a one-story grain building at Upper Falls was favored by the building inspectors. The communication was received and placed on file.

The action of the common council in referring the petition that Adams and West streets be renumbered, to the highway committee, was concurred in. The same action was taken with the petitions for the widening of Greenwood avenue and the reconstruction of Grant avenue.

On motion of Alderman Green the board adjourned.

Biennial Elections.

The two sides of the question of the biennial election amendment to the Constitution was presented Tuesday evening at Auburn hall, Auburndale, under the auspices of the Village Improvement Society.

Col. E. H. Haskell of Newton Centre, president of the Biennial Election Society of Boston, spoke in the affirmative in a most able manner, in a long speech in which he said:

"I regret exceedingly the disposition, which has recently manifested itself on the part of some of the opponents of the Biennial proposition, to belittle or misinterpret the very positive and decided action, which the business interests, the commercial spirit so called, has taken in support of this measure of reform in our state affairs.

Certainly no class of our citizens are more deeply concerned in everything which makes for the true welfare of this honored commonwealth than the great body of merchants throughout its borders, who, through all its history, have been conspicuous for their devotion to everything which could add to the reputation and true greatness of our state, and which in the creation of a great public question of this character, they deem it of the highest importance to the future welfare of the state that a reform in the administration of its affairs, of the character proposed, should be made, and so express themselves, in an uncertain manner, why should such expression of opinion be assailed, in the manner in which it has been.

The movement for the adoption of the biennial system had from the beginning, has had all through its development, and has today, as a central underlying economic principle, the union of the State and National political canvass. It recognized from the first a sentiment, which gives its best expression in the inaugural messages of Governors Rice and Talbot. Let me quote from Gov. Talbot, "There is a growing feeling among the people that frequent elections unsettle the public mind by their attendant excitement; that they interfere with business, create deplorable inequalities and occasion a needless waste of time and money; furthermore that annual legislative sessions are a heavy draft upon the treasury, and offer, by their frequent opportunities for projects of doubtful utility, which are annually pressed by their promoters in the hope of ultimate success.

The State papers which followed these, recognized fully and strongly that the great objects to be secured by a change in this respect in the administration of our state affairs and which had been secured to the citizens of nearly all the states of the Union was:

First, the measure of relief which would be afforded our citizens from an annual state political canvass, with all its attendant expense, distraction and confusion, and severe political excursions, which come to all alike for which it is true that these demands and excursions, which come to some who can well contribute of their time and means, to the great body of our people, who are unable to make this contribution, it comes with an especial hardship, because unnecessary. I hold that the chief purpose of government clearly is to keep peace and enable our people to pursue as far as possible their business and private affairs; and while it is most desirable that elections should be held as often as the common good may require, it can fairly be claimed that too frequent elections are an unnecessary increase in the friction of government, and are not conducive to the best political health, and that the exactions and demands made upon the public so often are not justified by any corresponding increase in the ratio of benefits received.

It may be said that there is no necessity for any man to devote any considerable part of his time to politics, and the necessity may not seem apparent, but it remains true that every citizen who loves his state, ought to devote a certain time, and must devote to the present system, devote a considerable time to faithful and intelligent performance of his political duties as a citizen, unless he wishes its government to fall into the hands of incompetent and unscrupulous men. Our political journals are constantly urging, and very properly too, that our citizens should neglect no part of their political obligations, that all primary necessities should be attended to, in order that the best men shall be selected as representatives; and this duty cannot be safely neglected, nor ought it to be. But when he comes to realize just what this means, that he is expected to attend all the caucuses of his own party, to assist in the selection of delegates to the various towns, municipal, representative, senatorial, county, congressional and state conventions, we begin to comprehend something of the exactions referred to, and when we further consider that, in addition to this, he is expected to intelligently inform himself as to the issues presented to both parties, to attend public discussions, to contribute his share to the general expense, no wonder that occasionally this proves too much for his political duties, and this striking is practiced in this state to an extent that we

hardly realize, but more especially on what are termed the off years of our elections.

Second, it was felt that one of the benefits which would result to our state by the adoption of this principle would be an improvement in our legislation. While it was felt, as shown by the experience of the other states of the union, that this could be given its best expression from the economy aided by the adoption of biennial sessions of the legislature, there were decided benefits to be derived from the adoption of the two years tenure for members of the General Court, even under annual sessions. Let us consider for a moment what these are, as compared with our present system.

The legislature meets in January, it spends two or three months in organization and preliminary hearings, its members do their chief work for months in a scattered way, in committee rooms, and the real work of debate and legislation is finally driven through with a rush, in the closing part of the session.

Owing to the faulty method of doing business, a new matter of importance is often not able, at the first session of its presentation, to get a sufficient hearing, and goes over to the next year. The next legislature is composed, to a certain extent of old members, but the new members are not content to let the old members do the legislation. It is their right, and their duty, to be informed as to all matters, although presented before, and it is constantly the practice for one legislature to correct the errors of a previous year. This is notoriously the case in legislation. There is notoriously the case in legislation. There is notoriously the case in legislation. There is notoriously the case in legislation.

What would be the situation, in respect of experience of legislation, and in handling such business under the biennial system? In the opening months of its first session the legislature could do up, once and for all, for a period of two or four months, this preliminary work of organization and committee hearings in respect to all matters, except a very few and exceptional matters, and then devote the remainder of the session to the consideration of the most important matters, which would be got through with in a more methodical and orderly manner. All work of taking evidence, hearing arguments and, in general, all preliminary treatment as to the great mass of important matters, would be got through with in a more methodical and orderly manner. Then this legislature would have, not only the remaining two or three months of its first session in which to debate such matters, but it would have a whole year of session in which to consider and consider of them, in legislative session and not merely in committee rooms, free from the delays and complications and interruptions which attend the doing business in a single session.

It seems to me in one respect that the opponents of the measure have an entire misconception of the questions involved. The legislature is not a charitable or educational institution. The legislature is elected to transact the public business.

Its members are chosen by the people for that purpose. The only question involved is whether the elections which are the means of selecting certain persons to attend the public business can be held with more advantage to the people at intervals of two years, than at intervals of one year. If the elections held at intervals of two years will produce better results in the way of a legislature; in other words, it is simply an administrative question. What is wanted from the legislature is good government. It is not a charity, it is not a school, it is not a place where people, experienced men, reasonable laws.

I am an advocate of biennial elections because I believe that one of the results of their adoption will be to secure a greater expression of interest, and a larger attendance, and that the polls that we now have, which as it is very clearly shown by the experience and political statistics of the states which have less frequent elections, and in many of which the population is not as dense as our own, or the facilities for voting as perfect as our own, that the percentage of votes cast is greater than in our own state. If it were true, as has been recently claimed recently, that this change in our system would have the effect of weakening the interest of our people in their public affairs, it would constitute a reason in favor of our continuing our present system. But it is not true. On the contrary, the reverse of this is true, that a larger and fuller expression of the people in public affairs as seen by the attendance at the polls, is shown in those states which have less frequent elections.

Referring to the objection made by some people, in regard to the discussion of State and National issues in the same canvass, let me say that in our own state, since the adoption of our present government, we have, every other year, conducted a joint political canvass for state and national officers, and discussed state and national issues with perfect satisfaction to our people, and with no movement whatever to separate them. And further, let me suggest that, in the years 1874, 1882 and 1892, we elected a Democratic governor, and a Republican congressional delegation, (and in 1892, presidential electors) on national issues.

There certainly are no good reasons why state and national issues may not be discussed in the same canvass, as they have been for one hundred years, in our honored Commonwealth.

And now, my friends, in conclusion let me say that, after all, this matter resolves itself into a very simple proposition, and is in no sense an abstruse question. It is simply a question of the administration of our state political affairs, and whether we will continue to follow the old system, with all its attendant expense, distraction and confusion, and severe political excursions, which come to all alike for which it is true that these demands and excursions, which come to some who can well contribute of their time and means, to the great body of our people, who are unable to make this contribution, it comes with an especial hardship, because unnecessary. I hold that the chief purpose of government clearly is to keep peace and enable our people to pursue as far as possible their business and private affairs; and while it is most desirable that elections should be held as often as the common good may require, it can fairly be claimed that too frequent elections are an unnecessary increase in the friction of government, and are not conducive to the best political health, and that the exactions and demands made upon the public so often are not justified by any corresponding increase in the ratio of benefits received.

It may be said that there is no necessity for any man to devote any considerable part of his time to politics, and the necessity may not seem apparent, but it remains true that every citizen who loves his state, ought to devote a certain time, and must devote to the present system, devote a considerable time to faithful and intelligent performance of his political duties as a citizen, unless he wishes its government to fall into the hands of incompetent and unscrupulous men. Our political journals are constantly urging, and very properly too, that our citizens should neglect no part of their political obligations, that all primary necessities should be attended to, in order that the best men shall be selected as representatives; and this duty cannot be safely neglected, nor ought it to be. But when he comes to realize just what this means, that he is expected to attend all the caucuses of his own party, to assist in the selection of delegates to the various towns, municipal, representative, senatorial, county, congressional and state conventions, we begin to comprehend something of the exactions referred to, and when we further consider that, in addition to this, he is expected to intelligently inform himself as to the issues presented to both parties, to attend public discussions, to contribute his share to the general expense, no wonder that occasionally this proves too much for his political duties, and this striking is practiced in this state to an extent that we

of year is too small to weigh in the matter of good government, for the total cost to taxpayers and to private citizens combined could all be paid out of the net gain of the state in taxable property for that one day alone, and then the people would be many thousand dollars ahead at night of what they had in the morning. The disturbance of an off year campaign is immaterial in business, because business issues, such as the tariff and the currency, do not come into state politics. The agitation is a trifling matter for any voter, except the candidates and the political committees.

Annual elections are imperative for assimilating our foreign population and helping them to understand our institutions. The percentage of foreign-born voters in the state increased from 20 in 1875 to 25 in 1895 and is steadily rising. The cities largely determine the nature of state politics, and the percentage is higher there, rising to 40 per cent. in Fall River. Our native-born voters cannot have an intelligent opinion on politics unless they are made familiar with public issues.

Labor interests have a vital concern in an opportunity for constant progress, which is possible only with annual elections.

The example of other states proves the wisdom of the Massachusetts system, for they save merely the trifling cost and annoyance of an off year election, while they leads them all in the real tests of civilization.

A biennially elected legislature, in its second year falling more than now under corrupt influences, which would get in their work in the first year, and in the third year consisting almost wholly of inexperienced men, would be decidedly worse than now. Corporation lobbyists and politicians who wish to get power for longer terms and to save the expense and risk of an annual return to the people, are active for biennials.

If biennials were adopted there would be prevented forever any adequate discussion of state issues. National elections would absorb everything, as they do in Vermont and Maine. The exceptions urged on the other side, in 1874, 1882 and 1892, were due to national causes, plus a highly popular candidate, and really demonstrate how unsafe it is to trust state affairs to a national campaign. Many state problems demand particularly our unequal system of taxation.

A weighty reason for defeating the amendment is that it has not been discussed in the newspapers, and it is not intelligently. Many are not aware that it is pending and many more are uninformed upon the radical nature of the proposition. The vote should not have been taken this year.

But there is one reason, sufficient in itself, for defeating the amendment. If it were adopted, it would compel all discussion of state constitutional reforms to come in the form of national campaigns. The year's experience with this very amendment, when almost no one is thinking of it, illustrates the serious danger. If the public could realize that there was a scheme to put all our constitutional growth in such grave peril, it would be a surprise if the amendment had one vote in 100.

The Dartington, Wis. Journal says editorially of a popular newspaper, "We know from experience that Chamberlain's Colic, Cholera and Diarrhoea Remedy is all that is claimed for it, as on two occasions it stopped execrable pains and possibly saved us from an untimely grave. We would not rest easy over night without it in the house." This remedy undoubtedly saves more pain and suffering than any other medicine in the world. Every family should keep it in the house, for it is sure to be needed sooner or later. For sale by A. Hudson, Newton; B. B. Buck, Newton Centre; B. Billings, Newton Upper Falls; E. F. JOHN ELIOT AND HIS WORK.

NEWTON TO OBSERVE THE 250TH ANNIVERSARY OF THE BEGINNING OF THE LABORS OF THE "APOSTLE TO THE INDIANS" ON OCT. 25 AND NOV. 11—A MONUMENT SUGGESTED.

On Sunday, Oct. 25th, the two hundred and fiftieth anniversary of the beginning of John Eliot's labors among the Indians is to be observed in the Eliot church at Newton, and on Wednesday, Nov. 11, there will be a civic celebration of the same anniversary. Although Oct. 28 is the exact date on which Eliot preached his first sermon to the redmen, a Sunday was chosen for the church celebration so that business men may have an opportunity to attend.

The significant undertaking of Oct. 28, 1646, when Eliot went with a trio of friends to hold a wigwam meeting on the hill, Nonantum, in the northeast corner of Newton, with all the successful outgrowth from this effort, is to be commemorated on the first day named with a morning and an evening meeting. At the meeting of the morning an historical address is to be given by Dr. Ezra H. Byington, author of the new book on the Pilgrims that is just issued. This selection is thought to be the more appropriate from the fact that the speaker is a parishioner in the Eliot church as well as a man whose time for several years has been largely devoted to the investigation of subjects connected with that which will form the substance of his discourse. As arranged by the pastor of the Eliot church, Rev. William H. Davis, the older pastor of the town will give the invitation in delivering the other speeches and conducting the exercises. A still more popular character will be given to the second meeting in the evening, when addresses by several speakers will be given, discussing in order different parts of Eliot's work.

For several reasons the Eliot church, as it is memorably named, is especially well adapted for the place of celebration. In its architecture it embodies the most definite expression of the Eliot idea with which the Newton region is imbued. Among noticeable features contained in it is a large stained-glass window, showing a design wherein appears the figure of Eliot preaching to a small company of Indians in an open wood. This window was received by the church as a gift from Mayor Henry E. Cobb, who presented it as a memorial to his parents. About fifteen minutes' walk from the church is the hill on which Eliot, coming from his Roxbury parish, first addressed the Indians on the subject of Christianity. "Thus saith the Lord God, 'Come from the four winds, O breath, and breathe upon these slain that they may live'; these were the words which Eliot took from the text from which the apostle preached. His hearers, after the meeting, said that they were not weary, although the exercises had lasted three hours, and that they had been in tears during the sermon. Why the prayer should have been in English was what puzzled them, they frankly admitted, but they had understood all about the Ten Commandments, the great law of God, and the greatness of God, as explained by the preacher in the Indian language, which he had previously employed one of the tribe to teach him. These Indians are generally believed to have been a subdivision of the once-numerous and powerful tribe of the Massachusetts, among whom Waban was their chief man."

The additional celebration, to be directed by the civic authorities, will complete the series. This is the first of many similar undertakings. Its date, Nov. 11, answers to that of the second of those early Indian religious gatherings when Piamobuh, the next man after Waban to be brought under the influence of the gospel—who served later as a religious as well as a civil—came to the meeting bringing many Indians with him. At this civic assemblage next month, Hon. William Everett of Quincy will deliver the principal address. On new subjects is the material more complete than on this. Full reports of this early work among the Indians, which received liberal support from England, were sent to that country and published.

A true portrait of John Eliot probably never existed, as no authority can be given for claiming the existing portrait, familiar by reproduction, is a correct likeness.

One of the representations of the missionary addressing the Indians constitutes the design of the seal of Newton. Some of this community Eliot is the great central figure in local history. The fact is not always recognized that Waban was indispensable in the shaping of this unique panorama of colonial life. Although not a sachem by birth, Waban appears from all the records to have been easily a leader. He married into the royal family. At Natick, founded by the "praying Indians" in 1661, whence Waban removed with the Nonantum community, he was the ruler during life. In him Eliot had beyond question the strongest of allies in his efforts for bringing the Indians into a state of civil society. The first laws to regulate aboriginal life in this country were established at the Nonantum settlement.

Another celebration of the anniversary will be a competition of the Newton High school for several prizes offered in the different grades for the best essay on John Eliot. A committee made up of the superintendent of schools, George L. Aldrich, Rev. F. B. Hornbrooke and Miss Abbie L. Bates, a teacher in the high school, will serve as judges in the contest. Meetings of the children, at which addresses will be given, are also being arranged. These eager investigators leave little on the Newton Public Library shelves that can aid their research.

The chief object of these meetings, of course, is educational; but the leaders are not without hope that interest may be awakened on the subject of a monument to Eliot's memory.

Italian Shanty Raided.

The police made a successful liquor raid at the Italian shanty at Woodland, Sunday afternoon. Two policemen dressed themselves as laborers and obtained entrance to the shanty. They bought 12 bottles of beer, after which one left the shanty and summoned assistance. On the arrival of the wagon the shanty boss, Paolo Vitale, was arrested on the charge of illegal liquor selling, and three other men were placed under arrest for drunkenness. Fifty-four pint bottles of beer were seized.

In the police court Monday morning Paolo Vitale, a boss of the Italian shanty at Woodland, was charged with illegal liquor selling. Patrolman Painter of division of tested that in company with Patrolman Condrin he went to the shanty Sunday afternoon disguised as a tramp, and purchased 12 bottles of beer of the defendant. Sgt. Purcell testified that the place was a common nuisance. The defense was a general denial. Vitale was found guilty and fined \$50.

Single Tax and Hard Times.

The Newton Single Tax Class and Club held its first meeting of the season Tuesday evening at 230 Bellevue street. The meeting was opened with the following pertinent quotations from Progress and Poverty:

"Given a progressive community, in which population is increasing and one improvement succeeds another, and land must constantly increase in value. This steady increase naturally leads to speculation in which future increase is anticipated, and land values are carried beyond the point at which, under the existing conditions of production, their accustomed returns would be left to labor and capital. Production, therefore, begins to stop. Not that there is necessarily, or even probably, an absolute diminution of production; but that there is what in a progressive community would be equivalent to an absolute diminution of production in a stationary community—a failure in production to increase proportionately, owing to the failure of new increments of labor and capital to find employment at the accustomed rates. This stoppage of production at some points must necessarily show itself at some points of the industrial network, in a cessation of demand, which would again check production there, and thus, the paralysis would communicate itself through all the interlacings of industry and commerce, producing everywhere a partial dis-jointing of production and exchange, and resulting in the phenomena that seem to show over-production or over-consumption, according to the standpoint from which they are viewed."

The period of depression thus ensuing would continue until (1) the speculative advance in rents had been lost; or (2) the increase in the efficiency of labor owing to the growth of population and the progress of improvements had enabled the normal rent line to overtake the speculative rent line; or (3) labor and capital had become reconciled to engaging in production for smaller returns. Or, most probably, all three of these causes would co-operate to produce a new equilibrium, at which all the forces of production would again engage, and a season of activity ensue; whereupon rents would begin to advance again, a speculative advance would again take place, production would again be checked, and the same round be gone over."

While the great masses of men want more wealth than they can get, and while they are willing to give for it that which is the basis and raw material of wealth—their labor—how can there be over-production? And while the machinery of production wastes and producers are condemned to unwilling idleness, how can there be over-consumption?

There is, with the desire to consume more, there co-exist the ability and willingness to produce more, industrial and commercial paralysis cannot be charged either to over-production or to over-consumption. Manifestly the trouble is that production and consumption cannot meet and satisfy each other.

Certainly not of speculation in things which are the products of labor—in agricultural or mineral productions, or manufactured goods, for the effect of speculation in such things, as well shown in current theories that spare the necessity of production, is simply to equalize supply and demand, and to steady the interplay of production and consumption by an action analogous to that of a fly-wheel in a machine.

Therefore, if speculation be the cause of these industrial depressions, it must be speculation in things not the production of labor, but yet necessary to the exertion of labor in the production of wealth, of things of fixed quantity; that is to say, it must be speculation in land.

That land speculation is the true cause of industrial depression, is, in the United States, clearly evident. In each period of industrial activity land values have steadily risen, culminating in speculation which carried them up in great jumps. This has invariably followed by a partial cessation of production, and its correlative, a cessation of effective demand (dull trade), generally accompanied by a commercial panic, and then has succeeded a period of comparative stagnation, during which the equilibrium has been again slowly established, and the same round has been run again.

This relation is observable throughout the civilized world. Periods of industrial activity always culminate in a speculative advance of land values, followed by symptoms of checked production, generally shown at first by cessation of demand from the newer countries, where the advance in land values has been greatest.

Papers were read on the subject of the Cause of Periodical Hard Times, showing that of speculation, the admitted cause, there are three kinds.

1st. Speculation in things purely the product of labor, changing constantly and not cumulative in its effect.

Missionary Society Anniversary.

At the 50th anniversary of the American Missionary Society, now being celebrated at Boston, many Newton people have been present at the services.

Yesterday Hon. Thomas L. Weston of this city spoke in behalf of the Congregational Education Society and said:

For the magnificent results your association has accomplished during the past fifty years—fifty years that have been so eventful in the history of our nation, in the progress and advancement of God's kingdom on earth, and in which you have performed such a part, there are none of the benevolent organizations of our denomination that bring you warmer or more hearty congratulations today than the Congregational Education Society. We are an older organization than you, our work has been 80 years of effort for an educated ministry, 23 years in building colleges and academies, in the West, 17 years in endeavoring to wipe out the blot that had settled in and about our territory of Indian. Our work in Christian education has been so similar that on this jubilee occasion we can fully appreciate the great difficulties you have so successfully surmounted and your splendid achievements that today are acknowledged and recognized over the whole of this broad land.

Our denomination has always stood for piety coupled with sound learning; this was the combined influence of which came our government and our institutions which have developed into the magnificent proportions we see and enjoy today, and which have spread from these Massachusetts shores to the Pacific, and from the lakes on the North to the great gulf on the South. It is, however, the crowning glory of your association that has far back as 50 years ago, the men who organized your society with prophetic vision, foresaw the day when the four millions of slaves and the one-half million of Indians would become citizens of our institutions upon equal rights and opportunities with the descendants of the cavaliers of Jamestown and the Pilgrims and Puritans of Massachusetts. They alone seem to have appreciated the fact that to fit these new classes for the responsibilities of citizenship they must have the Gospel, united with the advantages that education always brings.

The fact that our institutions upon equal rights and opportunities with the descendants of the cavaliers of Jamestown and the Pilgrims and Puritans of Massachusetts. They alone seem to have appreciated the fact that to fit these new classes for the responsibilities of citizenship they must have the Gospel, united with the advantages that education always brings. The fact that our institutions upon equal rights and opportunities with the descendants of the cavaliers of Jamestown and the Pilgrims and Puritans of Massachusetts. They alone seem to have appreciated the fact that to fit these new classes for the responsibilities of citizenship they must have the Gospel, united with the advantages that education always brings.

In this jubilee celebration the whole country, without distinction of party or sect, recognize the magnificent work that you have done for the negro, the Indian and the poor of our country. In the early history of your association, your first president, who, during his life, was one of your most conscientious and efficient supporters, has left a name with us fragrant with all that is great and noble for the helping of mankind, and, although another generation has come up since he passed away, his name is still regarded, not only in the place of his residence, but throughout the Commonwealth, as among her illustrious citizens, of those heroic days.

It is a suggestive thought that as we hear from time to time reports of the other great organizations of our nation, to note how all of them are concerned in uplifting of the people of every race, color or condition to a Christian life and a high educational standard.

We need to rally our forces and stand together as never before in loyalty to our denomination, carrying forward with all the ability God has given us all of these great objects of Christian charity, and, marching like a victorious army under different corps, all having the same great end in view, to win our country and the world for Christ and His dominion.

"Curfew Must Not Ring To-night." Mrs. Rose Hartwick Thorpe, who wrote "Curfew must not ring to-night," lives in a pretty frame cottage at Pacific beach, near San Diego, Cal. When asked recently to tell how she came to write the poem that has made her famous, she replied: "I cannot remember when I did not write poetry. I have done so ever since I was a child. My mother did not approve of my writing; in fact, she discouraged it. One day, after school, I went to my mother's room and was studying the historic period of which I was to write in my poem, and the incident impressed itself so strongly on my mind that I felt I must write about it. I was about half way through when my mother came in, saying a young friend had come to spend the afternoon and take tea with me. In great distress, I called out, 'Oh, mother, can't she wait a little while?' My mother, thinking I was solving a hard problem in arithmetic, said she would amuse my friend till I could leave. At last I finished it and put it away. Two or three years later I wanted a poem for publication in a Detroit paper for which I had been in the habit of contributing short poems gratuitously. I was unable at the time to write, as usual, an original poem for the next issue, so I looked over my papers, found this one, which I decided to send, though doubting its acceptance, as it was so long. A day or two afterward I received a note from the editor, complimenting my last contribution highly and prophesying for it great and immediate success."

This Doesn't Apply to Women.

Daughter—Papa, what does this 16 to 1 mean? Mother interrupting—It means that every where you go you will find 16 people talking politics to one who isn't—Truth.

When any part of the body isn't doing the work that nature intended it to do, it puts the whole system out of tune—out of harmony. When all of the parts do not work well together, none of them can work just right. Sickness in any part of the body is likely to run into all parts of the body. It isn't necessary to be sick all over the body, in order that you may feel sick all over. When children stand a row of bricks on end, they knock them whole row down by upsetting one brick. That is exactly what happens to the health when the bowels fail to perform their proper function. Constipation makes trouble all along the line—puts the liver out of order, is bad for the kidneys—bad for the stomach. It holds in the body poisonous matter, and because it cannot go any place else, it gets into the blood. The blood carries it all over the system. That makes sluggishness, lassitude, bad breath and foul taste in the mouth, fills the stomach with gas and causes windy belching, stops digestion in the stomach, causes sour stomach, heartburn and flatulence. It makes pimples and blotches and causes sick and bilious headaches. Nine-tenths of all human ailments are due to this one seemingly trivial cause. Dr. Pierce's Pleasant Pellets cure constipation. They really cure it. No body becomes a slave to the use of the "Pellies." They cause no gripping and are as mild as they are efficient. At any drug store. Look out for the druggist who tries to sell you something which he says is "just as good." There is nothing just as good. There is nothing that is nearly as good. Anybody who tells you there is is mistaken—or worse.

THE BANK LOT TO REMAIN.

The bank lot will continue to obstruct
Washington street, to the great regret of all
who have occasion to use that street, and
also of all who are interested in the ap-
pearance of that section of the city. It is
perhaps noteworthy that the few remon-
strances that have been received have
come from people on the south side of the
city, who are naturally not much inter-
ested in this part of Newton. As was said
at the hearing, the bank will occupy the mid-
dle of the street and will be a monstrosity
in that location. The more handsome and
costly the building, the greater the objec-
tion, as the cost will prevent its removal in
the future.

The argument that its seizure by the city
would wipe out a large amount of taxable
property was an extremely foolish one, as
the banks would not remove from Newton
and would have to build somewhere, so
that no taxable property would be lost.

It is conceded that the whole business has
been mis-managed from the start. Before
the banks removed their building and se-
cured plans for a new one, they were
ready to take a fair amount for the prop-
erty and made this known, but they were
told that the city did not want it, and noth-
ing more was done till the banks had
moved away their old building, secured
plans for their new one, let their contracts,
and the work was actually begun. Then
the people woke up to the situation, but it
was rather late in the day. Still, the city
council stated their willingness to appropri-
ate a certain sum for the work, if they
could be assured that the cost would not
be largely in excess of that sum. They
would have appropriated \$25,000 and prob-
ably even \$35,000, if they could have had
any guarantee that that would have been
sufficient. But no such assurance was
given. The banks threatened a law suit,
the contractor did the same, and made such
large claims for damages that the council
were frightened at the expense that would
be entailed upon the city by the seizure of
this property, and hence the scheme has
been defeated. The council can hardly be
blamed for refusing to act blindly in such a
case.

It is unfortunate for the city and also for
the banks themselves, as they really would
have been better off with their building in
some other location. It will be a necessity
now for one of the railroad tracks to run
around the bank lot, and any one who has
experienced the nuisance of the grinding of
car wheels on a curve will not envy the
bank people their location. The cars will
also prevent the stopping of a carriage near
the bank grounds, which will be unpleasant
for many of their customers, but they prob-
ably have taken all these things into con-
sideration. One thing is in their favor and
that is that not even a blind man can help
running up against their building, so that
every one will know where the banks are.

With only one track in front of the bank,
next to the curbing, there will be a fairly
wide space for teams on the other side, and
Hall street and the new bridges at Centre
place and at Richardson street, will take
off some of the traffic, so that teams can
get through, even if at some inconvenience.
The defeat of this plan probably puts an
end to any other expensive schemes for
street widening or other things for some
years at least, which will be a fortunate
thing for the taxpayers. With the present
tax rate and city debt, it is certainly high
time that a rigid economy was exercised in
all city expenditures, and the postponement
of any costly improvements to a more
convenient season.

THERE has been some discussion in re-
gard to city politics, although things will
not get warmed up until after the state and
national election. An effort is being made
to have an entire new deal in the board of
aldermen with perhaps one exception.
The ticket as proposed is ex-Alderman
Coffin for Ward One; Chas. T. Pulsifer for
Ward Two; ex-Alderman Johnson in Ward
Four; Alderman White in Ward Five; ex-
Alderman Mason in Ward Six, and ex-
Alderman French in Ward Seven. This
would be an excellent ticket, but several of
those mentioned refuse to be considered as
candidates. Whether sufficient pressure
could be brought to bear to induce them to
consent is the question. As for the
mayorality candidate the outlook is uncer-
tain. The difficult questions that have
come up during the year have aroused a
good deal of opposition to Mayor Cobb,
and there has been strong pressure brought
to bear upon ex-Mayor Bothfield to consent
to run again. But as he is a believer in
the second term theory, which has always
been followed in Newton, he has refused
to even consider the matter, and has said
that in consideration of his pleasant per-
sonal and official relations with Mayor
Cobb, it would not be honorable for him
to listen to such a suggestion. Whether
the opposition can concentrate upon any
other candidate is an interesting question,

that will have to be answered in the Re-
publican convention. The citizens are ex-
pected to run ex-Alderman Roffe again, but
nothing has been decided definitely. The
greatest opposition to Mayor Cobb is said
to come from Wards Five and Six.

STATE TREASURER SHAW'S letter to the
Worcester & Suburban Street Railway,
asking them to contribute to the Republi-
can campaign fund one-tenth of 1 per cent
of its gross earnings, has stirred up quite a
breeze, and the question is asked whether
he wrote similar letters to other street
railway companies? But the state treas-
urer is said to be a large stockholder in the
Worcester street railway, and he probably
wrote as a private citizen. But this raises
the question why if street railways can
afford to contribute to political campaign
funds, they should not be made to con-
tribute something for their franchise? They
add immensely to the cost of caring for
the streets, and yet they have a free
gift of the public highways for their
tracks.

REV. DR. MCKENZIE of Cambridge is
not much of a believer in political sermons.
He told the Methodist ministers at their
Boston meeting on Monday, that if the
church is losing its hold on people, if men
go to church less than they used to do, it is
because the ministers preach too much
about the latest theory of evolution, the
author of the Pentateuch and political
theories. He said he would not give ex-
perience for any minister's system of political
economy, and that it was ridiculous for a
minister to try to instruct his people who
knew more than he did on such subjects.

THE extraordinary increase in state ex-
penses is attracting attention, and gives
rise to the suspicion of gross extravagance
in state affairs. The ordinary expenses of
the state have increased from \$1,510,124 in
1884 to \$3,365,175, in 1895. Thus it will
be seen that Massachusetts is afflicted with
the same spirit that has controlled the
national expenditures. The people always
have to pay the bills, in one form or an-
other, when public officials make an ex-
travagant use of public funds.

A TRANSCRIPT writer had a very inter-
esting article on the wheels for '97, last
Saturday, but he drew a good deal upon
his imagination. His statement that the
Pope company would put a chainless
wheel on the market, next year, was a great
surprise to the officials of that company, as
they have had no such intentions. They
have been experimenting with a chainless
bicycle, but do not regard it as a success,
as yet.

COMPLAINTS at the accommodations
offered Newton patrons by the Boston &
Albany are growing more bitter every day.
Waiting for morning trains on an unpro-
tected platform, with no chance to buy
tickets, and with the long flights of stairs,
is not pleasant, certainly, and the great im-
provement is causing even greater incon-
venience. No wonder that the electric
cars are crowded.

ALDERMAN WHITE was mistaken in
asserting that Mayor Bothfield opposed the
taking of the Newton bank lot. He ad-
vocated taking land on the other side of the
street, and for that reason said the taking
of the bank lot was unnecessary. On the
question of taking the lot as things now
stand he was in favor of it.

AUBURN street is the latest applicant
for widening, and if the abutments give the
city may do the rest, but hardly other-
wise. Since the bank lot failure, other
widening schemes will not receive much
support.

We have got Tremont and Park street
widened, anyway, and that is of more im-
portance than the seizure of the bank lot.

ment and so place Massachusetts on the

NONANTUM.

—John Lovely of Nonantum, who is
wanted by the Watertown police for the
larceny of a team in that place some time
last month, was arrested by Officer Lucy
last evening and turned over to the Water-
town officers.

—On Saturday last the P. S. A. Society
gave a free concert in the North Evangelical
church to a very large and appreciative
audience. Dr. D. W. Stearns presided. A
violin solo was given by T. Whitehead; a
cornet solo by T. Halpin; C. Redman sang
"The Pilgrim of Love," and "Answer," and
"The Banks of Allan Water." Songs
were also given by Mrs. Timson, Miss
Chapman, J. Turner and N. Dempsey.
The readings of J. Peacock and T. Wilson
were highly appreciated. Miss Peacock
and Mr. Wilson accompanied the songs on
the piano, and Mr. Dempsey accom-
panied the instrumental selections. The
Rev. Daniel Green in a few remarks,
thanked the performers for their kind ser-
vices.

LETTER FROM HON. J. R. LEESON.

WHICH WAS READ AT THE DINNER GIVEN
BY MR. E. L. PICKARD.

The following letter was read at the
dinner at the Woodland Park Hotel, given
to Mr. E. L. Pickard:

226 Devonshire street,
Boston, Oct. 13, '96.
Mr. Edward L. Pickard,
Auburndale, Mass.

My dear Sir:—Your very kind invitation
to dine with you this evening at the Wood-
land Park Hotel, has reached me, and I re-
gret my inability to avail myself of the op-
portunity to be present on an occasion
which will, without doubt, be most agree-
able.

The citizens of Newton, as well as of the
State generally, are fortunate in having
nominated representatives to the General
Court, who will give to the matters which
will be presented for their consideration,
mature judgment and care. It has long
been my conviction that no higher service
can be given to this commonwealth than by
an intelligent discharge of the important
duties devolving upon the House of Repre-
sentatives of our state in its legislation. There
is a wide spread feeling amongst well in-
formed citizens, that all countries where
representative governments exist are
suffering from too much law, as well as
from crude and ill-considered legislation.
Legislators would seem to have concluded
that positive results are chiefly to be aimed
at, and not that a primary aim in the con-
struction of laws should be rather the re-
straining influence upon the many evil
tendencies which are developed in the
complicated conditions of our present
civilization. There are some leading prin-
ciples which it should seem will always be
the guide of the wise legislator, such as,
for example, Mr. E. L. Pickard, the propo-
sition that no purpose sought by legislation
which may be accomplished without legisla-
tive aid, by the individual or community,
should be sanctioned.

We are stimulated by reading of the
chivalrous deeds of crusaders and active
combatants on the field of battle in ancient
and modern times, but it is well known by
every man who has been subjected to the
insidious and persistent efforts of those
sleek and wily representatives of corporate
interests, who are constantly besieging
legislators to accord measures which do not
run parallel to the highest interests of the
community as a whole, that a law maker of
today has just as many opportunities for
the exercise of self-denial and courage of
the highest order than any called for in the
more stirring scenes of physical strife,
where the excitement of the occasion has a
sustaining force not known in the quiet
retreat of the lobby or committee room.
That your forceful Mr. Hayward, and
yourself will be fully equal to these ex-
acting demands which will be sure to be
made upon you, none of your friends can doubt.
I therefore most heartily congratulate not
only you, but also the state upon the
nominations, which have made the occasion
to which you have so courteously invited me,
possible. Again thanking you for your
present invitation, I am,
Yours faithfully,
J. R. LEESON.

Keeping Her Watch in Order.

[From the Detroit Free Press.]

They were sitting chocolate at a cafe and
talking of watches.
"I have carried my watch for 10 years,"
said the senior member of the party, "and
it has never cost me a penny for repairs."
"Mercy," exclaimed another one, "how
did you manage?"
"I took care of it. You know men are
always making disagreeable remarks about
women's watches, and when my husband
gave me mine he said it would probably be
out of order most of the time. And I just
made up my mind to show him that there
was one woman in the world who knew
how to take care of a watch."
"But have you never lost it or had it
stolen?"
"Never. I dropped it several times at
first, but it didn't show any marks."
"But do the works never get out of
order?"
"The what?"
"The watch—inside. Have you never
broken the mainspring?"
"I never look inside."
"But how do you wind it?"
"I don't wind it. That's how I take care
of it and keep it nice."
They all stared a moment. Then they
said "Oh, you clever thing," and adjourned
sine die.

—M. J. French of the Newtonville Trust Company has leased the Valentine house, formerly occupied by Mr. Chandler Holmes, Walnut place. He took possession this week.

—Work on the new Masonic block is progressing slowly on account of delay in securing terra cotta. The building will be a model of its class and a fine addition to the business property.

—Mr. W. G. Hambleton and family have taken up their residence on Highland park. Mr. Hambleton occupies the position of chorister and organist at the new Methodist church in Brookline.

—Fresh lot of Ferris Hams & Bacon just received direct from F. A. Ferris & Co. New York. We can give you canned goods at very low figures, Newton Public Cash Market, 413 Centre street.

—Prof. Monroe will open an advanced class in dancing for juvenile pupils in Denison Hall, Monday afternoon, Nov. 2, at 4.30. A beginners' class will also be formed provided enough pupils can be secured.

—Miss Mabel Folk was tendered a surprise, Tuesday evening, at her home on Austin street by a large number of young friends. Progressive whist, music and a collation were features of the evening's program.

—A regular convocation of Newton Royal Arch Chapter, F. & A. M., was held Tuesday evening. The work was that of the mark-master's degree. There were eight candidates. After the ceremonies the brethren assembled in the banquet hall, where a collation was served.

—The memorial windows for the Methodist church arrived this week and nine have been taken by the following persons: Parker, Johnson, Carter, Soderstrom, Hine, Anderson, Rummer, Brigham and Simpson. The windows from the firm of Spence, Moakler & Bell are especially handsome. The work on the church will be soon completed and the church will be rededicated Sunday Nov. 1.

—Clothesline thieves made a wholesale raid Saturday night. H. H. Cobb, J. E. Davis, H. B. Schoff, C. B. Wheeler and Dr. W. O. Hunt reported at police headquarters that various articles of clothing were stolen from their closets. The police think E. has the property stolen is about \$100. Nearly a score of similar cases have been reported from Newtonville during the past two weeks most of the clothing being found later, thrown away. The police think that the thefts are the work of an insane person.

—A very difficult piece of work has been accomplished here this week, that of laying immense sewer pipes under the B. & A. tracks at Worcester street. The sections of iron pipe weighed over eight tons each and were placed in position, at least 25 feet below the level of the old road bed. The job was one requiring great skill; in fact, it is the biggest undertaking of the kind in the history of the city, the conditions surrounding the successful carrying out of the task being such that even men, experienced in that special line of work, were not over sanguine of its satisfactory fulfillment.

—A business meeting of the Newton club was held at the clubhouse Saturday evening. President Samuel L. Powers presided and a committee was appointed to nominate a list of officers to be voted upon at the annual meeting in January. The committee included J. T. Lodge, J. L. Richards, E. C. Johnson, H. G. Pearson, F. J. Hale, W. H. Coolidge, J. H. Wheelock. President Powers spoke of the excellent financial condition of the club, and said that the membership had increased and at present numbered 425. Remarks were also made by Mayor H. E. Cobb, Edwin T. Fearning, W. H. Coolidge and G. T. Coppins.

—Rev. Ira A. Priest is to be heartily congratulated on his recent good fortune. Rev. Mr. Priest has received a most flattering call, and also accepted it, with a large salary attached to the Universalist church at Akron, Ohio, where the former pastor was the Rev. C. Ellwood Nash of Newtonville. It is a rather singular fact that three of the most able ministers of the Universalist church here and are now occupying very high positions in the West and New York. Mr. Priest is proving no exception and is surely following in their footsteps. Rev. Mr. Priest and family left this week for their new home.

—Newton will be represented this season in the new "glit edged" bowling league which has adopted a long name, that of the Massachusetts Amateur Bowling League of Boston and vicinity. It will be made up principally of the clubs that first brought the sport into prominence into New England through the introduction of standard and scientific conditions for rolling. It will bring into prominence again the social features which were intervened with the sport when the Massachusetts league was smaller and more select than at the present time. The Newton Club team promises to be a good one and may include some of the men who made the game a notably fast one in the past with record-breaking scores, both in single, three-string individual and team totals. The B. A. A. will be represented by five men of experience and there will be, of course, some familiar faces. It will include its made-up Warren Hill, "Bee" Lamb, Lodge and possibly George Smith

who for several seasons was captain and high roller of the crack Casino team.

—Mr. Edward Dexter has returned from Stoughton.

—Mrs. Alexander Chisholm of Washington park is seriously ill.

—Mr. H. A. Wheeler of Mill street has erected a fine greenhouse on his estate.

—Mr. F. S. Rollins and family have returned from their summer home at Nantucket.

—The regular meeting of the Newton Royal Arch Chapter was held Tuesday evening.

—Mrs. M. A. B. Allen of Washington terrace has returned after a week's stay in New York.

—One trial of Towne's glit edged butter will convince you that it is superior to anything you have ever used.

—M. Sinclair Williams has rented John R. Smith's house on Crafts street, to Mr. J. W. Down of Springfield, who is to move to this city at once.

—Shoe buyers attention is called to C. C. Clapp's 10 days special sale advertisement, which appears on this page, and should be carefully read.

—Mr. H. A. Bosworth, whose hack can always be found at the depot and whose services can be relied upon, wishes to call attention to his adv. on this page.

—There are letters in the postoffice for Katie Burns, F. F. Carpenter, E. W. Colburn, J. M. Curtis, Royal S. Howe, Julia Hurley, W. F. Keith, E. H. Powers and Johanna Quinlan.

—A Eugene Bartlett, of Tufts Divinity school, a former resident of this city, will preach in the Universalist church, here, next Sunday. Mr. Bartlett is at present in charge of the Marion parish.

—The Kings Daughters, connected with the Methodist society, will hold a cake and candy sale at the home of Miss Mabel Hall on Brooks avenue next Wednesday afternoon and evening from 3 to 10.

—An alarm from Box 23 this noon caused a demonstration of the fire department in the vicinity of Newtonville avenue, but much to the disgust of the fire ladders, the expected blaze was only an ash barrel.

—Our readers should note the proposed auction sale of house furnishings, odds and ends which Mr. G. H. Loomis announces in our column to occur on the 31 of Oct. It affords an opportunity for householders to dispose of their out-of-date and over supply without sending them to the city.

—Mrs. W. F. Kimball will give an entertainment on Thursday, Oct. 29th, at her home on Harvard street, consisting of an Entertainment Library which will be open from 2.30 to 4.30, at which time two prizes will be awarded for the best list of books. Light refreshments will be served. Admission 25 cents. Proceeds for the Universalist Sewing Circle Fund.

—The Newtonville Women's Guild met in Denison Hall on Tuesday afternoon. Madame Strong and her son played a selection from Liszt in a most acceptable manner. Memorial tributes to members who have passed away during the year were read by Miss Worcester, Mrs. Hayden and Mrs. Winfield Slocum, and historical sketches of fascinating interest were given by Mrs. Benner and Mrs. George Kimball.

—The bridge over Walnut street will not be completed as soon as planned. There has been an unavoidable delay because of inability to secure portions of the face stone with the degree of promptness expected. The abutments, however, are rapidly assuming proportions and in a few weeks, perhaps, the dangerous grade crossing will be a story of the past, one unfortunately associated with tragic incidents involving loss of life and the accompanying sorrow that has left its trace in not a few homes.

—A meeting of the executive board of the Newton Federation of Women's clubs was held Monday forenoon in the parlors of the New church on Highland avenue. Plans for the winter's work were made. It was decided that the first public meeting, under the direction of the educational committee, should be held Tuesday afternoon, Nov. 3, in the Congregational church at Auburn-dale. An address will be given by Mr. Thomas M. Balliet, superintendent of schools, in Springfield, on "Manual Training in the Public Schools." It is hoped that arrangements will be made for a series of lectures to be delivered on educational subjects during the coming season. Several prominent gentlemen, including Prof. Elliott of Harvard and Dr. McAllister of Drexel Institute at Philadelphia have promised their assistance.

—Mr. and Mrs. Ernest Boyden of Edinboro street returned Tuesday evening from a trip with an Appalachian Mountain party. Sixty members of the club in a special car from Boston went to Camp-ton, N. H., by train, taking mountain carriages thence to Elliotts Hotel, Waterville. The autumn foliage was glorious, the party a congenial one of nature lovers, and the summits of Mt. Osceola, Tecumseh, Noon Peak, Sandwich Dome, Trip pyramid and others were gazed by the sturdy climbers. Mr. John E. Alden, Mr. and Mrs. J. W. Barber of Newton, Mr. and Mrs. W. L. Chaloner of Newtonville, Miss Isabel Hatchelder, Mrs. H. M. Tower and Mr. and Mrs. W. M. Grubbe, of Cambridge, and Mr. and Mrs. Wells of Watervort were members of the happy party. Mrs. S. W. Barber, Mr. and Mrs. Chaloner assisted in the evening entertainment of the day, tramping over the hills. Mr. Boyden made a most worshipful Chinese idol in one of the charades, and Mrs. Boyden played charmingly for the indulgence of the all-inclusive Virginia Reel. The winter trip the Appalachians is to be made in February as usual.

WEST NEWTON.

—Miller pianos, Farley, Newton.

—Mrs. Seeton has rented the suite in Walton's block on Chestnut street.

—The young men expect to participate in a torchlight procession this evening.

—Somers the tailor, 149 A Tremont St., Boston, makes a specialty of fine woolsens at moderate prices. 51 tf

—The Young People's Society of Christian Endeavor held a social in the Congregational church parlors, Tuesday evening. A collation was served and a most enjoyable entertainment presented.

—Prof. Monroe will open an advanced class in dancing for juvenile pupils in Denison Hall, Monday afternoon, Nov. 2, at 4.30. A beginners' class will also be formed, provided enough pupils can be secured.

—Amidst all the upheaval in Newton it is pleasant to see a spot cleared of the wreck. The grounds around the new school house on Chestnut street have been finely graded and walks laid, making a most attractive appearance.

—A horse owned by Mr. Henry Crafts ran from in front of the store, Saturday, up Washington street turning into the yard between the Pierce school and the church. The driver was thrown out and severely bruised. The wagon was nearly demolished and the horse badly hurt.

—Clerk Henry L. Whitteley of the municipal court has completed the statistics of the court for the year ending Oct. 1, 1896. His records show that the total number of criminal cases brought before the court was 130, the largest since it was organized. Of these 657 were for drunkenness, 162 for disturbances, 120 for assault and battery, 60 for larceny and 38 for violations of the liquor laws. Forty-nine persons were arrested for drunkenness were discharged without arraignment. During the year 28

search warrants for liquor were granted, and in 19 cases liquor was seized.

—Mr. George M. Warren is spending his vacation in Pensacola, N. J.

—Mr. and Mrs. F. J. Churchill of Buffalo, N. Y., are the guests of friends here for a few weeks.

—The Joseph Allen house corner of Webster and Elm streets, has been leased to Mr. Payzant.

—Mr. Frank Elder and family have closed their house on Davis street, and will be away for the winter.

—Alexander Sweeney has resumed work after having been laid off for three weeks on account of illness.

—Mr. A. Trowbridge and family have taken apartments in the Jennison house on Washington street for the winter.

—The first public meeting of the Women's Alliance will be held in the Unitarian church parlors, Thursday morning, Nov. 5.

—Deputy Lady Edwards of Needham attended the regular meeting of the U. O. G. C., Thursday evening. Three applications were read.

—The regular meeting of the Women's Guild, connected with the Congregational church, was held Wednesday afternoon in the west parlor.

—A social was held last evening in the Baptist church parlors. Supper was served at six and a pleasant entertainment presented during the evening.

—The underpinning for Dutch's market, lately moved back, is nearly completed and the next building is already on rollers, preparatory to moving.

—The Ladies' Aid Society will hold a reception Monday afternoon in the Unitarian church parlors from 3 to 5. It is hoped that all members of the society will attend.

—Rev. E. W. Beers of Boston will give a lecture on "The Relation of the Blind to Organic Diseases," in the Unitarian church parlors on Wednesday, Oct. 28, at 7.45 p. m.

—It has been stated by those who have witnessed the torchlight processions in the different parts of Newton and surrounding areas, that the cost of the hill boys surpasses that of any other.

—Fresh lot of Ferris Hams and Bacon just received direct from F. A. Ferris & Co., New York. We can give you canned goods at very low figures, Newton Public Cash Market, 413 Centre street.

—The regular meeting of the Newton Ladies' Home Circle was held, Wednesday afternoon, Oct. 22, at 7.30. The Food fair as a society, next Wednesday, taking the 9.11 train from this depot.

—Tennyson Lodge, Daughters of Rebekah, gave a most successful hurdy hurdy party in Odd Fellows' hall, Tuesday evening. About 200 Boston capitalists were present, and the evening was enjoyed until a late hour. Refreshments were served during the evening.

—Boynton Lodge, U. O. I. O. L., will hold their regular meeting, Tuesday afternoon. R. W. S. G., Julia Burroughs, is expected to be present. Several candidates will be initiated and degree conferred. A collation will be served at close of business meeting.

—The large tract of land, consisting of 16 house lots located on Waltham street, and Warwick road, has just been sold through the office of M. Sinclair Williams. The purchaser is Boston capitalist, who will immediately develop the property, and erect several first class dwellings.

—The annual meeting of the Women's Alliance was held Thursday morning and the following officers elected: Miss M. J. Rogers, president; Mrs. F. F. Raymond, vice-president; Mrs. E. W. Spaulding, secretary, and Mrs. Edward Spaulding, treasurer. The reports were read by the various officers.

—The Fellowship meeting in connection with the 115th anniversary of the Second Congregational church, will be held this evening, Social hour from 5 to 6. Supper from 6 to 7.30. Services, including a roll in the chapel at 7.30. It is hoped that every member of the church will be present at the roll call.

—The West Newton Women's Educational Club held their annual reception, Thursday afternoon, at the home of the president, Mrs. E. X. L. Walton, on Chestnut street. Several hundred ladies attended, including many of the most prominent members of social and educational circles in Wellesley and the Newtons.

—John R. Hubbard of Natick was seriously injured in a bicycle accident on Commonwealth avenue yesterday morning. He was coasting toward Homer street when he lost control of the wheel and ran into a stone wall. His head was badly cut, and his right arm fractured. The wheel was demolished.

—A reception to the pastor was held in the Unitarian church parlors last Friday evening. Rev. and Mrs. Jaynes were assisted in receiving by members of the standing committee, and refreshments were served in the dining hall. The parlors and hall were handsomely decorated with potted plants and cut flowers. Music was furnished during the evening.

—The Boston & Albany had only one track in use between Newton and Auburn-dale Sunday evening, and traffic was considerably delayed in consequence. The grade of the temporary tracks at the new Putnam street bridge was raised to the level of the bridge, and a new grade crossing opened between Washington and Marginal streets. Highland street crossing will be closed next week until the completion of the new bridge.

—Mr. Geo. P. Staples, who some years ago purchased the Godfrey estate on West Newton hill, has begun the work of developing it into house lots. Some months ago he sold a lot on Highland street, to Mr. H. C. Nickerson, who has since constructed a house, now nearing completion, and has now sold another lot to Mr. Nickerson's father, Orin Nickerson, who will also erect a dwelling. Mr. Staples has begun the construction of a street, which will run through the estate from Highland to Otis streets, and thus open up for building purposes a considerable tract of desirable land.

—The final rally of the campaign, under the auspices of the Newtonville Bryan-Sewall-Williams club was held Wednesday evening at City Hall. An enthusiastic audience of more than 500 persons filled the hall, and greeted every allusion to the party candidates with rounds of applause. President Francis of the club called the meeting to order, and introduced Daniel J. Gallagher as chairman. Pierce Humbert, Jr., was the first speaker, and he was followed by Wm. H. Baker of Newtonville, candidate for congress from this district, who devoted himself mainly to the trusts, and the Republican treatment of the silver question.

It Was a Bargain.

(From the Chicago Post.)

"Those undershirts I bought here last month," he began.

"I remember it," said the clerk. "It was a great bargain. Do you find them warm enough?"

"They were warm enough when I first put them on, but I don't think to inquire about them this morning."

"Inquire about them?"

"Yes. Ever since they were washed the baby has been wearing them. Now, if you have anything that isn't so much of a bargain and is a little more likely to remain my size I'd like to see it."

A pleasant narrative. All Druggists.

High School Notes.

The Newton High school foot ball team went to Bridgewater Saturday and was defeated by the home team by a score of 8 to 2. Bridgewater made a touchdown in each half but failed to kick either goal. Chase made a safety in the second half.

The class of '97 have selected the following officers: President, Howard Hackett; Vice-president, Miss Childs; secretary, Miss Kelley; treasurer, Walter S. Waite.

Class '99 have started a class team with Ryan as captain. They will play their first game next week with the freshman team.

Miss McDuffey has been appointed by the school committee in the absence of Miss Ireson to instruct the girls calisthenic class. The drills are held in the assembly hall in the Pierce school.

The sophomore class has elected the following class officers: President, Sibley; vice-president, Miss Hollings; treasurer, Donald Howe; secretary, Miss Curtis.

The foot ball eleven played the Laurel A. C. of Cambridge, Wednesday afternoon at Newton Centre. The home team could not score against their opponents. "Jack" Andrews put up a good game for the home team, as did Chase, Duane and Burdon. The Laurels scored two touchdowns, one in each half, but kicked but one goal.

The Newton team put up a very good game. The summary:

LAUREL A. C.	NEWTON HIGH
Polly 1 e.	F. E. Andrews
Mellvain 1 e.	R. Wood
Abbot 1 e.	E. Kimball
Parks e.	E. G. Hatch

Wood.

Home for Aged People.

The undersigned think the time has arrived when some effort should be made to bring together all those who are, or can be induced to be interested in an aged people's home for Newton, that methods may be devised for establishing such a place.

For years the Associated Charities has felt that this need exists in our city, and now that cases of old people provisionally deprived of the proper care due to them, are increasingly brought to its notice, wishes respectfully to invite all those who would like to confer upon the matter, to meet at its office, room 7, Central block, Newtonville square, at 4.30 p. m., Thursday, Oct. 23.

We earnestly emphasize the need of representatives from every ward in the city being present at its meeting.

A. T. TWOMBLY,
Pres. and Vice-Pres., Newton Associated Charities.

What Discouraged Him.

(From the Chicago Post.)

The ambitious mother was disappointed and she showed it.

"He's worth not less than a million, she said to her daughter, 'and you let him get away from you.'"

"I couldn't help it, mamma," pleaded the daughter. "I gave him all the encouragement I could."

"Encouragement?" exclaimed the mother with a scornful, high, snuffing voice. "You forget that you let him see you in bloomers and a bicycle face. Cupid couldn't have stood that in Psyche."

A CHAPTER ON MISTAKES
Who is there who cannot say with truth, "The mistakes of my life have been many"? Well, what of it? This. Mistakes will happen. It is not characteristic of any particular class, but of all. Mistakes cause great inconvenience, disappointment, loss of money, loss of temper, loss of health, and many times loss of life. Cause late dinners and cause housewives to scold the grocer, the butcher, the baker, I believe it is an inherited trait. Adam and Eve made the first great mistake when they yielded to that wily old serpent, for his influence has followed every generation since. Well, in this month I have had goods shipped to the wrong station; I have had goods delayed somewhere just seventeen days; I have had goods sent me different from what was ordered; I have had errors in bills purchased involving many dollars; I have had bills sent me that had been paid. These are mistakes, and made by trained business men. However, I did not get excited over these trivial matters, but made them known to the parties and they were cheerfully corrected. This is in no sense of my clerks. They are good, faithful, and they are striving hard to please all. Every business cannot get their goods first. Wish they could. Our aim is to meet your wants as near as possible. But "to err is human." See how happy you will feel if you forgive. Do you know that Flour is rising? I told you it would if you would use "Cleveland's Baking Powder. It's the best made. Swansdown, Pillsbury's Best, Bridal Veil, Matchless, Columbia and Gold Medal Flour. As low as Boston. All going much higher.

witnessed by a large crowd that were
waiting for the torchlight parade. The
horse was going at a rapid gait when it was
struck by a ladder in the gas company's
work. It is thought that the ladder pen-
etrated the horse's breast for over a foot.
The animal ran up Dalby street a short
distance and expired. The rider was
thrown to the ground but escaped unhurt.

Shutting Saloons Opens Mills.

To the Editor of the GRAPHIC:
"Expediency is man's wisdom,
Doing right is God's." Geo. Meredith.

It pays Republicans and Democrats to
occasionally think under their own hats
and not take it second hand from Mark
Hanna or Wm. J. Bryan. Statesmanship
is no monopoly with either. One thing
they both ought to know is that hard times
prevail and the people are savagely discon-
tented. The statesman's immediate duty
is to find out what causes hard times.

Hon. David A. Wells says "that it's ex-
cess of supply and diminished demand."

That's right. Then what has gold and
silver got to do with it? McKinley says in
big letters, "I do not know what you think
about it, but I believe it is a good deal bet-
ter to open up the mills of the United
States to the labor of America than to
open up the mints of the United States to
the silver of the world."

That's right too. But how's shut mints
going to open up the mills? There's trans-
parent demagoguery somewhere, for Hanna
and McKinley until the political exigencies
of this campaign were crowded down their
throats by Lodge & Co. of the East, were
open silverites. Hard times are here right
in the teeth of an existing gold standard
which they now espouse under political
constraint. If gold can't prevent hard
times how's silver going to bring good
times? If gold can't, silver can't. It's
humbuggery, pure and simple, to talk it
either side. All Carl Schurz in his
great Chicago speech could offer was that a
"free silver policy would be only jumping
from the frying pan into the fire. The
people in both cases getting burned. Yet
Hanna and Bryan are yelling gold and
silver for all they are worth, even unto the
verge of revolution, and everybody's crazy
over it. The rich appear to be more des-
perate than the wage earners, judging from
the millions they are spending to down the
people's cry. Now the rich people have no
reason to complain. If their heads are
level they'll stop it. They have more
money than they need. They number 25
percent of the population, yet they pos-
sess seventy-five per cent of the na-
tion's wealth, estimated at some \$70,000,
000,000. "They are all right." But some-
thing's awfully wrong with the other
seventy-five per cent of the people, the
wage-earners. They do not have all the
money they actually need. They are in the
soup. One thing is dead sure, that they
have not money enough to blow into the
mills and support their families too. The
wage earners are "spending their money
for that which is not bread." Prof. G. B.
Waldron carefully computed the aggregate
cost of the drink traffic for the year 1890 at
\$1,218,415,113. Surely it's no small sum.
These gigantic figures silver and gold
or even tariff, "are not in it." In round
figures three hundred millions of hard
earned dollars are poured into the
nation's gin mills or twenty-five
millions every Saturday night. The gin
mills are robbing the wage earners of
\$3,000,000, annually, and what do the
wage earners receive in return? Read this
fearful category. Maniacs, imbeciles,
murderers, criminals, prostitutes,
disturbers of the peace, neglectors of
wives and children, paupers, blind, dumb,
deaf, and idiotic, and a host of others,
brains, powerless muscles and paralyzed
moral, physical and spiritual powers and
this all for depraved tickled palates and
diabolical merriment. If this isn't a mon-
strous swindle, what is it? The most
hopeless feature, is, that the average
American voter, votes to legalize these
scientific assassins with their murderous
business.

If this is so, then \$25,000,000 is every
Saturday night and \$1,300,000,000 every
year directed from the ordinary channels
of trade and dumped in the saloon sewer,
and forever gone from the people's reason-
able use. What does this mean too, to the
business community? The total wealth
produced in the United States in the same
year 1890 was \$13,640,931,890. Any school
boy can figure that one dollar out of every
eleven produced, was blown into the gin
mills that same year, and worse than
roasted in the nation's dump heap.

Now the producers ultimately pay all
bills of national waste. This is absolutely
and irrecoverably lost to the wage earners,
and pocketed by the beer and whiskey
barons. This is an outrageous tax of one
dollar on every eleven produced. The
farmer must harvest one acre out of his
every eleven acres, and the wage earners
must put in one day's work in every eleven
or his five full weeks in every year to keep
the gin mills shut. The capitalist must
pay one dollar out of every eleven he bank's
to support these pest holes. Taking the
thing straight this nation pays an annual
tax of nine per cent, of its vast production
power to maintain its legalized dram shops
which its own conservative Supreme Court
declares to be so dangerous to the public
health and morals, because chargeable
with the nation's worst record of vice, crime,
pauperism and misery, that no citizen has
an inherent right to sell intoxicating
liquors by retail, nor has any legislature,
nor even the citizen himself, the right to
bargain away the public health and morals.
Where does this solemn dicta and this in-
iquitous license system? It's clearly un-
constitutional. Such gigantic waste no
million can stand, and no citizen has the
right to sell intoxicating liquors by retail,
with its millions of hard drinkers reaping
these hopeless hard times because the
wage earners can't buy and beer, and
what the manufacturers and farmers pro-
duce, with their wages, and the farmers
and manufacturers are not business fools
enough to produce and make, if the wage
earners will not or cannot buy their pro-
ducts. Therefore any fool can see through
a hole, even in a grind stone, that open
saloons shut the mills. Fair wages cannot
gratify the gluttonous lusts and appetites,
and the reasonable necessities of the wage
earners' families, at one and the same time.
This is the naked truth. Why not face it?

Shut the saloons and you open the mills
at their greatest running capacity. \$1,300,
000,000 spent on depraved appetites every
year, and the nation's health and morals
preserved. This vast sum is saved to the
wage earners. Shut the 250,000 saloons and
business would hum, wages rise and not an
unwilling idle man would be found in this
nation. Every business man knows it and
ought patriotically to ignore the demag-
ogue's murderous tooth horn blast of gold
and silver, and put his vote to suppress the
dram shops.

Now what is the logical conclusion of
this bald statement of acknowledged cold
facts. Prof. J. J. McCook wrote in The
Forum, "I do not belong to the Prohibition
party, but everybody who can see must
know that considered merely as a question
of social economy of dollars and cents, of
tax bills and public convenience generally,
the drink question is the question of the
day."

Common horse-sense dictates that "the
saloon must go." Good times cannot come
until the saloon goes. When the saloon goes
this people becomes prosperous and happy.
The gold, silver and paper dollars that the
people earn must be saved by closing the
gin mills. It will be saved because it can't
be blown into the cancerous gin mills,
and forever lost to their families.

Why don't the so called political states-
men see this cause and effect? It isn't be-
cause they are blind, but it is because they are
cold blooded and won't. Why won't they?
Because the voters don't.

Who is blamed then for this vast iniqui-
tous waste and these hard times? You are,
voter, if you do not put your vote to sup-
press the saloon. The truth is, the politicians,
your several leaders and bull dozers
are more afraid of the saloon keeper and
his hordes than they are of you. He can
do nothing without you, yet he knows to a

dead certainty that you'll shut up whatever
of blunted moral susceptibilities you have
left, and go up to the polls in November
and vote his wicked ticket and actually
proclaim that "you are doing God service."
Mark Hanna and Wm. J. Bryan haven't
moral calibre enough to lead the moral and
Christian citizenship of this nation in the
war of extermination of the saloon.
Voting their tickets, votes for the Republi-
can, Democratic cowardly and immoral
policies of licensing the dram shop and
making it just as legal as the church,
school house and the home. Almost every
Christian voter thinks just as I do. God
doesn't care what you think, but He takes
cognizance of how you vote on this sinful
thing. 100,000 men are not going down to
drunkards graves every year, and 100,000 of
your young and innocent sons are not going
to begin the drunkard's life any year
without holding every Christian voter re-
sponsible for their blood. This traffic the
curse of curses and of the centuries was
born in hell. Its work is hellish. Its con-
sequences are fearful and eternal. The
combined Christian and moral vote of this
nation can annihilate it. What's your im-
mediate duty then?

The Prohibition party is the only antago-
nist of the saloon business in this land,
and you know it. Loving and Johnso-
n are its candidates for the presidency and
vice presidency. This you ought to know
too, but I'll bet half of you don't.

Loving is the only sincere gold candi-
date at heart before the nation today.
This is plain talk. It isn't bluff.

If I have stirred you to thinking my ob-
ject is accomplished, and when you soberly
think over it I know you'll want to vote to
kill this abominable thing rather than
foster and protect it for political purposes.
The saloons shut, the mills will open.

NOTICE OF STATE ELECTION, November 3, 1896.

CITY OF NEWTON.

ORDERED,

That meetings of the citizens of this City
qualified to vote for State officers are hereby
called in the several Polling Places designated
by this Board, on Tuesday, the third day of
November, 1896, for the election of fifteen electors,
being one for each congressional district and two
at large, of President and Vice-President of the
United States, a Governor, Lieutenant-Governor,
a Secretary, Treasurer, Auditor, Attorney-Gen-
eral, a Councilor for Third District, a Senator
for First Middlesex District, two Representa-
tives to the General Court for 10th Middlesex
District, a Clerk of Courts and one County Com-
missioner for County of Middlesex, a Represen-
tative in Congress for Eleventh District;
also to vote Yes or No on the proposed amend-
ment to the Constitution relative to
establishing Biennial Elections of State officers
and members of the General Court, (Chap. 71,
Resolves 1896.)

FIRST ARTICLE OF AMENDMENT.

"The governor, and lieutenant-governor, and
councillors, shall hold their respective offices
for two years next following the first Wednes-
day in the January succeeding their election,
and until others are chosen and qualified in
their stead."

The first election to which this article shall
apply shall be that held on the Tuesday next
after the first Monday in November in the year
eighteen hundred and ninety-eight; and there-
after elections for the choice of all the officers
before mentioned shall be held biennially on
the Tuesday next after the first Monday in
November.

All the provisions of the Constitution in-
consistent with the provisions herein contained are
hereby annulled.

The secretary, treasurer, and receiver-general,
auditor, and attorney-general, shall hold their
respective offices for two years, beginning with
the third Wednesday in the January succeeding
their election, and until others are chosen and
qualified in their stead.

A person shall be eligible as treasurer and
receiver-general for three successive terms, and
no more.

The first election to which this article shall
apply shall be that held on the Tuesday next
after the first Monday in November in the year
eighteen hundred and ninety-eight; and there-
after elections for the choice of all the officers
before mentioned shall be held biennially on
the Tuesday next after the first Monday in
November.

All the provisions of the Constitution in-
consistent with the provisions herein contained are
hereby annulled.

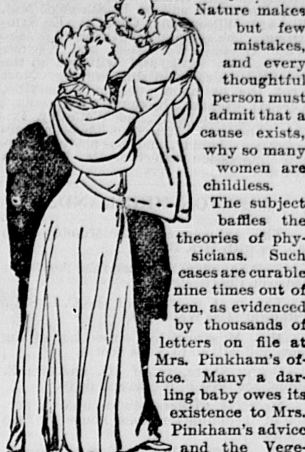

Senators and representatives shall hold their
respective offices for terms of two years, begin-
ning with the first Wednesday in the January
succeeding their election.

JOYS OF MATERNITY.

Vigorous Mothers and Sturdy
Children Are Always Admired.

Why so Many Women Are Childless—A
Problem That Has Puzzled Physicians
for Centuries.

Reproduction is a law of nature, and
no picture of joy and happiness can
equal that of the vigorous mother and
her sturdy child.

Nature makes
but few
mistakes,
and every
thoughtful
person must
admit that a
cause exists,
why so many
women are
childless.

The subject
baffles the
theories of phy-
sicians. Such
cases are curable
nine times out of
ten, as evidenced
by thousands of
letters on file at
Mrs. Pinkham's of-
fice. Many a dar-
ling baby owes its
existence to Mrs.

table Compound. This
is not to be wondered at when such tes-
timony as the following explains itself:
"I have taken three bottles of your
Sanative Compound, one package of
Venetian Wash, one box of Liver Pills;
and now I have a dear little babe four
weeks old, and I am well. I have to
thank you for this."

"I have been a victim of female
troubles in their worst form; suffered
untold agonies every month; had to
stay in bed, and have poultices applied,
and then could not stand the pain."

"My physician told me if I became
pregnant I would die. I had bladder
trouble, itching, back-
ache, catarrh of
the stomach, hys-
teria and heart
trouble, fainting
spells and leu-
corrhoea. Can
you wonder that
I sing the praises of
a medicine that has cured me of all
these ills?"—Mrs. GEO. C. KIRCHNER,

—Officer W. G. Bosworth attended the annual meeting of the Civil War Association at the United States Hotel, Boston, last week. Mr. Bosworth is, perhaps, one of the best known residents of this place and is this month rounding out his 15 years as a member of the association. He has an excellent war record, having served four years in the 1st Mass Cavalry. During part of this service he was confined in the confederate prisons of Libby and Belle Isle.
—A pretty wedding was that of Miss Ellen M. Parsons and Mr. Charles S. Cowdry of this place, which took place Wednesday afternoon, at the home of Rev. E. W. Clark, Westboro, Mass. Rev. Mr. Clark officiating. A number of the friends of the young couple were present to tender their congratulations and good wishes and the affair passed off pleasantly for all. Mr. and Mrs. Cowdry will continue to live in Auburndale and will occupy their new house on Owatonna street.
—At the home of the bride's parents, Mr. and Mrs. John G. Blaisdell, 122 Auburn street, last Wednesday evening, Oct. 21, their daughter, Florence Ethel, and George D. Allen of Newton, were married by the Rev. John Dutton of the Church of the Messiah. Only the members of the immediate family witnessed the ceremony. Miss Elena Skiff of Providence, R. I., was bridesmaid and Edward G. Blaisdell, brother of the bride, was best man. The parlors were prettily decorated with palms and pinks. The bride wore white brocade satin trimmed with duchesse lace and carried a bouquet of bride roses. Many beautiful and costly gifts were received. Upon their return from their wedding trip Mr. and Mrs. Allen will reside at Newton, Lee of the Woodland Park Hotel was caterer.
—About nine o'clock last Sunday evening a fire was made to burglarize the residence of Rev. Horace Dutton, at the corner of Woodland road and Hancock street, by entering the second story window by means of a ladder. The ladder was discovered, leaning against the window sill of her room by a domestic who also discovered a man proceeding up it. Upon her giving vent to her surprise the fellow slid down the ladder and ran away without leaving any traces of his identity behind him, further than a few foot marks. Upon investigation by the family the ladder was found to be one that had been left in the orchard, where apples had been picked the afternoon before. This is the second time Mr. Dutton has been called upon by burglars, the first time a number of years ago, an

Your Boy Won't Live a Month.

So Mr. Gilman Brown, of 34 Mill St., South Gardner, Mass., was told by the doctors. His son had Lung trouble, following Typhoid Malaria, and he spent three hundred and seventy-five dollars with doctors, who finally gave him up, saying: "Your boy won't live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to use of Dr. King's New Discovery, and knows it to be the best in the world for Lung trouble. Trial Bottles Free at J. G. Kilburn's drug store, Nonantum, and Bernard Billings, Newton Upper Falls.

THE CITY GOVERNMENT.

ONE OF THE SHORTEST MEETINGS OF THE YEAR—PETITION OF LOWER FALLS RESIDENTS FOR EXTENSION OF SEWER SYSTEM REFERRED TO THE NEXT CITY GOVERNMENT—\$2000 FOR MISCELLANEOUS EXPENSES.

One of the shortest meetings of the board of aldermen this year was that of Monday evening's. Mayor Cobb presided and six members were present.

At 7.50 the board was called to order and the adjournment took place a half hour later. It was moved that the reading of the journals be dispensed with. This was carried.

A petition was received from Robert J. Adams and four others asking that the position of a street lamp be changed on Norwood avenue.

L. J. Davis and others petitioned that Clark and Orris street be laid out and widened to 40 feet and called Newell road. Referred to the highway committee.

A communication was received from Miss Helen Noyes, daughter of the late Alderman Noyes, thanking the city government in behalf of her mother for their handsome floral tributes and their kindness and sympathy.

A permit was granted to Thomas Gain to remove a building from Appleton street to a position on the Commonwealth avenue boulevard.

The list of election officers appointed to fill vacancies caused by resignations received, came up for a second reading and was approved.

The Republican ward and city committee, in a communication to the mayor, gave notice of their intention to hold caucuses Nov. 10th, and asked that suitable polling places be provided. On motion of Alderman Tolman their request was granted.

David R. Darious asked that a name be given the court off Eliot street, at present unnamed, on which he resides, and found it difficult to address letters there and recommended the name of Eliot place. Referred to the highway committee.

J. J. Noble of Newton Centre asked that his 4th class liquor license be transferred. Referred to the license committee.

E. C. Newcomb's petition for a swinging clock sign over the front of his store was referred to the license committee.

The same action was taken with the petition of Richard Ringkink, who asked that he be granted a junkman's license.

H. H. Hunt asked that he be granted leave to locate a horse power engine on Webster street. A hearing on this petition for Nov. 16.

George Coyle was given permission to store 200 pounds of dynamite on the Putnam street extension.

An order was adopted for the laying out of Lewis terrace and allowing the residents three months to remove all obstructions in the path of the improvement.

On motion of Alderman Egan the petition of Peter C. Baker and others asking that the sewer system be extended to Lower Falls, was referred to the next city government.

The committee on sewers recommended that the petition of Elizabeth Ayles for a sewer on Webster street be granted.

Orders were presented for the laying of sewers on private land in Cold Spring, Ryan court and Webster street. These were adopted.

The highway committee reported in favor of the construction of sidewalks on Ward street, easterly from Waverley avenue.

The financial committee recommended the passage of an order adding \$2000 to the appropriation for miscellaneous expenses. This was adopted.

Orders were passed for the construction of sidewalks on portions of the following streets: Centre, Sumner, Gibbs, Exeter and Parker.

James Ford asked permission to construct a two story building, 48x65, containing two tenements and two stores, on Commonwealth avenue.

Alderman Downs moved the permit be granted. Mr. Ford was obliged to remove an older building to another part of his land and wished to replace it with this new one. He thought the building would be a desirable one.

Alderman Green said that the granting of such a permit would be a direct violation of the city ordinances. He refused permission to erect a building only a short time ago. That building was to contain stores and offices which would be less hazardous than stores and tenements.

Alderman towns said he understood that the building was to be 100 feet from adjoining property.

Alderman Allen said he had inspected the place and found that a new building would be a great improvement. He thought the board should grant the permit.

Alderman Green asked Inspector Elder if a like petition had not been refused by the board.

Inspector Elder replied that a man asked permission to construct one of the same kind on Bowers street, Newtonville, but was refused.

A vote was taken and the petition was not granted.

An order was introduced for the grading and construction of sidewalks on Hillside avenue.

At this point the board adjourned until next Tuesday evening.

THE GLORIES OF ANTWERP.

A NEWTONIAN DESCRIBES HIS VISIT TO THAT CITY.

Antwerp, 10 Sept. 25, '96.

We had appointed today for a trip to Paris, and I only got English for that name but the weather is bad. Last night the "glass" had a bad turn, sinking—sinking—no stimulants at hand, till it went nearly into its boots, and there it stuck. Umbrellas and waterproofs are in evidence today. But two women drove to the hotel door bringing milk, and one of them in an open cart was bareheaded. To us the day brings disappointment, and all too can profit by it. We have good rooms to rest in, large and airy and well upholstered. And English is spoken here, giving me occasion for one to air any schoolbook French.

How came we here? We had to leave London and Antwerp was waiting for us. Wednesday evening at 8 o'clock, we left our kind hostess and fellow guest at No. 1 Fairstock Place, after much difficulty in getting a cab, as cab men had initiated a strike. At 8.30 our train for Harwich pulled out on Liverpool street, and we were jolted along at a furious pace. We were shaken and tossed about so much that we could hardly recognize ourselves, and had to be sorted out when the train stopped. However we pulled ourselves together and went aboard. The boat started off promptly. Tuesday the storm had been so violent, and the wind still strong through Wednesday, that we feared a very rough passage. But the "glass" was rising and we were of having nothing worse than had passed.

I went upon deck and watched the receding shores as we went out of the harbor. I enjoyed the sight. England had out a long arm on our left and a shorter one on our right, making a safe harbor for the many vessels that had put in out of the Tuesday storm. We left behind the Dutch coast, the largest and passed hundreds that shone from the ships, and the lighthouses, and came into the open sea. I walked up and down the deck till all was moon and sea and silence, except the splash of the partial of the sides of the steamers, and the throb of the great heard below. Then I went down two flights to my room, (which I had alone) lay down in my box-bed, and loved myself to be "rocked in the cradle of the deep," till the sand man came and weighted my lids.

In the morning early I arose and went up to the deck and saw we were in the mouth of the river, a wide open and filthy mouth. Hooks of low land curved outward from us making bulging cheeks enclosing a huge buccal cavity. Our course was tortuous, the channel winding in this way and that. We met many an odd-looking vessel going seaward, some very short and bobbing up and down on the water, others long and low, and narrow (canal boats probably). A Dutch windmill with huge wings was fanning the morning air on one side and sedge rustled on the banks on the other. All was pleasant until we reached the quay, the boat made fast, and the inspector examined our luggage. The inspection was formal as there was no smell of cigars or whiskey coming through the keyholes. When we stepped on shore a shower came down and came down, but we were safely cabbed to this hotel, and soon accommodated comfortably in two rooms en suite. From the windows we have a fine view of the towers of the cathedral, from which comes as I write, the noon music of the bells chiming sweetly.

"Letting their silver chiming Move in melodious time"

through the whole hour of 12 to 1 every Friday. The chiming (99 bells) are deservedly famous.

Once fairly settled we went out sight-seeing, and visited the Cathedral, the Hotel de Ville, and the Church of St. Paul. The Cathedral is said to be the largest and most beautiful Gothic church in the Netherlands. Certainly it is large and beautiful. Begun about the middle of the 14th century, it was completed in the 16th.

Since then it has suffered at the hands of puritanical zealots (1566) and French Republicans, (1794) and been recently restored, its exterior would gain much if the houses about were removed. The spire is 492 feet high. The interior is simple, grand and impressive. Its six aisles give a rich perspective. In length it is 128 yds. in width the nave is 57 yds. and the transept 74 yds. The height is 130 feet. The vaulting is supported by twenty-five pillars support the vaulting. Within the church are the paintings by Rubens of "The Descent from the Cross," "The Elevation of the Cross," "The Assumption," and "The Resurrection."

The first is a winged picture painted in 1612 and restored in 1852. It was in Paris from 1794 to 1874, but was returned to Antwerp, where Rubens lived and died. On the left side of the wings are the Salutation on one, and the "Presentation in the Temple" on the other. On the outside are "St. Christopher carrying the Infant Saviour," and a Hermit. In these winged pictures Rubens has introduced the portraits of his first wife and daughter.

In the choir the high altar-piece is Rubens' "Assumption," said to have been painted in sixteen days, for 1000 florins. On the south side of the choir are modern stalls and rich Episcopal thrones, (Gothic in form of tabernacles, carved in wood and adorned with groups from the life of the Virgin, and on the north side, groups from the life of Christ. There are also numerous small statues, beautiful in design and execution.

In the cathedral are very many works of art by various artists, but all greatly inferior to the three pictures by Rubens, and I will not here catalogue them.

The tower is a beautiful structure, elaborate and open. We did not get the view from the top, for there is no lift there, and 616 steps did seem forbidding. Near the tower is a famous old well with an iron canopy brought by Queen Mary, when she left his ax and forage for a palette and studio, out of love, it is said, for a painter's daughter, and Mulleber became an Appelles.

A small tablet of black marble shows the birth place of David Tieders, but I have seen nothing to show where Rubens was born, for he was not born here, but a portico remains of the house in which he died. A fine statue of him, erected at public and private expense, stands in the middle of the square, the Place Virto, nearly opposite the Hotel des Flandres. Scrolls and books, and brush and palette, and broad-brimmed hat, all lying at the foot of the statue, show him a statesman, diplomatist and painter.

The Hotel de Ville, of plain front, 93 yards long and 125 feet high, its central rising in three diminishing stories to a height of 180 feet, with a statue, in a niche, of the Virgin, Antwerp's tutelary saint, will repay a visit. While in it, it was our privilege to witness the celebration of the civil rite of marriage. The couple were to go thence to have some priest make the knot unbreakable. The finest room in the building is the great hall, decorated with a series of admirable paintings by H. Leye (1811-1869). The ceiling bears the arms of the city and the guilds. In the common council chamber is a wooden balustrade most elaborately and artistically carved. It is marvelous.

The Church of St. Paul, called by some the monastery, because it formerly belonged to an adjoining monastery. Here, too, is a fine wood carving of the choir stalls, the confessionals, etc., a fine organ is found here, and I went at five p. m. to service and heard most excellent music, instrumental and vocal, one voice of extraordinary sweetness and power. The interior of the church contains an artificial mount covered with pieces of rock and slag. It is called Mt. Calvary. Along the way to the mount and up its sides are statues of saints and angels, prophets and patriarchs. It is surmounted by a crucifix. A grotto represents (?) the Holy Sepulcher at Jerusalem. Near by are statues representing Christ talking with the woman at the well, and other figures. Christ and the woman are apparently standing in a large tub full of foliage plants. Under the Calvary is a

carved hell, souls in flames, behind bars, all of wood, painted more or less. Quite appalling.

We have had a drive through the city. I must say it gave me a pleasant surprise by its boulevards and parks and dwellings, fountains and statues, and lastly by its wharves and docks.

The Mur de Quai of the Scheldt, begun in 1877, has cost about eighty million francs. It is something more than two miles long and about 325 feet broad, and about 15 feet in height. To secure the width about 600 houses had to be pulled down. It is divided into four parts. One, a railway running along the river to convey steamcranes used in loading and unloading ships; two, sheds which afford shelter for goods, which cover nearly the whole area of the wharves; three, behind the sheds are the railways which connect the wharves with the city; the high carriage street separated by a grating from the sheds.

Rain has prevented our visiting other places of interest, except the shops. But as I am writing the "diary" of this and we may have good hope for tomorrow, that we may see more here and something of Brussels.

Antwerp, that is French for Antwerp, as Esout is French for Scheldt. Population of Antwerp is 300,000. Its history can be traced back to the 6th century, when a Saxon colony settled on the ruins of a Roman fortification. But see your history or encyclopedia for more. X. X. X.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption, and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from a dreadful cold, approaching consumption, and was told by his doctors that he would never recover. He tried everything else, but a bottle of Dr. King's New Discovery in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at J. G. Kilburn's drug store, Nonantum, and Bernard Billings, Newton Upper Falls. Regular size 50c. and \$1.00.

WHERE SINGLE TAXERS STAND.

DO NOT DESIRE TO BE COUPLED WITH THE FREE SILVER MOVEMENT.

The names of four prominent Massachusetts men, advocates of single taxation, appear in company with those of a large number of men of similar ideas in leading states of the union, attached to a document intended to prevent the single tax movement being identified with the demand for the free coinage of silver.

The Massachusetts men are William Lloyd Garrison, James R. Carret, C. B. Filibrown and Louis F. Prang.

The document says: "We desire to make the public understand that some of the most earnest advocates of the single tax do not support the candidacy of Mr. Bryan. Henry George and most of the other single tax men, who have declared themselves as supporting Mr. Bryan, have at the same time disclaimed all belief in free silver, basing their decision to give such support upon grounds entirely distinct from the currency question."

"Much as we deplore the setting aside for the moment of all issues in which, as single taxers, we are really interested, we cannot disassociate ourselves from the campaign there is but one issue—that of free silver; nor can we delude ourselves with the idea that any gain can be made for the cause of the people by supporting Mr. Bryan. We do not deny the monetary doctrine for which he stands and to which he has subordinated every other issue. For unless our conception of the single tax is a mistaken one, it stands for a definite and distinct discount."

"The battle for the single tax has hitherto been one for more freedom, not for less, and for less interference by a paternal government. The single taxers have been single taxers, and have been to remove the restrictions upon industry that come of unjust and unjust taxation; we cannot consent to intensify the effects of these restrictions by helping to precipitate the paralysis of industry which must follow a financial panic."

"We do not maintain that the single tax is, or ought to be, identified with the gold standard. We do hold that our cause cannot afford to be associated with a proposal that must have dishonest results, with whatever honesty of purpose it may be advocated."

The Other States on Biennials.

When it is said that biennials will put us off the track of that frequent recurrence of government to the popular wishes which is essential to the preservation of democratic institutions, we ought to be told how and why. As a matter of fact, the biennial proposition is absurdly moderate in the comparison with the practices of other states. And we have yet to hear of the destruction of popular institutions in any of these states by reason of less frequent elections than are held in Massachusetts. Here is the way the American commonwealths stand relative to length of term of state officers:

State	Term
Massachusetts	One Year Term.
Rhode Island	Two Year Term.
Alabama	Two Year Term.
Arkansas	Two Year Term.
California	Two Year Term.
Colorado	Two Year Term.
Connecticut	Two Year Term.
Florida	Two Year Term.
Georgia	Two Year Term.
Idaho	Two Year Term.
Iowa	Two Year Term.
Kansas	Two Year Term.
Maine	Two Year Term.
Michigan	Two Year Term.
Minnesota	Two Year Term.
New Jersey	Two Year Term.
Montana	Two Year Term.
Nevada	Two Year Term.
North Carolina	Two Year Term.
Oregon	Two Year Term.
Pennsylvania	Two Year Term.
Texas	Two Year Term.
Tennessee	Two Year Term.
Vermont	Two Year Term.
Virginia	Two Year Term.
Washington	Two Year Term.
West Virginia	Two Year Term.
Wyoming	Two Year Term.

Here are 43 biennial, triennial and quadrennial states against two annual states, and nearly half of them have stabled republican institutions to the extent of electing state officers for twice the period proposed here in Massachusetts. With biennials we would be still having and supporting frequent elections, a frequent consultation of the will of the people, and a frequent recurrence to the fundamental principles of the constitution, as provided in that instrument. But if the intensity and security of our democracy is to be judged by the relative frequency of elections and assemblies of the people's representatives, we should still tower above most of the other states. It is not proposed in the pending amendment to cut away annual legislative sessions. The amendment is to be held, and in that respect we shall differ from all save half a dozen of the states, which generally have only biennial sessions of the Legislature.

While thorough in action, Ayer's Pills strengthen rather than stimulate the excretory organs. Leading physicians recommend them because they are free from opium or other injurious drugs, being composed entirely of the best vegetable aperients.

NEWTON CLUBS PLAY.

NEWTON A. A., 36; FITCHBURG A. A., 0. Fitchburg A. A. met Newton A. A. at Newton Centre, Saturday, and was defeated 36 to 0.

Newton made touchdowns as fast as the ball could be put in play.

Fitchburg did not have the ball, except on the kickoffs, until late in the second half, and held Newton only once on downs.

Newton's interference was especially good and made gains of 25 to 65 yards possible. The summary:

Railroad Fares Abroad.

In Australia you can ride a distance of 1000 miles across country for \$6.50 first class, while working men can ride six miles for two cents, twelve miles for four cents, thirty miles for ten cents, and railroad men receive from 25 to 30 per cent. more wages for 8 hours of labor than they are paid in this country for 10 hours. In Victoria, where these rates prevail, the net income from the roads is sufficient to pay all the federal taxes. In Hungary, where the roads are state owned, you can ride six miles for one cent and since the roads were bought by the government the men's wages have doubled. Belgium tells the same story, fares and freight rates cut down one-half and wages doubled. Yet the roads pay yearly revenue to the government of \$4,000,000. In Germany you can ride four miles for one cent on the government owned lines. Yet wages are over 125 per cent. higher than they were when the corporations owned them, and during the last ten years the net profits have increased 41 per cent. Last year the roads paid the German government a net profit of \$25,000,000.

ELIOT'S MISSION.

250TH ANNIVERSARY CELEBRATED LAST SUNDAY—REV. E. H. BYINGTON TOLD THE STORY OF THE APOSTLE'S LIFE—OVER 1000 ATTENDED THE SERVICES.

Sunday was a day of more than passing importance in the civic and religious history of Newton. Two hundred and fifty years ago in Waban's wigwam, on the spot now marked by the Eliot memorial, the apostle John Eliot began his mission to the Indians of Nonantum.

This fact was commemorated in nearly all the churches of the city, and in the Eliot Congregational church, whose name is a tribute to this central figure in the history of the city, especially elaborate services were held.

The central memorial window in the church represents the apostle standing in the forest, surrounded by his three friends and scores of dusky savages, and holding in his hand a copy of the Indian Bible. This window acquired special significance from the service, and is in itself one of the chief reasons for choosing Eliot church as the place for holding the memorial services on the 250th anniversary of the beginning of the mission.

The exact date on which the Apostle Eliot preached his first sermon to the red men was Oct. 28, 1646, but Sunday was chosen for the church celebration because it is a more convenient day for all the members to attend than on a week day.

Two services were held—one in the morning and one in the evening—and both attracted large congregations. An historical address dealing with the life and work of John Eliot was delivered in the morning by Dr. Ezra H. Byington, author of the new book about the Pilgrims, that has recently been issued. That his selection was a fitting one was recognized by all, for he has not only devoted many years to the investigation of the subject of the early settlers of New England, but he is also a member of the Eliot church.

The evening exercises consisted largely of brief addresses by some of the pastors of other Newton churches, upon invitation of Rev. William H. Davis, pastor of Eliot church. Among the speakers were Rev. F. B. Hornbrooke, Rev. Dr. Geo. E. Merrill, Rev. Dillon Bronson, and the pastor, Rev. Mr. Davis.

Nearly 1000 persons attended the services in the morning, which were of a historical nature. The pastor, Rev. Wm. H. Davis, was assisted by Rev. J. W. Wellman and Rev. Henry J. Patrick, and the historical address on the life and work of John Eliot was delivered by Rev. E. H. Byington, the author of several works on the Puritans.

Mr. Byington spoke in part as follows: "The memory of John Eliot is still fresh, though 250 years have elapsed. It is not often that a name lasts as long as that. A few great poets and a few great generals and statesmen have been held in remembrance as long as this, but John Eliot belonged to neither of these classes."

"He translated the Bible into a language now dead, which only one person in the world today knows. We know Eliot only as a saintly man, pastor for 60 years of a Puritan church, and the first missionary to the Indians."

"We were not Protestants we would call him a saint, and make him the patron of our society."

"It is not common for a Congregational church to take its name from a man. We show our reverence for the man by calling him the apostle, a title which has been conferred on no other in modern times."

"He was the son of a Puritan, the son of a great English family of the name, and was related to Sir John Eliot, the great patriot and statesman."

"He was born in Wickford, 28 miles north of London. We do not know the exact date of his birth, but he was baptized Aug. 5, 1606. Before he was 6 years old his parents removed to Naseby, and he grew up in the strong Nonconformist atmosphere of the town. He was matriculated from Jesus College, Cambridge, May 20, 1629. He was particularly ardent student of Greek and Hebrew, and a well equipped theologian."

"After matriculation he was employed as an usher in the celebrated Thomas Hooker's school at Little Belford. Here marks the beginning of his religious life. He saw very little opportunity for preaching the truth, as he saw it, in England, and prepared to go to New England."

"He sailed on the ship Lion, and landed in Boston, Nov. 3, 1631. He was then 27 years of age. At once, he united with the First church, and served for a time as its pastor. Later he accepted a call to the Roxbury church, and was ordained Nov. 6, 1632. He continued in this pastorate 60 years, until his death. He was an able and well-bred man, a believer in a republican form of government, and held the same ideas of the Puritans. Above all things, he was a minister of the gospel. From his private means he established a free school in Roxbury."

"Why was it that he became a missionary to the Indians? Because he was a Puritan, and the Puritan spirit is essentially the missionary spirit."

"John Eliot in Roxbury and Thomas Mayhew at Martha's Vineyard began the study of the Indian language in 1646, and Eliot began to preach the same year. Gradually he gained the power not only to write but to speak the new language. His first attempt, which was unsuccessful, was not in Nonantum, but in Dorchester. Upon Oct. 28, 1646, John Eliot, Thomas Shepard, John Wilson and May Gookin went to the Indian village of Waban. In Waban's wigwam began the mission to the Indians."

"It was a grand historical success, and we do well to commemorate it today. It was almost the earliest of Protestant missions, the beginning of the great missionary movement which has extended over 250 years."

"He preached for an hour and a quarter, beginning with the law of God and the Ten Commandments. The effect on the Indians was very great. Two weeks later he went again to Nonantum, and found a larger company of Indians awaiting him. He continued to go to Nonantum once a fortnight to preach to the Indians. He was often accompanied by the eminent men of the colony. At his teaching the Indians forsook their own religion, prayed to have their children taught, and took up habits of industry. Waban, the head man at Nonantum, began to preach."

"Eliot was himself a man of slender resources. He received from his Roxbury church a salary of \$300 a year, and from this he maintained and educated a family of six children. At the time of his labors there was not a missionary society in the world. He created one."

"Finally, at Eliot's request, the Indian village was removed to Natick, where it grew and prospered."

"John Eliot's most remarkable work was his translation of the Bible. He devoted 40 years to the work, and looked upon it as his great and crowning effort. He had to create a language for it. It was issued in 1663, and was the first Bible published in America."

"In 1680, in the old age of the missionary, a second edition was published. King Philip's war swept away the praying Indians, but Eliot was their friend and protector to the last. He outlived his old friends in the ministry, and died in 1690, 86 years of age."

"The evening service was of very great interest. Four brief addresses were delivered upon Eliot and his work by different Newton clergymen. The pastor, Rev. W. H. Davis, presided. The first address upon

"The Roxbury Pastorate" was given by Rev. F. B. Hornbrooke. He said that Eliot was not less faithful to his pastorate because of his work among the Indians. He noted all the ailments and failings of his parishioners. No minister ever had a clearer insight into the character of his people. He had a high standard of purity and living, but the records show he was marked by a spirit of compassion. He had a great concern for young people. He was the founder of the Roxbury Latin school, and left it part of his fortune. He believed that the education of the young should be provided for. The spirit of benevolence and charity was largely developed in him. He was also a man of unbounded tact, always knowing the right thing to say. He was a man of great wit and humor, for his sympathy was extended to the negro slaves in the colony. Many good men are not interesting, but here was a man who was certainly both.

Rev. Dr. George E. Merrill spoke on "The Indian Question 250 Years Ago." He said the early settlers had the Indians at their doors. Eliot should be called the apostle to the Indians. He said that Eliot came to New England the Indians numbered from 3000 to 5000 each. A pestilence came, however, according to one writer and reduced their numbers to 300 or 400 in each tribe.

Eliot came and preached his gospel. The Indians were attracted. Although their habits were gross and immoral they liked Eliot and many reformed. They were converted. In 1658 the translation of the Bible by Eliot came, and in 1660 the church at Natick was established. Eliot also started a college for Indians at Cambridge, but it did not last long. The Indians and medicine men were opposed to him and his work, but he continued. Soon there were 14 of his praying towns, so called. The Indians disappeared with King Philip's war, however.

Rev. Dillon Bronson spoke on "Some Traits of Character." Eliot was already appreciated in England when he began his work among New Englanders, he said. He was eminently a man of prayer. Many of the nights were wholly spent in communion with his Heavenly Father. He was a man of one book—and that the Bible. He loved children, and after he had baptized them followed their lives. He was a forceful man, loving, kind. He was an optimist, always cheerful. A chief trait possessed by him was his unselfishness. He had a passion for souls. His heroism was that of the true missionary. He had no self love, and was a brave man in every way.

Rev. Mr. Davis, the last speaker, told of "The Key to the Lock of John Eliot's Life." He said it was a great thing to have a church or a man to be yoked with a personality like that of Eliot. The fragrance of the association would always have a great influence. It is the personality of a great soul. It was well that the city of Newton intended to commemorate the anniversary, too.

In Eliot's life we note a masterful yet humble serving. The man, constantly occupied with the grave duties of citizenship, was pastor of a church, a missionary to the Indians, one of the founders of Harvard College. The strength of his service is the keynote of his character. It shows the quality of the man.

The singing of "America" and the benediction, pronounced by Rev. Mr. Hornbrooke, brought the services to a close. In other churches throughout the city the life and work of the apostle to the Indians formed the theme of the pastors' discourses. At the Immanuel church Rev. Geo. E. Merrill preached in the morning from the text used by Eliot in his first sermon in Nonantum: at Grace church Rev. George W. Shinn preached on "John Eliot, the Noblest of the Puritans," and at the First church, Newton Centre, which was founded by John Eliot's son, Rev. D. L. Furber, pastor emeritus, preached on the life of the apostle.

The civic celebration will take place on the 10th of November, the date of the second preaching in Waban's wigwam. Hon. William Everett will be the orator of the day, and a choir of school children will sing. On that day will also be read several prize essays written by pupils of the Newton High school. The judges in this contest are George I. Aldrich, Rev. Francis B. Hornbrooke and Miss Abbie B. Bates.

Some Facts About Eliot.

It may interest some of our readers, on the event of the two hundred and fiftieth anniversary of the Indian Apostle's first visit to Newton, to read the account of it in the words of one of his co-laborers and contemporaries. The following sentences have been taken from Wilson's Day breaking of the Gospel, a rare book, published about 1650.

"Upon Oct. 28, 1646, four of us, (having sought God) went unto the Indians inhabiting within our bounds, with desire to make known their things of their peace to them. A little before we came to their wigwams, five or six of the chief of them met us with English salutation, bidding us much welcome; who leading us into the principal wigwam, of Waban, we found many more Indians, men, women, children gathered together from all quarters round about, according to appointments to meet with us and learn of us. They being all there assembled, we began with prayer, which now was in English being not so far acquainted with the Indian language as to express our hearts herein before God or then. When prayer was ended it was a glorious affecting spectacle to see a company of perishing, forlorn outcasts diligently attending to the blessed word of salvation then delivered: professing they understood all that was then taught them in their own tongue."

For about an hour and a quarter the sermon continued, wherein one of our company ran through all the principal matter of religion beginning first with a repetition of the ten commandments, etc. So successful was Eliot in commanding the attention and respect of his uncivilized audience, that he was able, after few subsequent visits, to persuade them to change their nomadic life and to live in a settlement after the European fashion. The following year an Indian town was established at Natick or Nonantum (Nootanatom or Nootanatom) and provisions for the education of the converts was made by the General Court."

It was the first example in American history, perhaps in modern history, of the conversion of an uncivilized race to Protestantism and it was due entirely to the labors of John Eliot. Newton may point with pride to this first evangelical movement, which alone has made her famous and has given her the familiar Indian title Nonantum, meaning "a place for rejoicing."

Editor J. L. Montgomery, of Marshall (Ill.) Democrat, states that for many years, he had read under a log cabin in 1834, that as last he began to take Ayer's Sarsaparilla, and by the time he used six bottles, he was as well as ever. Cures others, will cure you.

SPRINGER BROTHERS' FASHIONS.

MANY NEW STYLES—THE LEADING COLORS AND MATERIALS—SEAL, PERSIAN LAMB AND GREBE—PELEMINES AND CAPES.

Dame Fashion has evidently taken Springer Brothers into her confidence this year, judging from the multitude of good things to be seen at their establishment, 500 Washington street, Boston. The only difficulty one experiences in making a final choice from among so much that is tempting. This firm has discovered the secret of success in suiting the various tastes of its numerous customers.

There is such a variety of capes, coats, collarettes and garments of all kinds imaginable, that the most fastidious can be more than pleased.

To name the leading color out of all the rich harmonies is not difficult, as green is given such distinction that a blind man almost would observe it, but to go one step farther and particularize as to the special shade of green that will be most worn is a hazard which no wise prophet should risk. On the other hand, to discriminate against any shade of green would be equally unwise. All shades of green are more or less prominent, according as they are practical or becoming. The French color cards presaged this popularity of green by including in the bit of fall colors four distinct lines of green besides a number of single shades. One of the leading cards shows alone thirty shades of green, so there need be no monotony now should fashion be confined to this one color.

Brown, which is a staple color for fall, is represented in golden, tobacco and nut shades. For all the wealth of color this season, black will be in excellent repute, and combined with white will hold its own. There is a wide range of material this season from which to choose. Of course the ever popular kersey cloth, especially in the right shades of brown, is always seen. Nothing gives a jauntier air to a stylish costume than one of Springer Bros.' natty jackets of brown kersey. But this year there is such a wealth of new things, in rough surfaces, astrakhan cloth, matelasse and several kinds of fancy weaves.

The greatest display of new things and most chic effects is in the fur department. And when one customer buys a sable cape one year, a handsome collarette the next, we can see what this popular firm does to keep in touch with its customers and the latest things in every line.

The elegant pelerine shown in the first cut is something entirely new. It is of seal with yoke of Persian lamb. The long stole fronts, in some ingenious way, are arranged into a stylish muff at just a convenient height for use.

A handsome new collarette of krimmer and moulin is shown, a very dainty affair, but one of the most beautiful things in the establishment is a collarette of seal with a broad border of grebe, that most beautiful of decorations. The high rolling collar is faced also with grebe. One of the great attractions of grebe is its durability. Rain and snow have no effect upon it whatever, according to nature.

There are many new designs in velvet capes, many trimmed with mohair or silk braid and others plain.

A handsome green kersey cape has an entirely new design in braiding, which is very effective.

A new coat in green kersey is entirely novel. There are loose box plaits in front and back, with fur collar.

The jacket given in the second cut is one of the hottest garments of the season. It is of Havanna green kersey with velvet collar and cuffs. It has strapped seams in the back and a stitched band edges the garment. The loose front closes diagonally with large pearl buttons.

But this firm doesn't confine itself to outer garments by any means. It has a fine assortment of street suits, skirts and coats. There are also many handsome silk skirts, bared plain and brocaded.

There are many new fancy waists in tartan plaids as well as more quiet modes. Thus a whole outfit can be had in this one establishment, even to a feather bow.

An important message often comes by telegraph, but the most important message that ever was delivered to mankind has been given to them through the newspapers. It is given again in this article.

It is the information that 98 per cent of all cases of consumption can be completely and permanently cured. There is no doubt about it. The statement is not made recklessly, but after the experience of thousands has made it an indisputable fact. Consumption is not a disease of the lungs. It is a disease of the blood, which in weak lunged people manifests itself by the formation of tubercles in the lungs and the wasting of lung tissue. The cure for consumption is simple. It consists in the administration of a medicine that will assist the lungs in throwing off tuberculous matter, and that will cleanse the system so that this refuse matter will be replaced by strong, healthy tissues. That is the Golden Medical Discovery, a simple operation, and yet consumption baffled the combined medical skill of the whole world for hundreds of years. Consumption was considered incurable until the advent of Dr. Pierce's Golden Medical Discovery. This great remedy is the most wonderful blood purifier and strengthener that the world has ever known. It is the result of years of study and experiment, by a scientific physician and has been tested in every way by him for over 30 years. It has an unbroken record of success. It cures a great variety of diseases because almost all diseases have their origin and support in impurity and weakness of the blood. As long as a man's blood is rich and pure, he is in no danger from diseases. The blood is the medium through which food is carried from the digestive system to all of the tissues of the body. If it carries impure things, or an insufficient quantity of good things, trouble will ensue. There is nothing about that so very hard to understand. It is perfectly plain and natural and rational. The "Golden Medical Discovery" puts the digestive system in perfect order, purifies and enriches the blood and so puts the whole body into perfect tune.

This talk is continued in Dr. Pierce's Common Sense Medical Adviser. This 1028 page book sent free on receipt of 21 one-cent stamps to cover cost of mailing only. WORLD'S DISPENSARY MEDICAL ASSOCIATION, BUFFALO, N. Y.

THE GOLD STANDARD.

So much has been said and written on the bond sales and the gold standard, on both sides, by men who had no qualification whatever for the task, that the paper by Prof. F. W. Taussig of Harvard, published in the November Forum, will attract wide attention. The election is now practically decided, but the hardest part of the business is yet to come, and that is to introduce needed reforms into our national financial methods.

He says that "the bond sales have not been the result of the gold standard; they have been the result of the struggle to maintain the gold standard under peculiarly difficult conditions. Had we settled our currency simply and definitely on a gold basis fifteen or twenty years ago, these loans and negotiations would never have appeared. Even now, the quantity of gold in the country would probably suffice, under wise legislation, as the foundation for all the currency we need. Certainly it would be an easy matter to secure from abroad or from our own mines such moderate additional amount as would be required. But to bring about a solid and satisfactory gold basis, we must overhaul completely our present currency system. The government paper should be reduced in volume; safest and best of all, it should be got rid of entirely. If the paper is to be retained, something more is necessary to put it in some half-way satisfactory condition than that increase in the public revenue which many of the Republican leaders make so much of. The fiscal weakness of the treasury is easily mended; a simple revival of business, such as is likely to come after these years of depression, will bring a growth of imports and a gain in revenue sufficient to wipe out the deficit. But the whole system by which monetary stability is made to depend on the current revenue of a government having a budget as irregular as ours should be abolished. The treasury, if it is to remain an issuer of paper money, must have that function completely separated from its mere fiscal duties. The safest policy, as I have said, and that which offers least risk, and temptation for future currency tinkering, is to get rid of government paper entirely, and to replace this inert and dangerous form of paper money with elastic bank-notes, resting solidly and directly on gold reserves held by the banks. But this is a matter for the future, and needs more detailed consideration than the limits of the present discussion permit. If, as we may hope, the silver cause is soundly beaten in the coming election, it will be necessary to set our house in order, a hard task, not likely to be accomplished satisfactorily for a long time to come. Meanwhile, let us remember that our recent and present embarrassments have been our own fault, and are not any necessary or natural concomitants of the gold standard. We have made hazardous currency experiments, and we have had to struggle hard to avert disaster. We have simply reaped what we have sown. Let us sow better seed in the future; confident that with wise preparation and conservative management we may in due time reap a healthy crop.

The apportionment commissioners under the metropolitan sewerage acts have rendered their report to the supreme judicial court, distributing the apportionment for the five years ending 1900. They find in effect that the north metropolitan system will cost \$5,000,000, the Charles River system will cost \$800,000, and that both of these systems have been practically completed; that the Neponset river system has just commenced under an act which provides for a state loan of \$500,000. Newton will have to pay 3.47 per cent. of the total of interest and sinking fund in the Charles River system. For maintenance and operation of this system it will have to pay 25 per cent.

The argument is used against biennials that in the midst of national politics, state affairs would receive but little attention. There would be something in this, had it been found that in off years we secure any better men. Such has not so far been the case, but rather the reverse, as in off years people can not be induced to attend the caucuses, where the fate of nominations is settled. The office goes to any one, who seeks it, without much regard for fitness. This is one of the fanciful objections, any number of which are made, but which the experiences of other states show to have no foundation. A vote for biennials is a vote for progress, and a vote for better government.

SOMERVILLE is also having its charter revised, and wants the same improvements in city government methods that are needed here; a board of public works; and an increase in the executive authority of the mayor and his separation from the legislative part of the government. Matters have

got along so far there, that they are having public hearings, but our committee are going to be perilously near the end of the year before they make their report.

THINK of the poor voter in Illinois who has to choose from 13 sets of presidential electors, labelled on the official ballot as follows:

Democrat, republican, prohibition, people's party, socialist labor party, national party, middle-of-the-road party, independent gold standard democracy, independent party, independent democratic party, independent silver party, independent republican party, national silver party."

To-morrow will be flag day for both the McKinleyites and Bryanites, and in the evening the former will have bonfires. The flag is the national and not a party emblem, and the attempt to make it a party affair was very properly defeated. The bonfires will be helpful in getting rid of all sorts of rubbish, including old barrels, leaves, and campaign publications generally.

THE school board wisely decided to leave the matter of filling the vacancy in Ward 3, to the city election. The matter had aroused so much antagonism that this seemed to be the only thing to do. The contest can be fought out then without any hard feelings, and it is so near the end of the year that there is no special need of any immediate action.

AFTER Tuesday's election, city politics will begin to get warmed up, and there will be something definite to talk about. Until then, predictions are useless, and the leaders do not take much interest in the matter of choosing city officials, until the national election is out of the way.

THE Meigs elevated railroad charter was sold to the West End for \$130,000, and the legislature made the Meigs people a present of it.

Biennial Elections.

To the Editor of the GRAPHIC:

So far as I can learn, the scheme for this change was concocted and is urged mostly by politicians, not by the common people or generally by the scholarly and thoughtful. The result of the proposed change will remove power from the true source of political power in our form of government, i. e. the people. Since the Rebellion, there has been a constant effort, too successful to centralize, to take from the people, the opportunity to pronounce upon men and measures, as often and effectively as formerly. This is clearly seen in the change from town to city government. The great majority of our citizens know nothing, practically, of the grand town meetings of 25 years ago. The attempt to change our elections from annual to biennial, is a move in the same direction. This change is in the face of those wise men who, after months of study and reflection, adopted our state constitution, and who re-enacted the same, including annual elections, in the constitutional convention in 1820, with Adams, Webster, Storrs, and at our last convention, with Sumner, Wilson, Cushing, John Andrews and others of our wisest men. If more advice is needed, consult Senator Hoar, ex-Governors Boutwell, Claflin and Brackett, Alanson Beard and others of our wisest men in all walks of life through the state. The fact that other states have adopted biennial elections will exert no favorable influence on those who compare the present constitution of Massachusetts with others, where politicians control more effectively than they yet have been allowed to do. Why not follow New York, Illinois and other states in appointment of our judges, boards of education and other state officials. Let us of Massachusetts preserve the ancient landmarks, studying cautiously every attempted change and innovation. Especially many of such as emanate from professional politicians. For one, I wish the opportunity to examine, approve or condemn the work of our legislators or lawmakers, whether of town, city or state, each year, and cast my vote accordingly.

SCHOOL BOARD.

COMMITTEE APPOINTED TO SELECT A MEMBER FROM WARD THREE FAILED TO AGREE—BOARD DECIDED TO LET THE VACANCY BE FILLED AT THE CITY ELECTION—PHYSICAL INSTRUCTOR AT THE HIGH SCHOOL—SEVERAL APPOINTMENTS.

The school board held a short session in the Claffin building, at Newtonville, Wednesday evening. Considerable new business was introduced and there were several discussions on matters of no small moment.

The board was called to order at 7.50 o'clock by Mayor Cobb, and 13 members were present. The reading of the records of last meeting was dispensed with, and as no communications were received from the city council new business was then considered.

Clara E. Williams, Edwin G. Crane, Augustus Wakefield, and Norman Perkins were appointed assistants in the Jackson evening school, and Maurice B. Biscoe, an assistant in the evening drawing school.

The report of the superintendent showed the number of pupils enrolled Sept. 1, was 4800, an increase of 312. In this report Supt. Aldrich said that it was customary for the board to order all schools closed Oct. 30th, that the teachers might attend the meeting of the Middlesex Teachers Association. He recommended a departure from this rule, saying that if the board was willing he would arrange for a teachers institute to be held in Newton, and asked that the schools be closed that day.

Mr. Goodwin of the high school introduced an order to that effect and it was passed. The committee on physical culture through its chairman, Dr. Adams, to whom was referred that part of the superintendent's report, recommending the appointment of a supervisor of athletics at the high school, reported in favor of it. Out of 272 boys in the high school 195 enjoy military drill, 50 or 60 are members of the athletic association. The reason for this appointment is very urgent. The boys need some kindly supervision. Some suffered from over indulgence in these sports. Others were studious and injured their brains by not enjoying a sufficient amount of exercise. The physical instructor would examine each lad in company with a physician, keep a constant and careful oversight, and attend all games and meets.

The report was accepted and placed on file. Dr. Adams, continuing, said that a very competent man could be secured for \$600. Mr. Goodwin of the high school was very much interested in the plan, and hoped it would be carried out. In answer to the questions of several members of the board, Dr. Adams said that the exercises would be held in the gymnasium at Newtonville. Only a few boys would go each afternoon. There would be a different class each day. Maj. Benyon would be an excellent instructor.

Mr. Ward thought it a new departure. It would be desirable to learn more about the scheme. He would like to hear Mr. Goodwin's views.

Dr. Adams said Mr. Goodwin was perfectly willing to be heard and would be glad to come before the board and explain them. Mr. Hollis explained that the matter was called for by a recent report of the athletic meet, which he and several members of the board attended. Some boys were over-indulging in the different sports. A supervisor was just what was needed and Maj. Benyon would be especially well-fitted for the work.

The report was referred to the committee on finance. The finance committee reported the school expenses for September to be \$15,527.50. An order for the appropriation of this amount was later introduced and passed.

The committee on text books and supplies reported recommending the use of Selig's business courses and Wentworth & Hill's arithmetic in the school. An order to this effect was adopted.

The report of the committee to nominate a member from Ward Three, reported a disagreement and asked to be discharged. This was granted.

Mr. Hollis suggested the appointment of a new committee on the subject, which would act and report that evening.

Mayor Cobb appointed Mrs. Martin, Mr. Bond and Dr. Adams.

Continuing Mr. Hollis said the new member should be the choice of the people of Ward Three. The wishes of those people should be consulted. The new member could be elected tonight or at the city election.

He did not urge the matter either way. Mr. Bond presented a petition from 200 Ward Three residents, asking that the board appoint Lucinda W. Prince as a successor to Mrs. Bond. This was referred to the new committee.

Mr. Beck moved that the committee be instructed to report at this meeting. This was carried.

Councilman Wing said that the vacancy in the board of aldermen, caused by the death of Alderman Noyes, would be filled at the next election, the candidate elected to serve the remainder of this year, and also next. He thought perhaps this would be an expedient plan for the school committee.

Mr. Hollis said these were not parallel cases, and he thought it better to leave it to the people, and the school committee were at liberty to make their choice for a member.

The committee then adjourned for 25 minutes. Orders were read, and the members returned at 8.45 and presented their report. In reporting for the committee, Mr. Bond said that the members had given much attention to the petition from Ward Three, and were much impressed by the names. The person named thereon would be very desirable as a member of the school board.

T. S. Sullivan as trustee officers were received and accepted. Wesley J. Furlough and George Linn were appointed to fill the vacancies.

The resignation of Miss F. H. Griffin, a teacher in the Bigelow school, was received and accepted.

Mr. Hollis gave notice at the next meeting of the board, he would move a suspension of the rules and ask that the Christmas vacation extend from Thursday noon, Dec. 24, to Monday, Jan. 4, 1897.

At 8.55 o'clock the board adjourned.

BIENNIAL ELECTIONS.

Vote "Yes" For Both Amendments.

Believing that the adoption of Biennial Elections of our state officials and members of the legislature would prove a wise and beneficial change in the administration of our state affairs, that our people will gladly welcome the reform from the turmoil, excitement and expense of an annual state political canvass, that it will not only not impair but will help to improve the character of our legislation and the general efficiency of our state government, as shown in the experience of nearly every state in the Union, we urgently appeal to all our voters to vote "Yes" for both amendments, in order that they may be adopted and become the established policy of our honored commonwealth.

Hon. Roger Wolcott For Biennial Elections.

"The question of an amendment to the constitution providing for biennial elections, by the people, has been under discussion before the people of our state, in the legislature, for several years. It has been passed during the past two years by the required vote of the legislature, two-thirds in the house of representatives, and by a majority vote in the senate, and it is now presented to the judgment of the people in the coming election.

I wish to say that I believe personally in that amendment. It is, in my opinion, not a party question. It has been favored by leading Democrats, and by leading Republicans, whom I should be the first to honor, as well as by many Democrats. I believe the people are ready to vote upon it. I believe they will consider carefully the advantages of the proposed change, and that, looking to the 40 odd other states that hold their elections at longer intervals than one year, they will ascertain whether from those states there is any desire to go back to the old system, or any complaint of the operation of the new."

Hon. Henry Cabot Lodge For Biennial Elections.

"I believe a change to the biennial system will tend to a fuller expression of popular opinion and to a more general and active participation in politics than is possible with annual elections. The change will also, I believe, improve the character and quality of our legislation and administration, and finally will be a saving of time and money, and a great relief to the business community. I have no question as to its overwhelming adoption, and once adopted, there will be with us, as with our neighbors, no turning back."

The Biennial Argument in a Nutshell.

In conclusion, let me say that this whole question resolves itself into a simple proposition, viz: as to whether the people of Massachusetts prefer to continue the practice of annual state political canvasses, with all that it involves of continued demands upon the time, energies, and means of our citizens, with no corresponding return of an equivalent, which is not better furnished under a two years' exercise of political duties. A system which means continuing our present method of a one year term of our legislators, with all that it involves of crude, faulty, ill-considered and cumbersome legislation, which is today, and has been recognized, not only by all students of government, but by the experience of nearly all of our best governed states, as one of the inevitable products of the annual system, or whether we are disposed to make a change and adopt the biennial system and secure to the people, to our executive, and to our legislative branches of government, the many decided benefits which we believe will accrue to our own commonwealth, by their adoption, as our policy and practice.

If the great states of New York, Pennsylvania, Ohio, Illinois, Indiana, Iowa, Missouri and others, which exceed our own in population, in manufacturing, in mining, and in transportation, with all the legislation that they involve, are able, wisely and economically, to conduct their state affairs to the satisfaction of their people, why should it be necessary in a state like Massachusetts whose framework of government is so complete, and whose legislation is so far advanced for us to require an annual state election and protracted sessions of the legislature?—Hon. Edward H. Haskell, before Chamber of Commerce.

Biennial Elections In Other States.

At the present time, 45 of the 48 states have adopted the system of biennial or less frequent elections. Forty of these states discuss state and national issues in the same canvass, and it has proved so satisfactory that in no state of the Union has there been a movement to adopt or return to annual elections.

In our own state, since the organization of our present government, we have conducted a state and national canvass together every two years, to the satisfaction of our people, and without any movement to separate them. And in the years 1874, 1882 and 1892 elected a Democratic governor on state issues, and a Republican delegation to congress, and in 1892 presidential electors on national issues. Vote "Yes" for both amendments.

LOVE'S WAY.

Why do I love you, sweetheart mine?
In sooth, I cannot say.
Love came to me so stealthily
I never saw his way.

His gentle footsteps scarcely pressed
The pathway to my heart.
I only saw him standing there
And knew he'd ne'er depart.

How can I tell what brought him when
I know not how he came?
I only knew and bow before
The magic of his name.

So many are more beautiful!
Ah, well, perchance 'tis true.
So many are much better, dear?
Sweet, no one else is "you."

"A PRINCESS OF BYZANTIUM."

Claims of a Woman Who Says She Is a Descendant of Emperors.

In a modest home in Bayswater, a district of London, lives a little woman who has taken as much interest in the troubles in Crete as probably any other member of her sex. She looks upon the people of the island, in fact, as kinsmen in a sense, for she is, according to her story, a descendant of the rulers of the Byzantine empire, to which Crete once belonged. Eugenia, Princess Nicophora Kommena Paleologa, known as Mme. Christoforos, has, however, no imperial retinue. She supports herself by writing articles for newspapers and magazines and novels. She is, too, an artist and a sculptor of some merit and leads a busy life. But she is proud of the story of her ancestors' power.

"Yes," she said in a recent interview, "I represent all the dynasties who once ruled in Byzantium. The real line to which my family belongs is that of the Katakalon-Nicophorus (Botinates). But, through the marriages from generation to generation, I also have the blood of the Dukas, Komnenus, Paleologus, Lascaris, Ange-Gastulose and the Glutianians," and in proof the black eyed woman with the oriental features pointed to a family tree on a great roll of parchment bearing the seal of Malta.

"I myself was born in Malta," she went on. "Our family had been settled there since 1550, at which time Prince Emanuel de Christoforos came to the island with 1,500 men, the grand master of the St. John order, after the heroic defense of Rhodes against the Turks. I did not always live in Malta, however, but spent a number of years in India and in Germany, and settled in England a few years ago. Of course the memory of my fatherland was ever with me, and I have many things that recall the knights of my country. These vessels belonged to Pinto, the grand master of the Order of Malta. I have, too, a few Gobolins, in which is woven his coat of arms, which Pinto gave my great-grandmother, the Princess Rosa Dimach-Bonici."

Prince Theodor di Christoforos, the father of the princess, after the abdication of King Otto, the Bavarian, of Greece, was one of the candidates for the vacant throne. The princess is firm in the belief that Greece would have been prosperous had her family become its rulers.—New York Tribune.

The Uncertainties of Fame.

All that is mortal of Sir John Millais has been laid to rest. His works remain, and they will delight generations to come no less, we believe, than they have delighted the generation that is past. Will they endure for centuries as well as for generations? It were rash to say, it is impossible to say, because judgments in art matters are often very uncertain; impossible, because the reputation of a painter depends upon his pigments, and whether his pigments will endure only time can show.

Those who stood yesterday in the "artists' corner" of the crypt must have recalled instances of each of these disturbing factors. Among the artists buried there is Benjamin West. He, too, was president and the great painter of his time, whom all the world admired, and who was followed to the grave by the affectionate admiration of cultivated society. Yet who knows of West's pictures now? There are some in the possession of the National gallery, but they have been sent to limbo. The fashions which produced them and admired them have passed away.

In the other cases suggested by the history of the artists' corner it is not the fashions, but the pigments, that have gone. There are several of Reynolds' pictures which have been fading away in the sight of men still living, and it seems only too likely that the men and women with whose counterfeits presentments he filled the halls and castles of England will one day be only the "ghosts of ghosts."

A Pair of Robins.

A pretty little incident is told by Miss Edgeworth, in her recently published correspondence of an old peasant of his acquaintance, Robin Woods, who was very sick, very old and fast approaching his end. She went to see him and found him in bed, cheery and uncomplaining, enjoying the society of his pet bird, a robin red-breast, which fluttered contentedly about the room, entirely at liberty and entirely at home.

The old man was about to have a meal, and he took his bowl of milk and set the bird, which had perched on the foot of the bed, hopped eagerly along its master's body from his foot upward, sure of a share in the feast. She thought the sight a pretty one and said to the invalid, looking from one robin to the other:

"You seem very happy together!"

"Yes," was the quaint answer as the old fellow smiled gratefully at his companionable little namesake, "two was that over since we was married."

The Bowery Waiter.

Time was when the waiter in the Bowery restaurant was essentially "tough." That has all gone out of him. Time was when his customary greeting came in this form, "Soy, young feller, whatcha want?" That has all gone out of him, too. The old leaven is there, but it worketh only a little. Nowadays he contents himself with asserting that he is a free man and better than any one upon whom he waits by throwing the dishes upon the table in an effort to break them. The napkin is tossed at the customer, half the coffee is spilled from the cup into the saucer, and that is all.—American Caterer.

For the Canary.

If you want your pet canary to sing his best and look his prettiest, feed him occasionally with hard boiled eggs chopped fine and mixed with cracker crumbs. Do not give him more than a thumbful of the mixture at a time.

VANDERBILT AS A WORKER.

The manifold duties of a New York Man of Affairs.

Cornelius Vanderbilt's capacity and fondness for work are shown by the list of positions he occupies in railroad companies, Lake Shore and Michigan Southern, Michigan Central, Nickel Plate, Big Four, the Chicago, St. Paul, Minneapolis and Omaha, West Shore, New York and Putnam, Beech Creek, Delaware and Hudson Canal company and 46 leased railway lines and subsidiary companies.

He is president of the Canada Southern and the New York and Harlem railroads; chairman of the board of directors of the New York Central and of the Michigan Central railroads; director of the New York Central, Lake Shore and Michigan Southern, Michigan Central, Nickel Plate, Big Four, the Chicago, St. Paul, Minneapolis and Omaha, West Shore, New York and Putnam, Beech Creek, Delaware and Hudson Canal company and 46 leased railway lines and subsidiary companies.

He is also a director in the New York Mutual Gas company.

He is trustee of the Eye and Ear Infirmary, Sloane Maternity hospital, Society of St. John, New York Christian Home, For Intemperate Men and of St. Luke's hospital and is chairman of the executive committee of that hospital.

He is trustee of Columbia university, Cathedral of St. John the Divine, of the General Theological seminary and St. Stephen's college. He is manager of the Domestic and Foreign Missionary society of the Protestant Episcopal church, and secretary of the committee on trust funds, having been instrumental in raising \$1,000,000 for the fund, to which he gave a large personal contribution.

He is a member of the standing committee of the Protestant Episcopal diocese of New York, member of the international committee of the Young Men's Christian association and vice president of the New York branch of the Young Men's Christian association.

Mr. Vanderbilt is also trustee of the Missionary Seamen's society, Metropolitan Museum of Art and chairman of the executive committee, trustee of the American Museum of Natural History, College of Physicians and Surgeons, St. Paul's school at Concord, N. H., vestryman in St. Bartholomew's church and manager of the Hospital Saturday and Sunday association.

He also belongs to about 20 clubs.—Philadelphia Record.

HE ANSWERED IN FRENCH.

Novel Way to Get Rid of Numerous Street Beggars.

There is a gentleman of this city who is so fortunate as to be able to converse in several languages besides English and has the remarkable facility of speaking each without an accent foreign to that language. In fact, his accentuation of the language he chooses is so perfect that he is frequently mistaken for a native of the country in which the language is the mother tongue. He has adopted a novel way of ridding himself of the importunities of the professional striker. When he is stopped or approached by one of the class, he talks to the fellow in a foreign tongue, and it is not long before the importunities cease.

A few days since this gentleman was on Kearney street, when a tall specimen of the mendicant class, whose breath was strong with the fumes of liquor, stepped up to him and asked for a dime to get a meal.

"Que voulez-vous?" politely asked the gentleman, turning toward the fellow. The beggar looked amazed for a moment, but he repeated his question, and he received another retort in French from the gentleman, who moved on about his business, but the fellow followed him, and after repeating his demand half a dozen times without producing the desired effect, he exclaimed in disgust: "What in thunder is the matter with you? I can't understand a word you say." Then in a moment he added: "Say, you old bloke, what are you doing in this country, anyhow, if you can't speak English?"

The gentleman has tried this a dozen times or more of late, and as he has not been annoyed by one of these beggars for more than a week, although he has passed many of them, he has come to the conclusion that "de gang is on to him" and will let him alone in future.—San Francisco Call.

The Stage.

I believe that if a pastor of a fashionable church were to denounce any particular play as positively immoral it would very soon disappear from the stage. A very large percentage of the ordinary playgoers are communicants of the churches, and a well considered condemnation of a play would certainly injure its popularity. "Christian people" would not think it "respectable" to sit through a play which had been condemned by their spiritual pastors. All that is needed is a little more ministerial courage with regard to the stage, and it will very soon be seen that the pulpit really possesses more power in this direction than it ever had in the history of the modern drama. One thing is certain—if the stage is left to its own devices, it will become a fruitful source of injury to the moral well being of the nation.—Rev. Thomas P. Hughes in Forum.

If the care of the hair were made a part of a lady's education, we should not see so many gray heads, and the use of Hall's Hair Renewer would be unnecessary.

Why Because

Do people buy Hood's Sarsaparilla in preference to any other,—in fact almost to the exclusion of all others?

They know from actual use that Hood's is the best, i. e., it cures when others fail. Hood's Sarsaparilla is still made under the personal supervision of the educated pharmacist who originated it.

The question of best is just as positively decided in favor of Hood's as the question of comparative sales.

Another thing: Every advertisement of Hood's Sarsaparilla is true, is honest.

NONANTUM.

—Mrs. Leach of Vermont is visiting her
daughter, Mrs. Quincy Green of Waltham
street.
—Miss Nettie Pepler of California street
is reported as recovering from her recent
severe illness.
—Last Saturday evening a cow strayed
from the pasture of Michael Kiley on
Watertown street. The animal was later
found by the police.
—Tuesday evening the King's Daughters
of the North Evangelical church met with
Mrs. H. G. Chapman of California street.
A large number of members attended and
a social hour was enjoyed.
—H. Caldwell, a milkman, reported to the
police Sunday that some time early Sat-
urday morning several milk cans were stolen
from the steps of Mrs. Moran's house on
Cook street and Mrs. Donahue's on Adams
street.
—Next Sunday afternoon an unusually
interesting meeting is promised at the
Beulah Baptist Mission. Mr. E. F. Baker
of Boston will speak and the Bowdoin
Square quartet, also of Boston, will furnish
music.
—Diphtheria is reported as quite preva-
lent in this vicinity. Two deaths from the
dreaded disease have already occurred
within a week. Officer Burke's two chil-
dren, who have been quite ill, are rapidly
recovering and will soon be convalescent.
—A horse attached to a large coal wagon,
the property of the Nonantum Coal com-
pany, ran away on Bridge street, Tuesday
afternoon, and caused considerable damage
before it was captured. The animal was
newly shod and the driver was not aware
it suddenly became frightened and ran toward
the bridge. Near the railroad track the
wagon overturned, throwing the coal about
the streets. Bystanders stopped the horse
near the bridge. The wagon was completely
wrecked.

The Darlington, Wis., Journal says editori-
ally of a popular patent medicine: "We
know from experience that Chamberlain's
Colic, Cholera and Diarrhoea Remedy is all
that is claimed for it, as on two occasions it
stopped excruciating pains and possibly
saved us from an untimely grave. We
would not rest easy over night without it
in the house." This remedy undoubtedly
saves more pain and suffering than any
other medicine in the world. Every family
should keep it in the house, for it is sure to
be needed sooner or later. For sale by A.

The Women's Guild.

At a meeting of the executive board of
the Newtonville Woman's Guild, work
was laid out for the year. It was decided
to have a course of ten lectures on art, by
Mrs. Moore of Newton, these are not to be
given consecutively, but lectures on other
subjects will be interspersed; there will be
some historical lectures referring to New-
ton, by members of the Guild as last year.
Oct. 18th, Mrs. Geo. T. Hill gave a recep-
tion to the members of the Guild, of which
she has so long been an efficient president.
Unfortunately it was a very stormy,
dreary day, and but a few ladies ventured
out. Mrs. Hill was assisted in receiving
by the members of the social committee,
who also presided at the refreshment
tables.
Oct. 20th, the Guild held its regular
meeting, at Denison hall, where it will
hold its meetings during the year.
Madame Strong and Mr. Strong gave a
piano duet in a skilled and finished man-
ner, which was evidently appreciated by
the audience.
Mrs. Hill gave a short talk about the
Federation of the Newtonville
Guild is a component part. The General
Federation of the United States met at
Louisville during the summer. Its meet-
ings are biennial; from it there was no
special report for the Guild, as it had not
been able to find a member to attend as a
delegate.

The Mass. State Federation held its last
meeting in Salem in the Spring. Mrs. Hill
spoke of the fine arrangements made by the
Salem Thought Club, for the entertainment
of its guests, and which were carried out
with great exactness. All of the Guild
delegates attended excepting one, but there
were very few of the other members pres-
ent. More members were urged to attend
these State Federation meetings, as much
good is derived from them and a full at-
tendance would help to place the Guild as
an important member, as it should be, of
the organization.
The executive board of the Newton Fed-
eration of Women's Clubs, had its first
meeting since the summer vacation, Oct.
19th, in the New church vestry, Highland
avenue, Newtonville; vacancies in com-
mittees were filled and meetings of the
Federation arranged. The first will be
held at Abundant, in the Congregational
church, Nov. 10, at 2.30 p. m., under the
charge of the educational committee. The
address will be on "Manual Training," by
the superintendent of the Springfield
schools. After Mrs. Hill's remarks the
program for the evening was read by Mr.
It was a memorial afternoon. Mrs. Mar-
garet Worcester, made a few remarks,
on the character of Mrs. Brooks, speaking of
her beautiful Christian life. The memori-
al to Mrs. Grant was read as the lady
who was to give it, was absent.

Mrs. Hayden and Mrs. Slocum read
papers, portraying the many fine, womanly
Christian traits of Mrs. Mary B. Clavin's
character. They touchingly showed the
great love and respect which every one,
who came in contact with her, could not
but feel, for her kind thoughts and loving
deeds were given out unstintingly to all
humanity.
Mrs. Benner described the oldest farms
of Newton, giving an account of the Gen.
Hull mansion and some of its occupants,
dwelling especially on the hospitalities
displayed by ex-Gov. Clavin and his wife,
during their long sojourn there. Mrs.
Geo. Kimball, in memorial of Harriet
Beecher Stowe, gave an interesting de-
scription of the reception given by Mr.
and Mrs. Clavin to Mrs. Stowe on the oc-
casion of her seventieth birthday. She
spoke of Mrs. Stowe's quiet, unassuming
manner and read Rev. Henry Ward Beecher's
address. As one name after another
was mentioned of those gathered at "The
Elms" that day, one was thrilled with
reverence and delight, and could not but
wonder if ever before, or ever since, or if
there ever can be in the future, a gathering
of such noted American people, world re-
nowned men and women, Longfellow,
Whittier, Holmes, Mrs. Whitney, Lucy
Stone, Henry Blackwell, J. W. Beecher
and his brothers, Trowbridge, Elizabeth
Stuart Phelps, Edna Dean Proctor, and
many others, publishers, authors, states-
men and theologians, all surrounding
and doing honor to a gentle, unassuming
woman. Mrs. Kimball ended her paper with
the poem to Mrs. Stowe written for the oc-
casion by Mr. Whittier. This meeting of
the Guild devoted in loving memory to its
departed members, will be long remem-
bered by those who were there.

Newton Centre Championships.

The first round in the club championship
of the Newton Centre Golf Club was
played Saturday afternoon. The first eight
men in this round are to play off 18 holes,
and the winners of that are to play 36
holes in the final. The day was excellent
for golf, and Mr. Noyes made two excel-
lent nine-hole scores, winning first place
by 11 strokes over his nearest competitor.
The scores, by rounds, are as follows:

City Charter Revision.

The charter revision committee will not
be able to make its report to the city coun-
cil Nov. 1. Several important features
of the new charter are still under discussion
and the final draft has not been submitted
to the full committee. The departments of
public buildings, sewers, highways, etc.,
will be combined under the management of
a single commissioner of public works, re-
movable by the mayor with the consent of
the board of aldermen. The chiefs of the
fire and police departments will be given
increased authority and made directly re-
sponsible to the mayor. It is proposed to
make the office of school committee mem-
ber a more important one by reducing the
number from each ward from two to one.
The candidates for the school board will
be nominated at separate conventions from
other members of the city council and by
different delegates. The committee will re-
port in favor of abolishing the common
council and in favor of a one-board city
government, to consist of 14 ward aldermen
and seven aldermen at large. Under the
new charter the mayor will no longer be
the presiding officer of the board, and the
present committee system will be thoroughly
revised.

Wearing a Hat in Parliament.

There is a certain family in Great Brit-
ain which is so highly respected by the
royal family that its members are per-
mitted to wear their hats even in the presence
of the queen or in the house of parliament
when that august body is in session. The
curious custom is a memento of the famous
contest between the representatives of
King John of England and Philip II of
France. A difficulty arose between these
two royal personages respecting affairs in
the duchy of Normandy, this in the year
1189. It was decided that the matter
should be settled by a combat between an
Englishman and a Frenchman, the cham-
pions to be chosen by the monarchs of the
respective countries. When both came on
the field the champion of France fled with-
out exchanging a blow with the English
champion. When King John asked his
representative to name his price, the man
replied, "Neither lands nor titles, but in re-
membrance of this day only the privilege
for myself and my successors to remain
covered in the presence of yourself and all
other sovereigns of this realm." The re-
quest was granted, and that man's de-
scendants still wear their hats when in the
presence of royalty.—St. Louis Republic.

Gracious Mme. Carnot.

A little story drifts over from Europe
illustrating the large heartedness of Mme.
Carnot. It seems that the brother of her
husband's assassin, in spite of an excellent
character, found it impossible to gain em-
ployment anywhere after the murder. At
last, after having nearly starved in Paris,
he "tramped" into Italy, where he suc-
ceeded in getting the post of porter in a
monastery. All went well until one day
the head of the chapter discovered his name
and antecedents, when he was immediately
dismissed. However, a gentleman who
heard the story undertook to write to
Mme. Carnot on Carrois's behalf, and in
return received a letter promising that he
should have food and employment as long
as she lived. It only remains to be said
that Mme. Carnot was as good as her
word and that her strange protegee is now
a thriving and respected shopkeeper in
Paris.—New York Times.

Painless Execution.

In Germany the view obtains that the
execution of criminals should be by
some means more certain even than the
electric chair. Dr. E. Cuhmann, a cele-
brated chemist, suggests the use of car-
bolic acid. According to his plan, the
criminal would be carried to a cell,
which can be filled noiselessly with car-
bolic acid in gaseous form from floor to
ceiling. When the gas reaches the delin-
quent's mouth and nose it causes im-
mediate paralysis of the lungs and uncon-
sciousness, and life departs without pre-
vious pain.

SUFFERING NEEDLESS.

The Most Intelligent Women Now
Realize This Fact.

Allments that Require Neither Surgical
Operations Nor Consultations With
Male Physicians—Useless Cruelty.

There are two classes of women:
those who always want the doctor
and those who help themselves.

Any intelligent woman knows that
in nine cases out of ten, the ail-
ments of women require nei-
ther surgical examinations nor
consultations with a male
physician.

Thousands of women
who have
suffered tor-
tures from
"female weak-
ness," are to-day well
and strong, all owing to
Lydia E. Pinkham's Vege-
table Compound. Among the writer's
small circle of acquaintances, she
knows of no less than twenty-five
cases cured within a few weeks, and
this after the doctors had stated that
the only chance left was a surgical
operation.

Following we give a statement from
a lady who went through three such
operations. What was the good? We
call it cruelty.
"For nearly eight years I suffered
with headaches, spinal weakness, pain-
ful menstruations, faintness, dizziness,
weakness of the stomach, nervousness
and sharp pains darting through my
whole system. I was doctoring all the
time, and had three operations. I was
completely discouraged, and with
little faith I began to take Lydia E.
Pinkham's Vegetable Compound. I
have taken five bottles, and now find
myself well. I feel it my duty to tell
these facts, for I owe my life to the
Vegetable Compound, and if I had
only had faith before, I would have
avoided those fearful and useless opera-
tions; let every woman take warning
from me."—Mrs. F. H. MEADSKER, Les-
lie, Mich.

NEWTON CENTRE.

—Ivers & Pond pianos, Farley, Newton.

—Mr. Frank Burns is enjoying his annual vacation.

—Fred Stanley has disposed of his depot carriage business.

—Mr. and Mrs. Wilson Ross are receiving congratulations on the birth of a son.

—Mr. W. P. Somers has commenced the erection of a handsome summer residence on Circuit avenue.

—Mr. and Mrs. H. M. Morris of Glenwood avenue are enjoying a two weeks visit in Springfield.

—Mr. Guy Lamkin and family, formerly of Langley road, have removed to their winter home in Boston.

—Somers, the tailor, 149 A Tremont street, Boston, makes a specialty of fine woolsens at moderate prices.

—Mr. and Mrs. C. S. Davis of Beacon street, corner of Greenwood avenue, have returned from a trip to Chicago.

—Cornelius Murphy of Mill street, who was severely injured by being kicked by his horse, is said to be slowly recovering.

—Mr. William Henderson of Parker street has purchased a farm in New Hampshire and will, with his family, remove there next month.

—Messrs. Hopkins and Barker have painted a house and stable for N. N. James on Ward street and have done themselves much credit in the workmanship.

—Mr. W. E. Shedd and Mr. George B. Dewey were among the excursionists who attended the Boston Herald's sound money men's pilgrimage to McKinley's home at Canton, Ohio, this week.

—A new flooring is being laid and other improvements made to the Parker street railroad bridge. When these are completed it is hoped that the Institution avenue bridge will be given the attention it deserves.

—Mr. and Mrs. Carlson of Norwood avenue gave the final of their wedding at homes last Tuesday evening. Their pretty residence was handsomely decorated for the occasion and filled with a large number of friends, who extended their hearty congratulations.

—Mr. L. A. Vachon will probably occupy a store in the addition to Associates block. His office and salesroom will be on the street floor and the repair shop in the basement. Mr. Vachon's business has increased considerably of late and these enlarged quarters will prove quite convenient.

—The first social of the fall season was given at the First Congregational church Wednesday evening. A large portion of the congregation attended and the evening proved a most enjoyable one. Supper was served at 6.30 and was followed by a light entertainment program which was enthusiastically received.

—There are letters in the post office for Miss Jessie Anderson, Mrs. Arthur R. Brush, T. H. Clabbs, Robert C. Clarke, Fanny B. Carpenter, Mrs. Stephen A. Davis, Katherine Davis, Mrs. Mary A. Eaton, Mrs. W. R. Moody, Miss Lizzie Marsh, Catharine McCormick, Annie J. Pearce, Kate Slavin, Henry Stoddard, J. E. Thurbe and Dr. C. R. Wilson.

—The addition to engine 3's house is nearly completed. The transfer of the electrical department to the addition is finished, and the officials of the department expect improved service from the increase of the number of circuits. This increase will result in throwing fewer boxes out of service in case of an accident in any part of the system. In the lower story of the addition are quarters for the chief's wagon and horses and the wagons of the electrical department.

—The grand torchlight parade which was to have been held in this village last Monday evening, has been postponed until next Monday evening. All the Newton companies and several out-of-town companies will participate. The line of march will be over the following route, starting at 8.15 from Beacon street, near Langley road; Beacon to Institution avenue, to Chase, to Langley road, to Glen avenue, to Beacon street, to Summer, to Ballard, to Centre, to Mills, counter march Centre to Ward, to boulevard extension, to Centre, to Beacon, to Crescent avenue, to residence of Mr. F. Haywood, through driveway to Centre, to Walnut, to Lincoln, to Chester, to Forest, to Columbus, to Lincoln, to Walnut, to Lake avenue, to Crystal, to Beacon to square. Chief Marshal will be in charge, assisted by William E. Armstrong, chief of staff.

—Mrs. C. H. Dole died suddenly Sunday morning at her home on Marshall street. It is not known at what time the death occurred, but when the occupants of the house went to call her at nine o'clock in the morning she did not respond. Upon entering her room they found her dead in bed. It is thought that death resulted from heart failure. Her husband is a well-known Newton Centre family. She was the daughter of the late Rev. Dr. Brackett. Mrs. Dole had lived in this place nearly all her life until the death of her husband two years ago when she removed to Brookline. She had recently returned to her Marshall street home with her mother, Mrs. G. H. Brackett. She was 35 years old and prominent in church circles. Besides her mother, two sisters survive her, one a school teacher in Worcester, and the other Mrs. Lewis of Brookline. The funeral services were held Tuesday afternoon.

—The initial match of the bowling season in this place was played on Bray's alleys last Friday evening between the Newton Centre and Upper Falls teams. The match was a close one and both teams made a very fair showing. The score:

—The handsome residence of Mr. and Mrs. Charles Copeland on Gray Cliff road, was thronged Tuesday evening by a representative society people of Newton Centre, the occasion being Mr. and Mrs. Copeland's 10th wedding anniversary. The entire house was thrown open to the guests. Each room was brilliantly illuminated and profusely decorated with bouquets of flowers. Standing in the drawing-room, Mr. and Mrs. Copeland received, assisted by the latter's mother, Mrs. Harvey Mills. Mr. Copeland is a well known artist and illustrator, and for the pleasure of his guests opened his studio on the third floor. Here were hung some of his very latest pieces which called forth much admiration. In the Japanese room, which adjoins the studio, were many curiosities and relics, proving quite interesting upon inspection. In this room lemonade was served. A collation was laid in the dining room. Among those present were Dr. and Mrs. Hovey, Mr. and Mrs. Kealey, Mr. and Mrs. Allen, Rev. E. M. Noyes, Mrs. Noyes, Miss Noyes, Judge and Mrs. Bishop, Mr. and Mrs. W. E. —The Monday Club gave one of the most pleasing social affairs of the season, Wednesday afternoon, in Lincoln hall. The hall was daintily decorated with streamers of hunting, palms, and yellow and white chrysanthemums. Two groups of ladies received the guests. Mrs. Phipps, the founder of the club, Mrs. Nickerson, the president, and Mrs. Cobb, an ex-president, composed one group, while Mrs. May and Mrs. Strong, the two vice-presidents, and Mrs. Minerva Stone, the corresponding secretary, made up the other group. Fruits, chocolate, cakes and beverages were served by Mrs. McIntyre, Mrs. Bosson, Mrs. S. L. Eaton, Mrs. Poppel and Miss Clara White. Fourteen prettily gowned young ladies waited on the guests and the friends of the members acted as ushers. The first number on the program was a French-English recitation by Mrs. Barnes. She read in a true French style and manner. She responded to a hearty encore with "A Scene in a Country Hotel." Music was furnished by Mrs. Tewksbury, who sang sweetly. Notes of regret were read from Mrs. Mary A. Livermore and Mrs. John Vance Cheney. Mrs. May, president of Vermont Federation of Women's Clubs, spoke for a few moments. This was followed by a short talk from the founder and former president, Mrs. Phipps. Mrs. Phipps said that when she was a young woman she desired to have a woman's club in Newton Highlands. After some talk with a few of the leading women the following notice was read in the Congregational church: "All ladies interested in the social, religious and educational development in Newton Highlands will meet tomorrow at the home of Mrs. Phipps. Fifteen came and brought their sewing. The first topic was Boston. The subject was divided into a number of parts, history, description of buildings, great men, great women, its schools, and in fact they touched the subject on all sides. Mrs. Phipps considers the wonderful success of the club due to the beautiful spirit the ladies have in relation to one another. She traced women's movements from their sudden spring into life a few years ago. Mrs. Phipps believes the Woman's Christian Temperance Union the greatest movement among women and close upon it comes the Women's Club. The Rev. Mr. Phipps was the only man present among the hundred and fifty women, and their only honorary member. Mr. Phipps was called upon to speak from the floor. His remarks were characterized by his usual bright humor. Mrs. Walton of the Educational Club of West Newton was another attractive speaker. This afternoon closed by a few

words from Mrs. Nina Dyer, who is so well known to women in and about Boston.

—Services at St. Paul's church next Sunday. Litany and Holy Communion, 10.45; Sunday school 12.15; evening prayer 7 p.m. The Rev. Mr. Kellner will officiate.

—The Newton Upper Falls bowling team will play a match with the Newton Centre team on the Quinequegan bowling alley. Last week the local team went to Newton Centre and defeated the team of that place by a score of 2267 to 2256.

—Mr. Fred Stockman and his mother, Mrs. Stockman, who have been residents of this place for a number of years, removed to Hyde Park street, where they are now residing. Mr. Stockman and his son are members of one of the best known families in Upper Falls and will be greatly missed by a large circle of friends.

—John Mitchell, employed in the Pettie machine shop, while at work Wednesday afternoon was struck by the revolving handle of a crane and sustained severe injuries about the head. He was removed to his home on Mechanic street and attended by Dr. M. T. Jen, who took several stitches in the wounds.

—Mr. Bernard Billings and his brother, Mr. O. G. Billings, were among those who joined the Boston Herald pilgrimage to Canton, Ohio, this week. Both gentlemen are enthusiastic sound money Republicans. Mr. B. Billings when asked concerning the appointments of cabinet officers McKinley would probably make gave his opinion as follows: State, Lodge; treasury, Sherman; war, Lincoln; postmaster, General Evans; navy, Gen. Osborne of Massachusetts; agriculture, Proctor of Vermont. Mr. Billings was presented to Maj. McKinley, and showed that gentleman a badge which he had worn in 1860 when he was the original "Wide Awakes" of Hartford, Conn.

—Charles R. Brown, a resident of this place, who was deprived of what he believes was his right to vote at the recent Republican caucus in Ward 5 because his name was not on the voting list, claims the statute law should be amended so that a voter's name shall be placed on the voting list before the caucuses of any political party. He had been, he says, a resident of Ward 5 in Newton for 27 years, and a voter for five years. His name did not appear on the list, and he was refused the privilege of voting. He urged the chairman to use the old list, but the chairman said he must use the last printed and published list, which Mr. Brown learned subsequently had not been posted until 3 o'clock on the day of the caucus. The mistake arose from Mr. Brown not being reported as living at his residence, but the whole thing was merely following the law.

NEWTON LOWER FALLS.

—Bishop's mill is being repaired by A. P. Sanderson.

—The Dudley Mills have resumed running on 9 hours a day.

—Remember tomorrow is "Flag Day." Put out your flags.

—Andrew B. Hayden has been appointed warden of this precinct.

—The Sunday evening topic of Rev. O. R. Miller at the M. E. church is: "The Model State."

—William Orrett, dyer, employed at the Dudley Mills, returned from a trip to his home in New York Sunday.

—Mr. Matthew Manning has severed his connection as salesman with Gately & Cox of Boston and with a partner is engaged in a similar business.

—A sound money torchlight procession formed here Tuesday evening and marched to Wellesley. Many residents and business men illuminated along the route.

—The distinguished Gracian Art Tableau Company have been engaged by the Entertainment Committee of the M. E. church at Freeman Hall, Thursday evening, Nov. 12, and furnish their famous entertainment.

—There is to be a meeting of all the citizens of this place who are interested as to who shall represent them in the Newton City Council next year. Meeting is called for Freeman Hall, tomorrow evening at 7.30 sharp.

—Miss Theresa Welch of Weston attempted suicide in this place shortly after noon Wednesday. Louis Gammons of Lower Falls, who was standing on the Concord street bridge over the Charles river about 12.45 p.m. before he could reach her she sprang into the water, which at this point is about eight feet deep. He hastened to her rescue, and managed to draw her to the bank. Patrolman Tainter took charge of her and conveyed her to her home, where her parents took care of her. She is 27 years old. Her health is supposed to have been the cause of her suicidal attempt.

WABAN.

—Mr. Page has had the platform at the front of his block repaired this week.

—Anyone finding a pocketbook in this vicinity could leave it at the store and no doubt would receive the gratitude of the owner.

—Contractor Hunt is making good progress on the church. It will be all boarded in and shingled this week.

—The stone foundation of Mr. W. C. Strong's new building is nearly completed and the brick work will soon commence.

—Next Tuesday is election day, both state and national. Voters don't forget the fact that you can vote in Waban this year. Polls open at 7 a.m.

—There are letters in the postoffice for Miss Mary A. Coffin, Mrs. Marcus Beebe, Charles Irving, (3), Miss Emma Thompson, Miss Melba Hunger, Thomas Clark, Miss Christie McNeil, Miss Mary A. Thayer, Joseph Taylor and James Scott.

—The poverty party given by Mrs. A. E. Phelps in Village hall, last Friday night, proved a very enjoyable and successful affair. The party was held for the benefit of the new church and thirty-five dollars was realized.

—Mr. Owen Hill of West Newton has placed a public carriage at the railroad station here and invites the patronage of the people. He guarantees the best of satisfaction and at reasonable rates. There is no mistaking the fact that Waban is growing and a public carriage is one of the necessary conveniences. It is hoped that it will prove a success. Orders can be left at the station or at the store.

To Found a Home.

A meeting was held in the rooms of the Associated Charities at Newtonville last evening to take steps to secure the foundation of a home for aged men and women in Newton. Rev. W. A. Lamb presided and a large number of persons interested in local charities were present.

After the matter had been discussed at length a committee was appointed to nominate a permanent committee, to agitate the matter, to consist of representatives from each ward of the city.

Under the will of the late Ephraim Stone the sum of \$50,000 is available for the erection and maintenance of such a home in Newton. The will directs that half of the sum shall be devoted to securing land and erecting a building, and the remainder to the maintenance of the home.

The trustees of the fund are of the opinion that the interest of \$24,000 would be insufficient to maintain the institution and have taken no action.

It is now proposed to raise a sufficient sum in Newton to make this legacy available.

The Associated Charities held their annual meeting last evening in Central block and elected the following officers: Rev. A. S. Twombly, president; Dr. D. E. Baker and Mr. Otis Pettie, vice-presidents; Hon. G. D. Gilman, treasurer, and Rev. Daniel Greene, director.

The Williston Home.

Is it not possible for some of the charitable disposed of our citizens to send to the Williston Home, Waltham street, West Newton, some of their surplus apples and other fruits and vegetables, not wind-falls, but well earned barrels of good winter keeping Baldwins and Greenings. With the boasted plenty of fruit this fall, it must be hard to find a market for much of the harvest, and is it not a good time to transfer a portion of nature's benefits to our Heavenly bank account?

LOUISE A. CHAPMAN.

Newtonville, Oct. 28.

High School Notes.

The October number of the Review made its appearance this week. This is the first number edited by the class of '97. As usual there is a good deal of fun at the expense of the freshmen.

Class '99 have a design for their class pins, which they expect to receive in about a week.

The '99 foot ball team will play the freshmen team this afternoon.

A new tar sidewalk is being laid around the Pierce school. This is quite an improvement on the stones.

Another Victim of Prunes.

"Hello, Johnson! I haven't seen you for some time. Where are you living now?"

"I don't live anywhere. I board."—Indianapolis Journal.
